By Ordinance 16120 of November 21, 1952, the City Council of the City of Kansas City authorized and created the Land Clearance for Redevelopment Authority of Kansas City, Missouri under the Land Clearance for Redevelopment Authority Law, Section 99.300 et. seq. R.S. Mo. Section 99.310 of such Law, the Declaration of Policy, states:

"It is hereby found and declared that there exists in municipalities of the state insanitary, blighted, deteriorated and deteriorating areas which constitute a serious and growing menace injurious to the public health, safety, morals and welfare of the residents of the state; that the existence of these areas contributes substantially and increasingly to the spread of disease and crime, necessitating excessive and disproportionate expenditures of public funds for the preservation of the public health and safety, for crime prevention, correction, prosecution, punishment and the treatment of juvenile delinquency and for the maintenance of adequate police, fire and accident protection and other public services and facilities, constitutes an economic and social liability, substantially impairs or arrests the sound growth of communities and retards the provisions of housing accommodations; that this menace is beyond remedy and control solely by regulatory process in the exercise of the police power and cannot be dealt with effectively by the ordinary operation of private enterprise without the aids herein provided; that the elimination or prevention of the detrimental conditions in such areas, the acquisition and preparation of land in or necessary to the development, renewal or rehabilitation of such areas and its sale or lease for development, renewal or rehabilitation in accordance with general plans and redevelopment or urban renewal plans of communities and any assistance which may be given by any public body in connection therewith are public uses and purposes for which public money may be expended and private property acquired; and that the necessity in the public interest for the legislative determination; and that certain insanitary, blighted, deteriorated or deteriorating areas, or portions thereof, since the prevailing condition of or decay may make impractical the reclamation of the area by conservation or rehabilitation, but other areas or portions thereof, through the means provided in this law may be susceptible to conservation or rehabilitation in such manner that the conditions and evils herein before enumerated may be eliminated, remedied or prevented, and to the extent feasible, conserved and rehabilitated by the voluntary

action and the regulatory process. A municipality, to the greatest extent that it determines to be feasible in carrying out the provisions of this law, shall afford maximum opportunity, consistent with the sound needs of the municipality as a whole, to the redevelopment or rehabilitation or renewal of areas by private enterprise."

BROOKLYN EAST I URBAN RENEWAL PLAN

FUNDER: Housing & Economic Development Financing Corporation

BUDGET: To Be Determined

LOCATION: Area generally bound by 20th Street on the north, Brooklyn Avenue on the west, 24th Street Terr. on the south and Wabash Avenue on the east.

AREA PLAN: WASHINGTON WHEATLEY-WENDELL PHILLIPS-DOWNTOWN EAST PLANNING STUDY

COUNCIL DISTRICT: 3rd - Mary Williams-Neal and Vacant seat

PROJECT: Infill Housing

OBJECTIVES: The Brooklyn East I Urban Renewal Plan will allow for:

- Acquisition and disposition of 30 parcels of land
- Construction of 33 single family homes at an average of 1,300 sq. ft. and at an average cost of \$95,000
- Provision of safe and sanitary dwelling accommodations for low and moderate income residents of Kansas City
- Redevelopment of land parcels which are blighted and insanitary

LCRA ASSISTANCE: Assistance anticipated by the Developer includes:

- Acquisition of 30 parcels of land
- Tax Abatement

BLIGHT STUDY:

Status of the 119 Parcels:

- Acquisition Category 30 (25%)
- Vacant Parcels: 57 (48%)
- Vacant Structures: 14 (12%)
- Single-family Residential 58 (49%)
- Multi-family Structures 2 (2%)
- Duplex 1 (1%)
- Church 1 (1%)
- Junk Yard 1 (1%)

Common signs of deterioration:

- Rotting wood
- Broken windows
- Missing shingles and warped roofs
- Holes in walls, missing bricks, falling siding
- Sagging porches, warped porch floors, falling porch ceilings, missing railings, sinking steps
- Missing or falling gutters
- Buckling or crumbling retaining walls
- Overgrowth of weeds and litter
- One structure gutted by fire

Total Assessed Valuation Now

I. DESCRIPTION OF THE PROJECT AREA

The Brooklyn East I Urban Renewal Area is generally described as 20th Street on the North, 22nd Street on the south, Wabash on the east and Brooklyn (west side) on the west. (See Exhibit A: Project Boundary.) The Plan area is sizable and encompasses and surrounds several Infill housing projects. (See Exhibit A-1: Legal Description) The vision for the development of the Brooklyn Infill project was to build housing areas, especially along Brooklyn, to induce neighboring property owners to make improvements to their properties. The current strategy is to phase in development areas as opportunities arise and conduct a methodical redevelopment strategy of infill housing.

The project area is within the Washington Wheatley-Wendell Phillips-Downtown East Planning Study Area. Area Plans act as a guidepost to future development in the plan area. The project area within the Washington Wheatley-Wendell Phillips- Downtown East Planning Study describes the area as single family low density residential. The overwhelming land use is single-family residential at 49% and the other sizable land use at 48% is vacant land. The proposed land use for the project area is low density residential which coincides with the uses proposed in this urban renewal plan and is compatible with the future land use proposed in the Washington Wheatley-Wendell Phillips-Downtown East Planning Study.

II. FINDINGS

The Land Clearance for Redevelopment Authority conducted surveys and investigations that determined that the project area is blighted and in need of redevelopment by Resolution No. 98-68, dated November 25, 1998. The LCRA reconsidered the Brooklyn East Urban Renewal Plan and by Resolution 2-1-99, dated February 24, 1999 is modifying that plan and separating it into two plans. This plan is described as Brooklyn East I. The project area in some respects resembles a disaster area. There are huge masses of vacant land throughout the project area. Some of those areas are attracting illegal dumping that jeopardizes the health and safety of the community. It creates a breeding ground for rodents and other vermin. Vacant structures in the plan area also pose a threat to the community and especially unsuspecting youth. A typical neighborhood fears the abandonment of structures and increases in the number of vacant lots because it lowers property values and brings a hardship to the community. Over the years, the population in the project area has declined significantly leaving the elderly and impoverished. Abandonment and the lack of funds to sustain viable living quarters, has had its toll on the community. Not only has the population numbers decreased but also the total number of dwelling units. (See Exhibit B: Blight Study.)

III, STATEMENT OF DEVELOPMENT OBJECTIVES

The local objectives to be achieved through the inclusion of certain tracts into the acquisition category and implementation of this project include the creation of a physical character and environment meeting desirable planning standards, the provision of controlled and orderly residential redevelopment through new construction of housing units in conformance with the building and zoning codes of the Kansas City, Missouri which shall provide housing accommodations for families.

Development objective to be met through the establishment of this urban renewal plan include the following items:

- To eliminate the adverse conditions which qualify the redevelopment project area as a blighted area and an insanitary area, within the meaning of the Land Clearance for Redevelopment Authority Law, and to prevent the recurrence of these conditions which constitute an economic and social liability, which have impaired the provision of orderly residential development, and which impair the tax base and general welfare of the community.
- To enhance the tax base of the municipality and the other public taxing districts by developing the area to its highest and best use and encouraging private investment in the surrounding areas, thereby increasing tax revenues and corresponding public service to the community.
- To provide, in harmony with the general plan for the community, a coordinated, adjusted and harmonious development of the community and its environs.
- To promote health, safety, order, convenience, prosperity and the general welfare, as well as efficiency and economy in the process of development standards and controls which will ensure the sound development of the area.
- To upgrade and refurbish utilities, public facilities and improvements scaled to serve the redevelopment area as may be required by the City of Kansas City, the provisions of off-street parking areas, and development standards for the overall project area.
- To eliminate deteriorating structures now existing within the subject redevelopment area through the implementation of this Urban Renewal Plan which provides for sites for redevelopment through appropriate techniques in accordance with this Redevelopment Plan.

IV. LAND USE PLAN

A. Land Uses

There are several land uses identified within the plan area including: single-family, duplex, multi-family residential, institutional, small business and vacant lots. The predominant land use within the project area is single-family residential (49%) followed closely by vacant parcels (48%). (See Exhibit C: Existing Land Use) The duplex units within the project area are reflected in the following numbers: 5 duplex units that has 1 occupied; 4 vacant. There is 1 church within the project area and 1 vacant abandoned commercial structure. There are city blocks that are almost entirely vacant and have become attractive nuisances for polluters and juvenile delinquents. The quality of the structures remaining in the project are marginal and without intervention will deteriorate to the point that demolition will be necessary. A Code Enforcement Program should be initiated in the project area coupled with low interest loans so owners can rehabilitate existing structures feasible for redevelopment.

The goal of this urban renewal plan is to integrate the current Brooklyn Infill Housing Projects in with the tracts that comprise the Brooklyn East I Urban Renewal Area. In some instances, entire city blocks could be redeveloped in such a fashion that the area would appear to be a new subdivision. The proposed land use plan must designate land uses that make the most sense for the surrounding community. The one land use to be established in this urban renewal area should be low density residential. (See Exhibit D: Proposed Land Use) Most of the existing housing stock is now in decline but could be stabilized by the infusion of funds for loans and investment by current land owners. If the community is united and a concerted effort is made to preserve the neighborhood and new construction single-family affordable housing is built, that's the way neighborhoods grow.

B. Design Objectives and Controls

Due to the residential nature of the plan area, particular attention should be paid to the materials, heights, massing and views of all structures.

Overall design objectives are hereby established in order to achieve sound and attractive development within the Urban Renewal Area. All site and building designs will be subject to the LCRA "Design Review Process" (Appendix 1).

1. **Building Design Objectives:** The structures shall be an integral element of the overall site design. The basic design objective is the construction of new single-family infill housing and the creation of an environment which is compatible with other existing residential structures in the area, and will

respect, to the extent possible, existing structures setbacks and architectural character of adjacent properties.

2. Parking Design Objectives: Developers shall provide adequate parking and landscaping in combination with the overall site improvements. Parking areas shall be designed with careful regard given to orderly arrangement, landscaping, security, amenity of view, ease of access, and as an integral part of the total site design. The provision of parking may be provided off-site or on-street if allowable under existing City of Kansas City Codes, or if approved upon consideration of the Board of Zoning Adjustment of the City of Kansas City.

C. Zoning

There are two zoning classification within the project area: R4 Low Rise Housing District and M1- Light Industrial. The overwhelming zoning classification is R4. (See Exhibit E: Existing Zoning). The land use in the area is not appropriate due to the condition of the property and neglected maintenance. The proposed land use and zoning under this Urban Renewal Plan calls for the project area to be low density single-family residences. To accomplish the proposed zoning, changes in zoning will be needed and should reflect R1a characteristics. (See Exhibit F: Proposed Zoning) Safeguards to be employed are a reflection of the neighborhood's character of single -family housing and wishes to keep this community single-family and avoid the overcrowding of housing structures.

V. URBAN RENEWAL TECHNIQUES TO BE USED TO ACHIEVE PLAN OBJECTIVES

With respect to the particular urban renewal techniques to be used in the Brooklyn East Urban Renewal Plan:

1. The LCRA will designate certain parcels of land which will be included in the land acquisition category.
2. Land acquisition through eminent domain powers of the LCRA may be required to carry out this plan.
3. The LCRA shall provide tax abatement to projects in conformance with this plan.

VI. OTHER PROVISIONS NECESSARY TO MEET REQUIREMENTS OF LAW

- A. Existing utility service mains may need to be upgraded to serve the Project Area, at the expense of the developer. If, at the time the development

- takes place, additional public facilities and/or utilities are deemed to be necessary, it shall be the responsibility of the developer to provide same.
- B. No changes in existing street, street levels or grades, vacations of streets, or revisions of existing traffic movement patterns are required under this Plan.
 - C. No changes in building codes are required.

VII. PROPOSED FINANCING

Financing for the development proposals may utilize conventional publicly assisted financing. The program is designed to stimulate private enterprise to provide rehabilitation and new construction activities. There are a number of programs available to assist home buyers to finance their purchases in Kansas City. (See Exhibit G: Financing Tools) LCRA may provide tax abatement as provided under the Land Clearance for Redevelopment Law of Missouri, Section 99.300, et. Seq. R.S. MO, or other statutory incentives for development in accordance with the plan.

VIII. RELOCATION

All relocation activities which are part of this plan are subject to the Uniform Relocation Act. Relocation is an activity in this plan because redevelopment activities cover areas not currently owned by the developer or potential developers and therefore eminent domain powers will be used to assemble tracts within the project boundary, if necessary. (See Exhibit H: Acquisition Tracts)

Those tracts acquired as a result of this plan will be disposed of to the successful redeveloper or redevelopers carrying out the objectives of this plan. (See Exhibit I: Disposition Tracts)

IX. AFFIRMATIVE ACTION PLAN

The Land Clearance for Redevelopment Authority has developed an affirmative action process (Appendix 2: Affirmative Action Policy) which requires that developers and project contractors submit individual affirmative action plans. All projects approved by LCRA are subject to applicable federal, state and/or City affirmative action regulations, requirements, guidelines and procedures.

X. DURATION OF CONTROLS

This Urban Renewal Plan shall be effective for a period of twenty (20) years from the date of approval by the City Council of the City of Kansas City, Missouri, unless otherwise amended by the City.

XI. PROVISION FOR AMENDING PLAN

This Plan may be modified by the Authority provided that, where the proposed modifications will substantially change the development of urban renewal plan as previously approved by the City of Kansas City, Missouri, it must similarly be approved by the City Council.

Legal Description Brooklyn East I Urban Renewal Plan

Beginning at the Northwest corner of Lot 23, McLevy & Walley's Resurvey of Blocks 1 & 2 Brooklyn Heights, then East 974.53 Feet along said lot line extended to the Northwest corner of Lot 68, Ansley Brooklyn Heights Resurvey of Block 3, then South 869 Feet to the Southwest corner of Lot 76, Resurvey of Blocks 4 & 5 Brooklyn Heights, then West 980.86 Feet to the Southeast corner of Lot 6, Block 6, then North 96 Feet to the Southeast corner of Lot 4, Brooklyn Heights, then West 130.89 Feet to the Southwest corner of Lot 4, then North 144 Feet to the Northwest corner of Lot 2, Brooklyn Heights, then East 130.89 Feet to the Northeast corner of Lot 2, then along said lot line extended 15 Feet to the East, then North 625.56 Feet to the point of beginning.

The above described plan boundary is for the Brooklyn East I plan area. However, there are existing infill housing urban renewal plans within the overall boundary of Brooklyn East I and will be excepted out of this description as follows

Infill No.	Street Address	Legal Description
88	2200-12 E. 21 st St.	Lots 1 through 4, Demarest Place
89	2010 Park	McLevy & Walleys Resurvey of Blocks 1&2
91		Brooklyn Heights, All of Lots 13 through 19, Block 1 South 45 Feet of East 130 Feet of Lot 1, also East 15 feet front on West line Park Avenue Lying South of and adjacent East 130 Feet Lot 1, Block 6, Brooklyn Heights.
103	2418-22 E. 21 st St	Ansleys Resurvey of Block 3 Brooklyn Heights, West 45 Feet of East 90 Feet of Lots 18 & 19 and East 45 Feet of Lots 18 & 19 and East 90 Feet Lot 20 & East 90 Feet of the South 15 Feet of Lot 22.
104	2021 Olive	Ansleys Resurvey of Block 3 Brooklyn Heights, South 15 Feet Lot 12 & North 15 Feet Lot 13, Except part in Olive Street
105	2029 Olive	Ansleys Resurvey of Block 3 Brooklyn Heights, Lot 17, Except part in Olive Street
106	2009-11 Park	McLevys & Walleys Resurvey of Blocks 1 & 2 Brooklyn Heights, South 7 Feet Lot 5 and all Lots 6 through 8, and North 14 Feet of Lot 9, Block 2
107	2010-14 Olive	McLevys & Walleys Resurvey of Blocks 1 & 2 Brooklyn Heights, North 7 Feet of the West 124.5 Feet Lot 30 & South 21.5 Feet of the West 124.5 Feet of Lot 31, Block 2 & North 14 Feet of the West 124.5

		Feet of Lot 29 & South 18 Feet of the West 124.5 Feet of Lot 30 Block 2 and North 19 Feet of the West 124.5 Feet of Lot 29, Block 2 and West 124.5 Feet of Lot 27 South 6 Feet of the West 124.5 Feet of Lot 28 Block 2 and North 7 Feet of the West 124.5 Feet of Lot 26 Block 2.
121	2014 Wabash	Ansleys Resurvey of Block 2 Brooklyn Heights, North 20.5 Feet of Lot 25 and the South 5 Feet of Lot 26
122	2114-16 Wabash	Resurvey of Blocks 4 & 5 of Brooklyn Heights, Lots 52 & 53.
123	2026 Olive	McLevys & Walleys Resurvey of Blocks 1 & 2 Brooklyn Heights, North 17 Feet of the West 124.5 Feet of Lot 19 & South 15 Feet of the West 124.5 Feet of Lot 20, Block 2.

EXHIBIT B

BLIGHT STUDY

The Brooklyn East I Urban Renewal Area encompasses approximately 8 city blocks, roughly between 20th Street and 22nd Street and Brooklyn to Wabash. Conditions in the area are poor. There are two census tracts that have portions of the urban renewal area within them: 32 and 39. The following tables shows trends in this geographic area.

CENSUS TRACT	POPULATION			% Δ 70-90
	1970	1980	1990	
32	1667	1059	810	51%
39	2808	1716	1442	49%
TOTAL	4475	2775	2252	50%

CENSUS TRACT	DWELLINGS			%Δ 70-90
	1970	1980	1990	
32	882	592	427	52%
39	1196	829	770	36%
TOTAL	2078	1321	1197	42%

In the two census tracts; 32 and 39, there has been a two decade trend of declining population of 50 %. Population figures in 1970 showed a total of 4475 people, by 1980 that total had declined to 2775 and by 1990 that total was 2252, representing the 50% decline. Statistics do show that the rate of decline is at a slower pace between 1980 and 1990. It is anticipated that the year 2000 decennial census the pace of decline will show stabilization due to fewer people and people with less choices.

The study area had 2078 dwelling units in 1970 and by 1980 the number of dwelling units had declined to 1321. The two decades, 1970 and 1980 shows a decline of 42% of dwelling units.

An analysis of the census tracts in the urban renewal project area, shows that there are 72 single-family occupied homes of which 45 are owner occupied. For this area the high owner occupied rate of 69% is a plus for the neighborhood because the residents have a stake hold in the future of their property. There are 14 structures that are vacant which is a 12% vacancy rate for the project area. The high number of vacant homes in the project creates a hazard in the community. Throughout the City, vacant structures left unsupervised have a tendency of becoming arson fires.

The project area has an overwhelming area of vacant land that is not in productive use. This land provides opportunities for illegal dumping that jeopardizes health and safety of the community. These types of areas filled with trash and debris create a breeding ground for rodents, vermin and disease. Vacant unattended land also provides the opportunity

for youth to become involved in juvenile crime. (See Attached photographs and data sheets.)

The area, no doubt, is in a declining stage. Without some type of redevelopment intervention the area will continue to lose population, dwelling units and decreased tax revenues.

RATING (see Definition of Ratings)

☐ Excellent ☐ Good ☐ Fair ☒ Poor ☐ Very Poor

BASIC REASONS FOR RATING (brief note):

The following are a sample of the properties included in the new proposed urban renewal plan

2202 E 20th Street – Dilapidated structure on the corner of 20th & Brooklyn. This structure is currently on the Dangerous Buildings list.

2214 Brooklyn – Beyond repair

19th & Park/Olive – Vacant land. The majority of this land is currently owned by Housing and Economic Development Financial Corporation. Site of numerous and frequent dumping. Former site of pallet storage, recently cleaned by HEDFC.

2007 Park – Street scene. This site is adjacent to 2309 E 20th Street. Both sites are zoned R4 and are being used for commercial purposes.

2007 Park – Another picture showing the interior of lot which is being used for commercial purposes, mainly storage of junk cars, etc.

2309 E 20th Street – Occupied rental structure adjacent to 2007 Park. Proposed acquisition/demolition for this site (contingent upon environmental). Large fence around junk cars.

2309 E 20th Street – Another view of interior of lot.

2127 Park – Beyond repair. Absentee owner. Property is on Dangerous Buildings list.

2118 Park – Vacant structure. Possible purchase/rehab.

Street scene of Park Avenue between 21st & 22nd. Numerous vacant parcels line both sides. This is the site of frequent dumping activities.

West side of 20th & Olive – Site of frequent dumping. Behind brush is large fence, similar to 2309 E 20th. Behind the fence is large amount of debris, junk, etc.

WABASH

2002 Wabash – Vacant property owned by Land Trust. This property has been on the Dangerous Buildings list for some time.

2108 Wabash – Vacant, beyond repair.

2122 Wabash – Vacant, beyond repair.

2109 & 2111 Wabash – Both vacant, possible candidates for purchase/rehab.

2503 E 21st Street – Dilapidated structure on the SE corner of 21st & Brooklyn. Definite purchase/demolition candidate.

APPENDICIES

APPENDIX 1

DESIGN REVIEW PROCESS

All redevelopment proposals for the Kansas City Redevelopment Authority's Disposition Parcels will be subject to design review and approval by the Authority before and after the execution of a Disposition Agreement, Inducement Resolution, Redevelopment Contract, Certificate of Tax Abatement or other necessary action of the Authority. In addition, all development proposals for new construction or the rehabilitation of existing structures within designated urban renewal areas will be subject to the Authority's design review and approval. This review will evaluate the quality and appropriateness of the proposal on the basis of planning and design objectives stated in the Plan and the special land use and building requirements stated in more detailed and refined development objectives and controls which may be prepared for the site.

This review will be conducted by the Authority. The Authority may engage professional consulting services from time to time to provide technical advice. Required submissions shall be made to the Authority through the Executive Director.

Required submission will occur at three stages in the preparation of the redevelopment proposal. Additional informal reviews at the request of either the Redeveloper or the Authority Staff are encouraged. It is the intention of the Authority Staff that once approval has been given of a submission stage, further review will be limited to consideration of a development or refinement of previous approved submission, or to new elements which were not present in previous submissions.

The formal stages of submission follow:

1. SCHEMATIC DESIGN

This review is intended to secure agreement on and approval of the basic design concept prior to extensive work by the Redeveloper's Architect. The Authority does not encourage submission of more than the following, which it feels is sufficient to describe the proposal:

- a) Site plan at any appropriate scale (1" = 100' and 1" = 40' are preferred scales); emphasizing general relationships of proposed and existing buildings, walls and open space, including that mutually defined by buildings on adjacent parcels and across streets. The general location of walks, driveways, parking, service areas, roads and major landscape features, in addition to the buildings, should be shown. Where relevant, site sections showing height relationships with proposed and adjacent buildings shall be provided.

- b) Building plans, elevations and sections at any appropriate scale, showing organization of functions and spaces. These drawings need not be more detailed than sufficient to indicate general architectural character and proposed finish materials.
- c) All sketches, diagrams and other materials relevant to the proposal which were used by the architect during his initial study and which will help clarify the architect's problem and his solution to it.
- d) Written statement of proposal, including total square footage, F.A.R., number of parking spaces, structural system and principal building materials and estimated costs.
- e) Proposed time schedule for the following submissions and estimated construction time.

Upon approval by the Authority of the SCHEMATIC DESIGN, the following submission is required:

2. DESIGN DEVELOPMENT

This review is intended to secure agreement on and approval of the final design prior to extensive and detailed work on the preliminary drawings.

- a) Site Plan development of 1 (a) at 1" = 40' minimum (or as determined after approval of SCHEMATIC DESIGN). Phasing possibilities, if any, shall be shown. Proposed site grading, including typical existing and proposed grades at parcel lines shall be shown. Those areas of the site proposed to be developed "by others" or easements to be provided for others shall be clearly indicated. All dimensions which may become critical from the point of view of zoning shall be indicated, including adjacent buildings, streets and buildings across streets shall be indicated, if appropriate.
- b) Site sections at 1" = 40' (minimum) showing vertical relationships in addition to those shown above.
- c) Building plans, elevations and sections developed from those of 1 (b).
- d) Time schedule for the following submission.

Upon approval by the Authority of the DESIGN DEVELOPMENT, the following submission is required:

3. FINAL WORKING DRAWINGS AND SPECIFICATIONS

This review is intended to secure final agreement on and approval of the contract documents and the complete proposal.

- a) Complete site plans for the final parcel development to working drawing level of detail. These drawings, upon approval, will serve as a basic coordination drawing indicating scope of work and responsibilities to be performed by others.
- b) Complete working drawings and specifications ready for bidding.
- c) Statement of proposal, indicating differences, if any, from 1 (d).
- d) Time schedule for construction of this project.
- e) Detailed financial plan, including costs, rents and operation.

Once FINAL WORKING DRAWINGS AND SPECIFICATIONS have been approved and construction started, the only items subject to an additional review will be request for change orders in the construction. The Redeveloper is strictly required to construct the project in accordance with all details of the approved drawings. Permission to make changes from such approved drawings must be requested by the Redeveloper in writing to the Executive Director, who, in turn, will reply in writing, giving his approval or disapproval of the changes. No changes in the work are to be undertaken until such approval has been obtained.

APPENDIX 2

AFFIRMATIVE ACTION PROCESS

The procedures outlined are designed to secure maximum opportunities for minority contractors and subcontractors to bid for work on projects carried out by the Authority's redevelopers. This is intended to be consistent with Equal Employment Opportunity and Affirmative Action objectives and regulations.

These procedures have been re-examined, sharpened and clarified in an effort to encourage redevelopers and general contractors to use minority-owned businesses. The Land Clearance for Redevelopment Authority should bring its requirement for minority business participation to the attention of redevelopers and contractors early so that Minority Business Enterprises will be included in the bidding process.

It should be pointed out to the redeveloper that minority businesses include materials suppliers and professional consultants, as well as construction contractors.

STEP I

Within a reasonable time after a potential developer has been identified by the Authority, a pre-developer conference will be held.

The redeveloper will be acquainted with the requirements for land sale or lease at this conference. The following information will be provided to the Authority's Equal Employment Opportunity Officer:

A. Equal Opportunity Requirements.

1. Each redeveloper is required to complete an affirmative action plan. The plan is to be completed based upon the known information available to the redeveloper before initial submission to the Authority's Board of Commissioners to consider their proposal to acquire and develop Authority land.
2. Pre-Award Commitments - The developer is to disclose to the Equal Employment Officer, in writing, any pre-award commitments to contractors or suppliers.
3. Equal Employment Opportunity Packet - Affirmative Action Plans (developers, general contractors, subcontractors), Good Faith Effort and Minority Resources, Executive Order #11246, Chapter IV - Contractor's

Responsibilities, Minimum Wage for Each Job Classification Requirements, Authority Board Policies.

4. Contractor's Responsibility under Section 26.228 of the Code of General Ordinances of the City of Kansas City, Missouri, which requires the development of an affirmative action program.

STEP II REDEVELOPER SUBMISSION FOR BOARD APPROVAL

- A. Redeveloper submits all land sale and affirmative action documents for staff review (as required in Article VII of the "Contract to Sell and Purchase," etc.) and the Authority's Affirmative Action Policy.
- B. Subsequent staff recommendations to the Board of Commissioners on documents received by the redeveloper.

STEP III REDEVELOPER SUBMISSION FOR FINAL BOARD APPROVAL

- A. Board approves by resolution items of Article VII of the "Contract to Sell and Purchase," which include the following:
 1. Final development plans, including plans and specifications for improvements on the property, conforming to the provisions of the contract and the Urban Renewal Plan.
 2. Final evidence of the availability of construction funds.
 3. A statement of intent to begin construction within sixty (60) days from the date of approval of such submission by the seller.
 4. Proposed progress schedule for the completion of such improvements.
- B. The Board reviews Letter of Intent from the Redeveloper.

This letter will clarify the steps the redeveloper intends to take in order to make his commitment of minority participation a reality, and the instructions he has given his general contractor on methods to ensure these steps are implemented.

RE: Case No. 537-S – Approval of the Brooklyn East I urban Renewal Plan

Dear Mr. Moore:

The City Plan Commission meeting in regular session on March 17, 1999, recommended APPROVAL of the above referenced case, subject to the following conditions:

1. That the plan be revised in the following manner with conditions 2 through 8 added to the body of the plan and that five (5) copies be submitted:
 - a. Title Page: add LCRA Resolution number and correct date,
 - b. Summary Page, prior to Page 1, Objectives: change "47" to correct number after removing the existing "infill" sites from the total,
 - c. Summary Page, prior to Page 1, Objectives: change "1,300" sq. ft. to "1,500" sq ft.,
 - d. Page 1, para. I., line 2: change "24th Street Terrace" to "22nd Street",
 - e. Page 1, para. 2., last sentence: change "scheme" to "proposed",
 - f. Page 1, II. Findings, line 4: change Resolution 99-, to Resolution 2-1-99,
 - g. Page 2, III. Statement, para. 2: change Plan to plan,
 - h. Page 4, V. Urban Renewal Techniques: Remove Item 4,
 - i. Exhibit A.: add Olive Street and Prospect Avenue identification, and identify the parcels removed from the plan as shown in Exhibit A-1,
 - j. Exhibit A-1, line 5: check the 1100.86 ft. dimension to confirm accuracy,
 - k. Exhibit A-1, remove Infill No. 88 from list and any others not in the plan area,
 - l. Exhibit B, page 1, para 4: change "urban renewal project" to "census tract",
 - m. Exhibit G: confirm the maximum sales price of the homes,
 - n. Exhibit H: remove Kansas City Parcels under Key,
 - o. Add a copy of the LCRA Resolution,

Don Moore
Case No. 537-S
Page 2
March 18, 1999

2. That the developer cause the area to be platted and processed in accordance with Chapter 66, Code of General Ordinances of Kansas City, Missouri, as amended, commonly known as the Subdivision Regulations, or that the area receive a Lot Split or Lot Combination as required.
3. That the developer provide or repair sidewalks as required by the City Engineer's Office.
4. That the developer provide at least one (1) street tree per lot as required by the City Forester.
5. That the developer contribute money in lieu of parkland dedication if platting is required.
6. That the developer rezone the area to the appropriate zoning district according to the guidelines of this Urban Renewal Plan.
7. That the developer submit a storm drainage study to the City Engineer for approval and that improvements be made as required by the City Engineer's Office.
8. That the developer submit plans for grading and siltation and erosion control to the City Engineer's Office if required, prior to the commencement of any construction.

Please contact this office to discuss the proposed revisions, so that an ordinance request can be sent to the City Clerk's Office as soon as the required changes have been made.

If you have any questions or need any other information, please call me at 274-1844.

Sincerely,

John Eckardt
Planner

ORDINANCE NO. 990638

Declaring the area generally bounded by 20th Street on the north, the alley just east of Wabash Avenue on the east, 22nd Street on the south and Brooklyn Avenue on the west to be a blighted and insanitary area in need of redevelopment and rehabilitation pursuant to the Missouri Land Clearance for Redevelopment Authority law and approving the Urban Renewal Plan for the same, said plan to be known as the Brooklyn East I Urban Renewal Plan.

WHEREAS, Section 99.430, Revised Statutes of Missouri, provides that a legislative body may approve a declaration of blight and approve an urban renewal plan for the same area simultaneously; and

WHEREAS, it is desirable and in the public interest that the Land Clearance for Redevelopment Authority of Kansas City, Missouri, submit an Urban Renewal Plan for the area generally bounded by 20th Street on the north, the alley just east of Wabash Avenue on the east, 22nd Street on the south and Brooklyn Avenue on the west; and

WHEREAS, said area is blighted due to the insanitary or unsafe conditions, deterioration of site improvements, and a combination of such factors so as to constitute an economic or social liability to the public health, safety, morals or welfare; and

WHEREAS, the Land Clearance for Redevelopment Authority of Kansas City, Missouri, did on the 24th day of February, 1999, adopt a resolution recommending that the area be declared blighted and recommending approval of an Urban Renewal Plan for the area generally bounded by 20th Street on the north, the alley just east of Wabash Avenue on the east, 22nd Street on the south and Brooklyn Avenue on the west, said resolution being set forth and incorporated in the Urban Renewal Plan; and

WHEREAS, the City Plan Commission reviewed and recommended approval of the designation of blight and approval of the Urban Renewal Plan on March 16, 1999, as evidenced by its resolution recommending approval of the adoption of said plan and found said plan to be in conformance with the Master Plan for the development of the community as a whole, subject to certain conditions, a copy of which resolution is attached hereto and incorporated herein by reference as Exhibit "A"; NOW, THEREFORE,

BE IT ORDAINED BY THE COUNCIL OF KANSAS CITY:

Section 1. That the proposed Urban Renewal area identified as the Brooklyn East I Urban Renewal Plan generally bounded by 20th Street on the north, the alley just east of Wabash Avenue on the east, 22nd Street on the south and Brooklyn Avenue on the west, and more specifically described as:

Beginning at the northwest corner of Lot 23, McLevy & Walley'92s Resurvey of Blocks 1 and 2, Brooklyn Heights, then east 974.53 feet along said lot line

extended to
the northwest corner of Lot 68, Ansley Brooklyn Heights Resurvey of Block 3, sect
990638

then south 869 feet to the southwest corner of Lot 76, Resurvey of Blocks 4 and 5,
Brooklyn Heights, then west 980.86 feet to the southeast corner of Lot 6, Block 6,
then north 96 feet to the southeast corner of Lot 4, Brooklyn Heights, then west
130.89 feet to the southwest corner of Lot 4, then north 144 feet to the northwest
corner of Lot 2, Brooklyn Heights, then east 130.89 feet to the northeast corner of
Lot 2, then along said lot line extended 15 feet to the east, then north 625.56 feet to
the point of beginning.

The above described plan boundary is for the Brooklyn East I plan area. However,
there are existing infill housing urban renewal plans within the overall boundary of
Brooklyn East I and will be excepted out of this described as follows:

Lots 1 through 4, Demarest Place, a subdivision lying in Kansas City, Jackson
County, Missouri.

McLevy & Walleys Resurvey of Blocks 1 and 2, Brooklyn Heights, all of Lots 13
through 19, Block 1, south 45 feet of east 130 feet of Lot 1, also east 15 feet front
on west line Park Avenue lying south of and adjacent east 130 feet Lot 1, Block 6,
Brooklyn Heights, subdivisions lying in Kansas City, Jackson County, Missouri.

Ansleys Resurvey of Block 3, Brooklyn Heights, west 45 feet of east 90 feet of Lots
18 and 19 and east 45 feet of Lots 18 and 19 and east 90 feet, Lot 20 and east 90
feet of the south 15 feet of Lot 22, a subdivision lying in Kansas City, Jackson
County, Missouri.

Ansleys Resurvey of Block 3, Brooklyn Heights, south 15 feet Lot 12 and north 15
feet Lot 13, except part in Olive Street, a subdivision lying in Kansas City, Jackson
County, Missouri.

Ansleys Resurvey of Block 3, Brooklyn Heights, Lot 17, except part in Olive Street,
a subdivision lying in Kansas City, Jackson County, Missouri.

McLevys & Walley Resurvey of Blocks 1 and 2, Brooklyn Heights, south 7 feet Lot
5 and all Lots 6 through 8, and north 14 feet of Lot 9, Block 2, a subdivision lying in
Kansas City, Jackson County, Missouri.

McLevys & Walleys Resurvey of Blocks 1 and 2, Brooklyn Heights, north 7 feet of
the west 124.5 feet Lot 30 and south 21.5 feet of the west 124.5 feet of Lot 31,
Block 2 and north 14 feet of the west 124.5 feet of Lot 29 and south 18 feet of the
west 124.5 feet of Lot 30, Block 2 and North 19 feet of the west 124.5 feet of Lot
29, Block 2 and west 124.5 feet of Lot 27, south 6 feet of the west 124.5 feet of Lot

28, Block 2 and north 7 feet of the west 124.5 feet of Lot 26, Block 2, a subdivision lying in Kansas City, Jackson County, Missouri.

Ansleys Resurvey of Block 2, Brooklyn Heights, north 20.5 feet of Lot 25 and the south 5 feet of Lot 26, a subdivision lying in Kansas City, Jackson County, Missouri.

Resurvey of Block 4 and 5 of Brooklyn Heights, Lots 52 and 53, a subdivision lying in Kansas City, Jackson County, Missouri.

McLevys & Walleys Resurvey of Blocks 1 and 2, Brooklyn Heights, north 17 feet of the west 124.5 feet of Lot 19 and south 15 feet of the west 124.5 feet of Lot 20, Block 2, a subdivision lying in Kansas City, Jackson County, Missouri.

is a blighted area and in need of redevelopment and rehabilitation and is appropriate for an Urban Renewal Project, and that the undertaking by the Land Clearance for Redevelopment Authority of Kansas City, Missouri, of surveys and plans for an urban renewal project of a character contemplated by Section 99.430, Revised Statutes of Missouri, as amended, and the proposed urban renewal area is hereby approved.

Section 2. That the Council has duly made the findings necessary for compliance with Sections 99.320 and 99.430, Revised Statutes of Missouri, as amended.

Section 3. That the Urban Renewal Plan which is known as the Brooklyn East I Urban Renewal Plan, a copy of which is on file in the office of the City Clerk under Document No. 990638 and which is incorporated herein by reference, is hereby approved.

Section 4. That said Urban Renewal Plan is hereby found to be feasible and in conformance with the Master Plan for the development of the community as a whole.

I hereby certify that as is required by Chapter 99, Revised Statutes of Missouri, 1994, as amended, all public notices and hearings required by law have been given and had.

Secretary, City Plan Commission

By Ordinance 16120 of November 21, 1952, the City Council of the City of Kansas City authorized and created the Land Clearance for Redevelopment Authority of Kansas City, Missouri under the Land Clearance for Redevelopment Authority Law, Section 99.300 et. seq. R.S. Mo. Section 99.310 of such Law, the Declaration of Policy, states:

"It is hereby found and declared that there exists in municipalities of the state insanitary, blighted, deteriorated and deteriorating areas which constitute a serious and growing menace injurious to the public health, safety, morals and welfare of the residents of the state; that the existence of these areas contributes substantially and increasingly to the spread of disease and crime, necessitating excessive and disproportionate expenditures of public funds for the preservation of the public health and safety, for crime prevention, correction, prosecution, punishment and the treatment of juvenile delinquency and for the maintenance of adequate police, fire and accident protection and other public services and facilities, constitutes an economic and social liability, substantially impairs or arrests the sound growth of communities and retards the provisions of housing accommodations; that this menace is beyond remedy and control solely by regulatory process in the exercise of the police power and cannot be dealt with effectively by the ordinary operation of private enterprise without the aids herein provided; that the elimination or prevention of the detrimental conditions in such areas, the acquisition and preparation of land in or necessary to the development, renewal or rehabilitation of such areas and its sale of lease for development, renewal or rehabilitation in accordance with general plans and redevelopment or urban renewal plans of communities and any assistance which may be given by any public body in connection therewith are public uses and purposes for which public money may be expended and private property acquired; and that the necessity in the public interest for the legislative determination; and that certain insanitary, blighted, deteriorated or deteriorating areas, or portions thereof, since the prevailing condition of or decay may make impractical the reclamation of the area by conservation or rehabilitation, but other areas or portions thereof, through the means provided in this law may be susceptible to conservation or rehabilitation in such manner that the conditions and evils herein before enumerated may be eliminated, remedied or prevented, and to the extent feasible, conserved and rehabilitated by the voluntary

action and the regulatory process: A municipality, to the greatest extent that it determines to be feasible in carrying out the provisions of this law, shall afford maximum opportunity, consistent with the sound needs of the municipality as a whole, to the redevelopment or rehabilitation or renewal of areas by private enterprise."

BROOKLYN EAST II URBAN RENEWAL PLAN

FUNDER: Housing & Economic Development Financing Corporation

BUDGET: To Be Determined

LOCATION: Area generally bound by 22nd Street on the north, one lot depth west of Brooklyn Avenue on the west, 24th Street Terr. on the south and Wabash Avenue on the east.

AREA PLAN: WASHINGTON WHEATLEY-WENDELL PHILLIPS-DOWNTOWN EAST PLANNING STUDY

COUNCIL DISTRICT: 3rd - Mary Williams-Neal and Vacant seat

PROJECT: Infill Housing

OBJECTIVES:

- The Brooklyn East II Urban Renewal Plan will allow for:
- Acquisition and disposition of 18 parcels of land
- Construction of 10 single family homes at an average of 1,500 sq.ft. and at an average cost of \$95,000
- Provision of safe and sanitary dwelling accommodations for low and moderate income residents of Kansas City
- Redevelopment of land parcels which are blighted and insanitary

LCRA ASSISTANCE:

Assistance anticipated by the Developer includes:

- Acquisition of 18 parcels of land
- Tax Abatement

BLIGHT STUDY:

Status of the 51 Parcels:

- Acquisition Category: 18 (35%)
- Vacant Parcels: 18 (35%)
- Vacant Structures: 8 (16%)
- Single-family Residential: 25 (14%)
- Duplex: 5 (10%)
- Church 1 (1%)

Common signs of deterioration:

- Rotting wood
- Broken windows
- Missing shingles and warped roofs
- Holes in walls, missing bricks, falling siding
- Sagging porches, warped porch floors, falling porch ceilings, missing railings, sinking steps
- Missing or falling gutters
- Buckling or crumbling retaining walls
- Overgrowth of weeds and litter
- One structure gutted by fire

Total Assessed Valuation Now:
\$ 35,660

Total Assessed Valuation After Project
\$ 180,500

Market Value
\$ 950,000

Significant Decline in Population (70-90 → 50%)
" " in Dwelling Units (70-90 → 42%)

I. DESCRIPTION OF THE PROJECT AREA

The Brooklyn East II Urban Renewal Area is generally described as 22nd Street on the north, 24th Terr. on the south, Brooklyn Avenue (west side) on the west and Park Avenue (west side) on the east. For a more detailed legal description see Exhibit A: Project Boundary. The Plan area is small but does encompass three Infill Housing Project Areas. (See Exhibit A-1: Legal Description) The vision for the development of the Brooklyn Infill project was to build housing areas, especially along Brooklyn Avenue, to induce neighboring property owners to make improvements to their properties. The current strategy is to phase in development areas as opportunities arise and conduct a methodical redevelopment strategy of infill housing.

The project area is within the Washington Wheatley-Wendell Phillips-Downtown Planning Study Area, which is generally described as Interstate 70 on the north and east, 27th Street on the south and Troost Avenue on the west and roughly covers two and a half square miles. The Plan Area calls for the area within the urban renewal area to be devoted to low density residential development, except for one tract at the southeast corner of 23rd and Brooklyn which is devoted to an institutional use. This urban renewal plan proposes land uses in the low density residential and institutional categories which makes this plan in conformance with the Washington Wheatley-Wendell Phillips-Downtown East Planning Study.

II. FINDINGS

The Land Clearance for Redevelopment Authority conducted surveys and investigations that determined that the project area is blighted and in need of redevelopment by Resolution No. 98-68, dated November 25, 1998. The Land Clearance for Redevelopment Authority reconsidered the Brooklyn East Urban Renewal Plan and by Resolution 2-1-99, dated February 24, 1999 is modifying that plan and separating it into two plans. This plan is described as Brooklyn East II. The project area in some respects resembles a disaster area. There are 51 parcels in the project area and of those 51 parcels 25 (49%) are single family residential structures. There are five duplexes and one multi-family structure. The eight vacant structures represents 26% of the total structures in the project area. There are vacant structures and huge masses of vacant land throughout the project area. Some of those areas are attracting illegal dumping that jeopardizes the health and safety of the community. It creates a breeding ground for rodents and other vermin. Vacant structures in the plan area also pose a threat to the community and especially unsuspecting youth. A typical neighborhood fears the abandonment of structures and increases in the number of vacant lots because it lowers property values and brings a hardship to the community. Over the years, the population in the project area has declined significantly, leaving only the elderly and impoverished. Abandonment and the lack of funds to sustain viable living quarters has had its toll on the

community. Not only has the population decreased, but the total number of dwelling units has as well. (See Exhibit B: Blight Study.)

III, STATEMENT OF DEVELOPMENT OBJECTIVES

The local objectives to be achieved through the inclusion of certain tracts into the acquisition category and implementation of this project include the creation of a physical character and environment meeting desirable planning standards, the provision of controlled and orderly residential redevelopment through new construction of housing units in conformance with the building and zoning codes of the Kansas City, Missouri which shall provide housing accommodations for families.

Development objective to be met through the establishment of this urban renewal plan include the following items:

- To eliminate the adverse conditions which qualify the redevelopment project area as a blighted area and an insanitary area, within the meaning of the Land Clearance for Redevelopment Authority Law, and to prevent the recurrence of these conditions which constitute an economic and social liability, which have impaired the provision of orderly residential development, and which impair the tax base and general welfare of the community.
- To enhance the tax base of the municipality and the other public taxing districts by developing the area to its highest and best use and encouraging private investment in the surrounding areas, thereby increasing tax revenues and corresponding public service to the community.
- To provide, in harmony with the general plan for the community, a coordinated, adjusted and harmonious development of the community and its environs.
- To promote health, safety, order, convenience, prosperity and the general welfare, as well as efficiency and economy in the process of development standards and controls which will ensure the sound development of the area.
- To upgrade and refurbish utilities, public facilities and improvements scaled to serve the redevelopment area as may be required by the City of Kansas City, the provisions of off-street parking areas, and development standards for the overall project area.
- To eliminate deteriorating structures now existing within the subject redevelopment area through the implementation of this Urban Renewal Plan which provides for sites for redevelopment through appropriate techniques in accordance with this Redevelopment Plan

IV. LAND USE PLAN

A. Land Uses

There are four land uses identified within the plan area including: single-family, duplex, multi-family and institutional. The predominant land use within the project area is single-family residential followed closely by vacant parcels. (See Exhibit C: Existing Land Use) There is one multi-family unit within the project area and it is vacant and boarded-up. There is one church within the project. There are large tracts which are vacant and have become attractive nuisances for polluters and juvenile delinquents. The quality of the structures remaining in the project are marginal. A Code Enforcement Program should be initiated in the project area coupled with low interest loans so owners can rehabilitate existing structures feasible for redevelopment.

The goal of this urban renewal plan is to integrate the current Brooklyn Infill Housing Projects with the tracts that comprise the Brooklyn East II Urban Renewal Area. In some instances, large vacant tracts that could be redeveloped in such a fashion that the area would appear to be a new subdivision. The proposed land use plan must designate land uses that make the most sense for the surrounding community. The two land uses that should dominate the area are single-family housing with one small designated area for an institutional use. (See Exhibit D: Proposed Land Use) Most of the existing housing stock is now in decline but could be stabilized by the infusion of funds for loans and investment by current land owners. A concerted effort to preserve the area and build new single-family housing will unite the neighborhood, the first step in creating the momentum necessary to achieve a vibrant, growing community.

B. Design Objectives and Controls

Due to the residential nature of the plan area, particular attention should be paid to the materials, heights, massing and views of all structures.

Overall design objectives are hereby established in order to achieve sound and attractive development within the Urban Renewal Area. All site and building designs will be subject to the LCRA "Design Review Process" (Appendix 1).

1. **Building Design Objectives:** The structures shall be an integral element of the overall site design. The basic design objective is the construction of new single-family infill housing and the creation of an environment which is compatible with other existing residential structures in the area, and will respect, to the extent possible, existing structures setbacks and architectural character of adjacent properties.
2. **Parking Design Objectives:** Developers shall provide adequate parking and landscaping in combination with the overall site improvements. Parking areas shall be designed with careful regard given to orderly

arrangement, landscaping, security, amenity of view, ease of access, and as an integral part of the total site design. The provision of parking may be provided off-site or on-street if allowable under existing City of Kansas City Codes, or if approved upon consideration of the Board of Zoning Adjustment of the City of Kansas City.

C. Zoning

There are two zoning classifications within the project area: R4 Low Rise Housing District and C1- Local Business. The overwhelming zoning classification is R4. (See Exhibit E: Existing Zoning). The land use in the area is not appropriate due to the condition of the property and neglected maintenance. The proposed land use and zoning under this Urban Renewal Plan calls for the project area to be low density single-family residences. To accomplish the proposed zoning, changes in zoning will be needed. (See Exhibit F: Proposed Zoning) Safeguards to be employed are a reflection of the neighborhood's character of single-family housing and wishes to keep this community single-family and avoid the overcrowding of housing structures.

V. URBAN RENEWAL TECHNIQUES TO BE USED TO ACHIEVE PLAN OBJECTIVES

With respect to the particular urban renewal techniques to be used in the Brooklyn East Urban Renewal Plan:

1. The LCRA will designate certain parcels of land which will be included in the land acquisition category.
2. Land acquisition through eminent domain powers of the LCRA may be required to carry out this plan.
3. The LCRA shall provide tax abatement to projects in conformance with this plan.

VI. OTHER PROVISIONS NECESSARY TO MEET REQUIREMENTS OF LAW

- A. Existing utility service mains may need to be upgraded to serve the Project Area, at the expense of the developer. If, at the time the development takes place, additional public facilities and/or utilities are deemed to be necessary, it shall be the responsibility of the developer to provide same.
- B. No changes in existing street, street levels or grades, vacations of streets, or revisions of existing traffic movement patterns are required under this Plan.
- C. No changes in building codes are required.

VII. PROPOSED FINANCING

Financing for the development proposals may utilize conventional publicly assisted financing. The program is designed to stimulate private enterprise to provide rehabilitation and new construction activities. There are a number of programs available to assist home buyers to finance their purchases in Kansas City. (See Exhibit G: Financing Tools) LCRA may provide tax abatement as provided under the Land Clearance for Redevelopment Law of Missouri, Section 99.300, et seq. R.S.Mo, or other statutory incentives for development in accordance with the plan.

VIII. RELOCATION

All relocation activities which are part of this plan are subject to the Uniform Relocation Act. Relocation will be required under this plan because redevelopment activities cover areas not currently owned by the developer or potential developers and therefore eminent domain powers will be used to assemble tracts within the project boundary, if necessary. (See Exhibit H: Acquisition Tracts)

Those tracts acquired as a result of this plan will be disposed of to the successful redeveloper or redevelopers carrying out the objectives of this plan. (See Exhibit I: Disposition Tracts)

IX. AFFIRMATIVE ACTION PLAN

The Land Clearance for Redevelopment Authority has developed an affirmative action process (Appendix 2: Affirmative Action Policy) which requires that developers and project contractors submit individual affirmative action plans. All projects approved by LCRA are subject to applicable federal, state and/or City affirmative action regulations, requirements, guidelines and procedures.

X. DURATION OF CONTROLS

This Urban Renewal Plan shall be effective for a period of twenty (20) years from the date of approval by the City Council of the City of Kansas City, Missouri, unless otherwise amended by the City.

XI. PROVISION FOR AMENDING PLAN

This Plan may be modified by the Authority provided that, where the proposed modifications will substantially change the development of urban renewal plan as previously approved by the City of Kansas City, Missouri, it must similarly be approved by the City Council.

EXHIBITS

**Exhibit A - Brooklyn East II Urban Renewal Area
Project Boundary**

No Scale

Prepared by the Economic Development Corporation of Kansas City, Missouri JCP 3/8/88

EXHIBIT A-1

Legal Description Brooklyn East II Urban Renewal Plan

Starting at the Northeast corner of Tract A, Flourney's Addition then South 201 Feet to the Point of Beginning, being the Northeast corner of Lot 20, Flounoy's Addition, then South 1,075.5 Feet to the Southeast corner of Lot 7, Gates 3rd Addition, then West 338.6 Feet to the Southeast corner of Lot 4, Dalcoulin, then North 100 Feet to the Northeast corner of Lot 3, then West 137 Feet to the Northwest corner of Lot 3, Dalcoulin, then North 134 Feet to a point 7.5 Feet East of the Southwest corner of Lot 34, Mortland Place, then West 7.5 Feet, the Southwest corner of Lot 34, Mortland Place, then north 55 Feet to the Northwest corner of Lot 34, Mortland Place, then East 35 Feet, then North 125.50 Feet to a point 35 Feet East of the Northwest corner of Lot 31, Mortland Place, then East 175 Feet to the Northwest corner of Lot 14, Capitol Hill, then North 375 Feet, to the Northwest corner of Lot 3, Capitol Hill, then West 220 Feet to the Southwest corner Lot 35, Flourney Heights, then North 378 Feet to the Southwest corner of Lot 3, Flourney Heights, then East 150 Feet to the Southeast corner of Lot 3, Flourney Heights, then South 103 Feet from the Southeast corner of Lot 3, to a point 14 feet North of the Southeast corner of Lot 6, Flourney Heights, then East 70 Feet,, then East 126.62 Feet to a point 11 Feet South of the Northwest corner of Lot 20, Flourny's Addition, then North 11 Feet, then East 130 Feet to the Point of Beginning.

The above described plan boundary is for the Brooklyn East II plan area. However, there are existing infill housing urban renewal plans within the overall boundary of Brooklyn East II and will be excepted out of this description as follows:

Infill No.	Street Address	Legal Description
95	2401-15 Brooklyn	East 126.3 Feet Lots 8 through 14, Block 3, Capital Hill
96	2404-06 Brooklyn	Lots 1 through 5, Block 3, Capital Hill
111	2304-14 Park	Flourney's Addition, North 15 Feet Lot 9 and all of Lot 10 through 15.

EXHIBIT B

BLIGHT STUDY

The Brooklyn East II Urban Renewal Area encompasses approximately 6 city blocks, roughly between 22nd Street and 24th Ter., Brooklyn to Park. Conditions in the area are poor. There are two census tracts that have portions of the urban renewal area within them: 32 and 39. The following tables shows trends in this geographic area.

CENSUS TRACT	POPULATION			% Δ 70-90
	1970	1980	1990	
32	1667	1059	810	51%
39	2808	1716	1442	49%
TOTAL	4475	2775	2252	50%

CENSUS TRACT	DWELLINGS			%Δ 70-90
	1970	1980	1990	
32	882	592	427	52%
39	1196	829	770	36%
TOTAL	2078	1321	1197	42%

In the two census tracts; 32 and 39, there has been a two decade trend of declining population of 50 %. Population figures in 1970 showed a total of 4475 people, by 1980 that total had declined to 2775 and by 1990 that total was 2252, representing the 50% decline. Statistics do show that the rate of decline is at a slower pace between 1980 and 1990. It is anticipated that the year 2000 decennial census the pace of decline will show stabilization due to fewer people and people with less choices.

The study area had 2078 dwelling units in 1970 and by 1980 the number of dwelling units had declined to 1321. The two decades, 1970 and 1980 shows a decline of 42% of dwelling units.

An analysis of the urban renewal project area shows that there are 25 single-family homes of which 8 (16%) are vacant. For this area the high owner occupied rate of 69% is a plus for the neighborhood because the residents have a stake hold in the future of their property. The high number of vacant homes in the project creates a hazard in the community. Throughout the City, vacant structures left unsupervised have a tendency of becoming arson fires.

The project area has an overwhelming area of vacant land that is not in productive use. This land provides opportunities for illegal dumping that jeopardizes health and safety of the community. These types of areas filled with trash and debris create a breeding ground

for rodents, vermin and disease. Vacant unattended land also provides the opportunity for youth to become involved in juvenile crime. (See Attached photographs and data sheets.)

The area, no doubt, is in a declining stage. Without some type of redevelopment intervention the area will continue to lose population, dwelling units and decreased tax revenues.

APPENDICIES

APPENDIX 1

DESIGN REVIEW PROCESS

All redevelopment proposals for the Kansas City Redevelopment Authority's Disposition Parcels will be subject to design review and approval by the Authority before and after the execution of a Disposition Agreement, Inducement Resolution, Redevelopment Contract, Certificate of Tax Abatement or other necessary action of the Authority. In addition, all development proposals for new construction or the rehabilitation of existing structures within designated urban renewal areas will be subject to the Authority's design review and approval. This review will evaluate the quality and appropriateness of the proposal on the basis of planning and design objectives stated in the Plan and the special land use and building requirements stated in more detailed and refined development objectives and controls which may be prepared for the site.

This review will be conducted by the Authority. The Authority may engage professional consulting services from time to time to provide technical advice. Required submissions shall be made to the Authority through the Executive Director.

Required submission will occur at three stages in the preparation of the redevelopment proposal. Additional informal reviews at the request of either the Redeveloper or the Authority Staff are encouraged. It is the intention of the Authority Staff that once approval has been given of a submission stage, further review will be limited to consideration of a development or refinement of previous approved submission, or to new elements which were not present in previous submissions.

The formal stages of submission follow:

1. SCHEMATIC DESIGN

This review is intended to secure agreement on and approval of the basic design concept prior to extensive work by the Redeveloper's Architect. The Authority does not encourage submission of more than the following, which it feels is sufficient to describe the proposal:

- a) Site plan at any appropriate scale (1" = 100' and 1" = 40' are preferred scales); emphasizing general relationships of proposed and existing buildings, walls and open space, including that mutually defined by buildings on adjacent parcels and across streets. The general location of walks, driveways, parking, service areas, roads and major landscape features, in addition to the buildings, should be shown. Where relevant, site sections showing height relationships with proposed and adjacent buildings shall be provided.

- b) Building plans, elevations and sections at any appropriate scale, showing organization of functions and spaces. These drawings need not be more detailed than sufficient to indicate general architectural character and proposed finish materials.
- c) All sketches, diagrams and other materials relevant to the proposal which were used by the architect during his initial study and which will help clarify the architect's problem and his solution to it.
- d) Written statement of proposal, including total square footage, F.A.R., number of parking spaces, structural system and principal building materials and estimated costs.
- e) Proposed time schedule for the following submissions and estimated construction time.

Upon approval by the Authority of the SCHEMATIC DESIGN, the following submission is required:

2. DESIGN DEVELOPMENT

This review is intended to secure agreement on and approval of the final design prior to extensive and detailed work on the preliminary drawings.

- a) Site Plan development of 1 (a) at 1" = 40' minimum (or as determined after approval of SCHEMATIC DESIGN). Phasing possibilities, if any, shall be shown. Proposed site grading, including typical existing and proposed grades at parcel lines shall be shown. Those areas of the site proposed to be developed "by others" or easements to be provided for others shall be clearly indicated. All dimensions which may become critical from the point of view of zoning shall be indicated, including adjacent buildings, streets and buildings across streets shall be indicated, if appropriate.
- b) Site sections at 1" = 40' (minimum) showing vertical relationships in addition to those shown above.
- c) Building plans, elevations and sections developed from those of 1 (b).
- d) Time schedule for the following submission.

Upon approval by the Authority of the DESIGN DEVELOPMENT, the following submission is required:

3. FINAL WORKING DRAWINGS AND SPECIFICATIONS

This review is intended to secure final agreement on and approval of the contract documents and the complete proposal.

- a) Complete site plans for the final parcel development to working drawing level of detail. These drawings, upon approval, will serve as a basic coordination drawing indicating scope of work and responsibilities to be performed by others.
- b) Complete working drawings and specifications ready for bidding.
- c) Statement of proposal, indicating differences, if any, from 1 (d).
- d) Time schedule for construction of this project.
- e) Detailed financial plan, including costs, rents and operation.

Once FINAL WORKING DRAWINGS AND SPECIFICATIONS have been approved and construction started, the only items subject to an additional review will be request for change orders in the construction. The Redeveloper is strictly required to construct the project in accordance with all details of the approved drawings. Permission to make changes from such approved drawings must be requested by the Redeveloper in writing to the Executive Director, who, in turn, will reply in writing, giving his approval or disapproval of the changes. No changes in the work are to be undertaken until such approval has been obtained.

APPENDIX 2

AFFIRMATIVE ACTION PROCESS

The procedures outlined are designed to secure maximum opportunities for minority contractors and subcontractors to bid for work on projects carried out by the Authority's redevelopers. This is intended to be consistent with Equal Employment Opportunity and Affirmative Action objectives and regulations.

These procedures have been re-examined, sharpened and clarified in an effort to encourage redevelopers and general contractors to use minority-owned businesses. The Land Clearance for Redevelopment Authority should bring its requirement for minority business participation to the attention of redevelopers and contractors early so that Minority Business Enterprises will be included in the bidding process.

It should be pointed out to the redeveloper that minority businesses include materials suppliers and professional consultants, as well as construction contractors.

STEP I

Within a reasonable time after a potential developer has been identified by the Authority, a pre-developer conference will be held.

The redeveloper will be acquainted with the requirements for land sale or lease at this conference. The following information will be provided to the Authority's Equal Employment Opportunity Officer:

A. Equal Opportunity Requirements.

1. Each redeveloper is required to complete an affirmative action plan. The plan is to be completed based upon the known information available to the redeveloper before initial submission to the Authority's Board of Commissioners to consider their proposal to acquire and develop Authority land.
2. Pre-Award Commitments - The developer is to disclose to the Equal Employment Officer, in writing, any pre-award commitments to contractors or suppliers.
3. Equal Employment Opportunity Packet - Affirmative Action Plans (developers, general contractors, subcontractors), Good Faith Effort and Minority Resources, Executive Order #11246, Chapter IV - Contractor's

Responsibilities, Minimum Wage for Each Job Classification Requirements, Authority Board Policies.

4. Contractor's Responsibility under Section 26.228 of the Code of General Ordinances of the City of Kansas City, Missouri, which requires the development of an affirmative action program.

STEP II REDEVELOPER SUBMISSION FOR BOARD APPROVAL

- A. Redeveloper submits all land sale and affirmative action documents for staff review (as required in Article VII of the "Contract to Sell and Purchase," etc.) and the Authority's Affirmative Action Policy.
- B. Subsequent staff recommendations to the Board of Commissioners on documents received by the redeveloper.

STEP III REDEVELOPER SUBMISSION FOR FINAL BOARD APPROVAL

- A. Board approves by resolution items of Article VII of the "Contract to Sell and Purchase," which include the following:
 1. Final development plans, including plans and specifications for improvements on the property, conforming to the provisions of the contract and the Urban Renewal Plan.
 2. Final evidence of the availability of construction funds.
 3. A statement of intent to begin construction within sixty (60) days from the date of approval of such submission by the seller.
 4. Proposed progress schedule for the completion of such improvements.
- B. The Board reviews Letter of Intent from the Redeveloper.

This letter will clarify the steps the redeveloper intends to take in order to make his commitment of minority participation a reality, and the instructions he has given his general contractor on methods to ensure these steps are implemented.

RESOLUTION

**APPROVAL OF A MODIFICATION TO THE
BROOKLYN EAST II URBAN RENEWAL PLAN**

Case No. 538-S

March 16, 1999

WHEREAS the Brooklyn East II Urban Renewal Plan, refers to property generally located between 22th Street on the north, Park Avenue on the east, 24th Street on the south and a line about 200 feet west of Brooklyn Avenue on the west, and

WHEREAS the Brooklyn East II URP is now being approved with a finding of blight and the placement of 18 parcels of land within the acquisition and disposition category of the plan, for the redevelopment of approximately 23 single family homes, as required by the Land Clearance for Redevelopment Authority law of Missouri, Section 99.300 through 99.175, inclusive, R.S.Mo 1978, and

WHEREAS the approval of this URP enables redevelopment of the area by private developers, and

WHEREAS the URP permits ten years of tax abatement, and

WHEREAS the Land Clearance for Redevelopment Authority approved the plan with a declaration of blight by Resolution 2-1-99, which was also recommended for approval by the Redevelopment Coordinating Committee on March 8, 1999,

NOW THEREFORE, BE IT RESOLVED BY THE CITY PLAN COMMISSION:

- A. That the City Plan Commission reviewed the Brooklyn East II Urban Renewal Plan Area on March 16, 1999,
- B. That it is hereby determined that all of the findings, determinations and conclusions made and set forth in the resolution adopted by the Authority with respect to the eligibility of this plan be adopted,
- C. That the City Plan Commission, meeting in regular session on March 16, 1999, voted to recommend both a finding of blight and approval of the Brooklyn East II URP, with conditions that will become part of the plan,
- D. That the Secretary of the City Plan Commission is hereby directed to transmit a certified copy of the Resolution to the Redevelopment Authority,

certified copy of the Resolution to the Redevelopment Authority,

E. That said Urban Renewal Plan is hereby recommended for approval with the following conditions:

1. That the plan be revised in the following manner with conditions 2 through 8 added to the body of the plan and that five (5) copies be submitted:
 - a. Title Page: add LCRA Resolution number and correct date,
 - b. Summary Page, prior to Page 1, Objectives: change "23" to correct number after removing the existing "infill" sites from the total,
 - c. Summary Page, prior to Page 1, Objectives: change "1,300" sq ft to "1,500" sq ft.,
 - d. Page 1, para. I., line 2: change "24th Street Terrace" to "22nd Street",
 - e. Add page numbers to the plan,
 - f. Page 1, II. Findings, line 4: change Resolution 98-68, to Resolution 2-1-99,
 - g. Page 2, III. Statement, para. 2: change Plan to plan,

City of Kansas City - Ordinance File

[Print Page](#) | [Go Back](#)

ORDINANCE NO. 990639

Declaring the area generally bounded by 22nd Street on the north, Park Avenue on the east, 24th Street on the south and a line approximately 200 feet west of Brooklyn Avenue on the west to be a blighted and insanitary area in need of redevelopment and rehabilitation pursuant to the Missouri Land Clearance for Redevelopment Authority law and approving the Urban Renewal Plan for the same, said plan to be known as the Brooklyn East II Urban Renewal Plan.

WHEREAS, Section 99.430, Revised Statutes of Missouri, provides that a legislative body may approve a declaration of blight and approve an urban renewal plan for the same area simultaneously; and

WHEREAS, it is desirable and in the public interest that the Land Clearance for Redevelopment Authority of Kansas City, Missouri, submit an Urban Renewal Plan for the area generally bounded by 22nd Street on the north, Park Avenue on the east, 24th Street on the south and a line approximately 200 feet west of Brooklyn Avenue on the west; and

WHEREAS, said area is blighted due to the insanitary or unsafe conditions, deterioration of site improvements, and a combination of such factors so as to constitute an economic or social liability to the public health, safety, morals or welfare; and

WHEREAS, the Land Clearance for Redevelopment Authority of Kansas City, Missouri, did on the 24th day of February, 1999, adopt a resolution recommending that the area be declared blighted and recommending approval of an Urban Renewal Plan for the area generally bounded by 22nd Street on the north, Park Avenue on the east, 24th Street on the south and a line approximately 200 feet west of Brooklyn Avenue on the west, said resolution being set forth and incorporated in the Urban Renewal Plan; and

WHEREAS, the City Plan Commission reviewed and recommended approval of the designation of blight and approval of the Urban Renewal Plan on March 16, 1999, as evidenced by its resolution recommending approval of the adoption of said plan and found said plan to be in conformance with the Master Plan for the development of the community as a whole, subject to certain conditions, a copy of which resolution is attached hereto and incorporated herein by reference as Exhibit "A"; NOW, THEREFORE,

BE IT ORDAINED BY THE COUNCIL OF KANSAS CITY:

Section 1. That the proposed Urban Renewal area identified as the Brooklyn East Urban II Renewal Plan generally bounded by 22nd Street on the north, Park Avenue on the east, 24th Street on the south and a line approximately 200 feet west of Brooklyn Avenue on the west, and more specifically described as:

Starting at the northeast corner of Tract A, Flournoy'92s Addition, then south 201 feet to the point of

beginning, being the northeast corner of Lot 20, Flourney'92s Addition, sect 990639

then south 1,075.5 feet to the southeast corner of Lot 7, Gates 3rd Addition, then west 338.6 feet to the southeast corner of Lot 4, Dalcoulin, then north 100 feet to the northeast corner of Lot 3, then west 137 feet to the northwest corner of Lot 3, Dalcoulin, then north 134 feet to a point 7.5 feet east of the southwest corner of Lot 34, Mortland Place, then west 7.5 feet, the southwest corner of Lot 34, Mortland Place, then north 55 feet to the northwest corner of Lot 34, Mortland Place, then east 35 feet, then north 125.50 feet to a point 35 feet east of the northwest corner of Lot 31, Mortland Place, then east 175 feet to the northwest corner of Lot 14, Capitol Hill, then north 375 feet, to the northwest corner of Lot 3, Capitol Hill, then west 220 feet to the southwest corner Lot 35, Flourney Heights, then north 378 feet to the southwest corner of Lot 3, Flourney Heights, then east 150 feet to the southeast corner of Lot 3, Flourney Heights, then south 103 feet from the southeast corner of Lot 3, to a point 14 feet north of the southeast corner of Lot 6, Flourney Heights, then east 70 feet, then east 126.62 feet to a point 11 feet south of the northwest corner of Lot 20, Flourney'92s Addition, then north 11 feet, then east 130 feet to the point of beginning.

The above-described plan boundary is for the Brooklyn East II plan area. However, there are existing infill housing urban renewal plans within the overall boundary of Brooklyn East II and will be excepted out of this description as follows:

East 126.3 feet Lots 8 through 14, Block 3, Capitol Hill, a subdivision lying in Kansas City, Jackson County, Missouri.

Lots 1 through 5, Block 3, Capitol Hill, a subdivision lying in Kansas City, Jackson County, Missouri.

North 45 feet Lot 9, and all of Lots 10 through 15, Flourney'92s Addition, a subdivision lying in Kansas City, Jackson County, Missouri.

is a blighted area and in need of redevelopment and rehabilitation and is appropriate for an Urban Renewal Project, and that the undertaking by the Land Clearance for Redevelopment Authority of Kansas City, Missouri, of surveys and plans for an urban renewal project of a character contemplated by Section 99.430, Revised Statutes of Missouri, as amended, and the proposed urban renewal area is hereby approved.

Section 2. That the Council has duly made the findings necessary for compliance with Sections 99.320 and 99.430, Revised Statutes of Missouri, as amended.

Section 3. That the Urban Renewal Plan which is known as the Brooklyn East II Urban Renewal Plan, a copy of which is on file in the office of the City Clerk under Document No. 990639 and which is incorporated herein by reference, is hereby approved.

Section 4. That said Urban Renewal Plan is hereby found to be feasible and in conformance with the Master Plan for the development of the community as a whole.

I hereby certify that as is required by Chapter 99, Revised Statutes of Missouri, 1994, as amended, all public notices and hearings required by law have been given and had.

Secretary, City Plan Commission

STAFF REPORT: March 16, 1999 (14)

RE: Case No. 538-S

APPLICANT: Land Clearance for Redevelopment Authority (LCRA) represented by Donald Moore

LOCATION: An area generally bounded by 22nd Street on the north, Park Avenue on the east, 24th Street on the south and a line about 200 feet west of Brooklyn Avenue on the west

REQUEST: To consider the approval of the Brooklyn East II Urban Renewal Plan, as required by the Land Clearance for Redevelopment Authority ("LCRA") Law of Missouri, Section 99.300 through 99.715, inclusive, R.S.Mo.

PURPOSE: To allow for property acquisition through eminent domain, the disposition of property and tax abatement within the area for qualifying residential property owners.

PRIOR APPROVALS: Numerous individual single family urban renewal cases have been approved within this area. These previously approved cases are being excepted out of this overall plan.

APPROVED PLANS:

Washington Wheatley/Wendell Phillips/Downtown East Neighborhood Planning Study - Approved by the City Council on March 4, 1992 with Resolution No. 920198, and amended March 14, 1996 with Resolution No. 960082, and July 23, 1998 with Resolution No. 980754. Recommends "Residential" land use for most of the area and "Institutional" land use at the southeast corner of Brooklyn Avenue.

Resolution No. 2-1-99 - Resolution of the Land Clearance for Redevelopment Authority of Kansas City, Missouri approving the Brooklyn East II Urban Renewal Plan on November 25, 1998.

Major Street Plan: Identifies 23rd Street as a primary arterial and Brooklyn Avenue as a secondary arterial.

REPORT:

The Brooklyn East II Urban Renewal Plan consists of an area which contains about three city blocks. The plan area has 51 parcels. Of these, 18 are proposed for acquisition and disposition to a future selected developer. The plan calls for the construction of about 23 single family homes with an average size of 1,500 sq. ft. and an average cost of about \$95,000. These homes will be offered for sale to low and moderate income residents of Kansas City.

The approval of the plan will allow for the total assessed valuation of the redeveloped area to be frozen at the level existing prior to the redevelopment. Tax abatement for urban renewal areas is granted for a period of up to 10-years.

The plan gives the following status of the parcels:

- Acquisition Category: 18 (35%)
- Vacant Parcels: 18 (35%)
- Vacant Structures: 8 (16%)
- Single family Resid.: 25 (49%)
- Duplex: 5 (10%)
- Church: 1 (1%)

Condition of the Area:

- Rotting wood
- Broken windows
- Missing shingles and warped roofs
- Holes in walls, missing bricks and falling siding
- Sagging porches, warped porch floors, falling porch ceilings, missing railings and sinking steps
- Missing or falling gutters
- Buckling or crumbling retaining walls
- Overgrowth of weeds and litter
- One structure gutted by fire

Note that not all of the properties within the plan are designated to be acquired. About three of the parcels have already been approved and designated as Urban Renewal Projects within the Infill Housing Urban Renewal Plans (See Exhibit A-1). These parcels have been excepted out of the plan. Other parcels which have neither been previously approved as an infill housing urban renewal area nor identified as an acquisition parcel, may qualify for tax abatement on improvements to the property if the owner submits plans to Land Clearance for Redevelopment Authority staff for approval.

Land Use Plan:

The area is within the *Washington Wheatley/Wendell Phillips/Downtown East Neighborhood Planning Study* - approved by the City Council on March 4, 1992 with Resolution No. 920198, amended March 14, 1996 with Resolution No. 960082, and July 23, 1998 with Resolution No. 980754. The long range plan recommends "*Institutional*" land use at the southeast corner of 23rd Street and Brooklyn Avenue and "*Residential*" land use for the remaining area. Following a revision to Exhibit D, in the plan, the proposed land use for the urban renewal plan will be in conformance with the city area plan.

Zoning:

The plan area is zoned R-4 (low apartment district) and C-1 (neighborhood retail business district). The plan states that the proposed zoning is R-1a (one-family dwelling district—medium density). Land Clearance for Redevelopment Authority staff and the plan indicate that the area will be rezoned at the time of plan implementation.

Redevelopment Coordinating Committee ("RCC") Action and Recommendation:

At a meeting held on March 8, 1999, the RCC voted to recommend approval of the following:

- A. A finding of "Blight" and "Insanitary" conditions as described in the Plan, and
- B. The proposed Plan and use for the property (single family residential) as described within the Plan.

both subject to the following conditions:

- 1. That the plan be revised in the following manner with conditions 2 through 8 added to the body of the plan and that five (5) copies be submitted:
 - a. Title Page: add LCRA Resolution number and correct date,
 - b. Summary Page, prior to Page 1, Objectives: change "23" to correct number after removing the existing "infill" sites from the total,
 - c. Summary Page, prior to Page 1, Objectives: change "1,300" sq ft to "1,500" sq ft.,
 - d. Page 1, para. I., line 2: change "24th Street Terrace" to "22nd Street",
 - e. Add page numbers to the plan,
 - f. Page 1, II. Findings, line 4: change Resolution 98-68, to Resolution 2-1-99,
 - g. Page 2, III. Statement, para. 2: change Plan to plan,
 - h. Page 4, V. Urban Renewal Techniques: Remove Item 4,
 - i. Exhibit A.: add 24th Terrace, and identify the parcels removed from the plan as shown in Exhibit A-1,

- j. Exhibit A-1, 5 and 6 lines from the end: check the southeast corner designations for both lots 3, to confirm accuracy,
 - k. Exhibit B, page 1, para 4: change "urban renewal project" to "census tract",
 - l. Exhibit D: replace the "Institutional" land use designation at the southwest corner of 24th Street and Brooklyn with "Single Family" and replace the "Single Family" land use at the southeast corner of 23rd Street and Brooklyn with "Institutional",
 - m. Exhibit G: confirm the maximum sales price of the homes,
 - n. Exhibit H: remove Kansas City Parcels under Key,
 - o. Add a copy of the LCRA Resolution,
- 2. That the developer cause the area to be platted and processed in accordance with Chapter 66, Code of General Ordinances of Kansas City, Missouri, as amended, commonly known as the Subdivision Regulations, or that the area receive a Lot Split or Lot Combination as required.
 - 3. That the developer provide or repair sidewalks as required by the City Engineer's Office.
 - 4. That the developer provide at least one (1) street tree per lot as required by the City Forester.
 - 5. That the developer contribute money in lieu of parkland dedication if platting is required.
 - 6. That the developer rezone the area to the appropriate zoning district according to the guidelines of this Urban Renewal Plan.
 - 7. That the developer submit a storm drainage study to the City Engineer for approval and that improvements be made as required by the City Engineer's Office.
 - 8. That the developer submit plans for grading and siltation and erosion control to the City Engineer's Office if required, prior to the commencement of any construction.

City Planning and Development Department staff recommends approval of this case with the above listed conditions.

Respectfully submitted,

John Eckardt
Planner

STAFF REPORT: March 16, 1999 (13)

RE: Case No. 537-S

APPLICANT: Land Clearance for Redevelopment Authority (LCRA) represented by Donald Moore

LOCATION: An area generally bounded by 20th Street on the north, the alley just east of Wabash Avenue on the east, 22nd Street on the south and Brooklyn Avenue on the west.

REQUEST: To consider the approval of the Brooklyn East I Urban Renewal Plan, as required by the Land Clearance for Redevelopment Authority ("LCRA") Law of Missouri, Section 99.300 through 99.715, inclusive, R.S.Mo.

PURPOSE: To allow for property acquisition through eminent domain, the disposition of property and tax abatement within the area for qualifying residential property owners.

PRIOR APPROVALS: Numerous individual single family urban renewal cases have been approved within this area. These previously approved cases are being excepted out of this overall plan.

APPROVED PLANS:

Washington Wheatley/Wendell Phillips/Downtown East Neighborhood Planning Study -
Approved by the City Council on March 4, 1992 with Resolution No. 920198, and amended March 14, 1996 with Resolution No. 960082, and July 23, 1998 with Resolution No. 980754. Recommends "Residential" land use for the entire area.

Resolution No. 2-1-99 - Resolution of the Land Clearance for Redevelopment Authority of Kansas City, Missouri approving the Brooklyn East I Urban Renewal Plan on November 25, 1998.

Major Street Plan: Identifies Brooklyn Avenue as a secondary arterial.

REPORT:

The Brooklyn East I Urban Renewal Plan consists of an area which contains four full blocks and four one-half blocks. The plan area has 119 parcels. Of these 119 parcels, 30 are proposed for acquisition and disposition to a future selected developer. The plan calls for the construction of about 40 single family homes with an average size of 1,500 sq. ft. and an average cost of about \$95,000. These homes will be offered for sale to low and moderate income residents of Kansas City.

The approval of the plan will allow for the total assessed valuation of the redeveloped area to be frozen at the level existing prior to the redevelopment. Tax abatement for urban renewal areas is granted for a period of up to 10-years.

The plan gives the following status of the parcels:

- Acquisition Category: 30 (25%)
- Vacant Parcels: 57 (48%)
- Vacant Structures: 14 (12%)
- Single family Resid.: 58 (49%)
- Multifamily Structures: 2 (2%)
- Duplex: 1 (1%)
- Church: 1 (1%)
- Auto Salvage Yard: 1 (1%)

Condition of the Area:

- Rotting wood
- Broken windows
- Missing shingles and warped roofs
- Holes in walls, missing bricks and falling siding
- Sagging porches, warped porch floors, falling porch ceilings, missing railings and sinking steps
- Missing or falling gutters
- Buckling or crumbling retaining walls
- Overgrowth of weeds and litter
- One structure gutted by fire

Note that not all of the properties within the plan are designated to be acquired. About ten of the parcels have already been approved and designated as Urban Renewal Projects within the Infill Housing Urban Renewal Plans (See Exhibit A-1). These parcels have been excepted out of the plan.

Other parcels which have neither been previously approved as an infill housing urban renewal area nor identified as an acquisition parcel, may qualify for tax abatement on improvements to the property if the owner submits plans to Land Clearance for Redevelopment Authority staff for approval.

Land Use Plan:

The area is within the *Washington Wheatley/Wendell Phillips/Downtown East Neighborhood Planning Study* - approved by the City Council on March 4, 1992 with Resolution No. 920198, amended March 14, 1996 with Resolution No. 960082, and July 23, 1998 with Resolution No. 980754. The long range plan recommends "*Residential*" land use for the entire area. The proposed single family residential land use in the urban renewal plan is in conformance with the city area plan.

Zoning:

The plan area is zoned R-4 (low apartment district) and M-1 (light industrial district). The plan states that the proposed zoning is R-1a (one-family dwelling district—medium density). Land Clearance for Redevelopment Authority staff and the plan indicate that the area will be rezoned at the time of plan implementation.

Redevelopment Coordinating Committee ("RCC") Action and Recommendation:

At a meeting held on March 8, 1999, the RCC voted to recommend approval of the following:

- A. A finding of "Blight" and "Insanitary" conditions as described in the Plan, and
- B. The proposed Plan and use for the property (single family residential) as described within the Plan.

both subject to the following conditions:

- 1. That the plan be revised in the following manner with conditions 2 through 8 added to the body of the plan and that five (5) copies be submitted:
 - a. Title Page: add LCRA Resolution number and correct date,
 - b. Summary Page, prior to Page 1, Objectives: change "47" to correct number after removing the existing "infill" sites from the total,
 - c. Summary Page, prior to Page 1, Objectives: change "1,300" sq. ft. to "1,500" sq ft.,
 - d. Page 1, para. I., line 2: change "24th Street Terrace" to "22nd Street",
 - e. Page 1, para. 2., last sentence: change "scheme" to "proposed",

- f. Page 1, II. Findings, line 4: change Resolution 99-, to Resolution 2-1-99,
 - g. Page 2, III. Statement, para. 2: change Plan to plan,
 - h. Page 4, V. Urban Renewal Techniques: Remove Item 4,
 - i. Exhibit A.: add Olive Street and Prospect Avenue identification, and identify the parcels removed from the plan as shown in Exhibit A-1,
 - j. Exhibit A-1, line 5: check the 1100.86 ft. dimension to confirm accuracy,
 - k. Exhibit A-1, remove Infill No. 88 from list and any others not in the plan area,
 - l. Exhibit B, page 1, para 4: change "urban renewal project" to "census tract",
 - m. Exhibit G: confirm the maximum sales price of the homes,
 - n. Exhibit H: remove Kansas City Parcels under Key,
 - o. Add a copy of the LCRA Resolution,
- 2. That the developer cause the area to be platted and processed in accordance with Chapter 66, Code of General Ordinances of Kansas Ctiy, Missouri, as amended, commonly known as the Subdivision Regulations, or that the area receive a Lot Split or Lot Combination as required.
 - 3. That the developer provide or repair sidewalks as required by the City Engineer's Office.
 - 4. That the developer provide at least one (1) street tree per lot as required by the City Forester.
 - 5. That the developer contribute money in lieu of parkland dedication if platting is required.
 - 6. That the developer rezone the area to the appropriate zoning district according to the guidelines of this Urban Renewal Plan.
 - 7. That the developer submit a storm drainage study to the City Engineer for approval and that improvements be made as required by the City Engineer's Office.
 - 8. That the developer submit plans for grading and siltation and erosion control to the City Engineer's Office if required, prior to the commencement of any construction.

City Planning and Development Department staff recommends approval of this case with the above listed conditions.

Respectfully submitted,

John Eckardt
Planner
