Oval Executive Office Bldg./Room 200
The White House

Dear Mr. Porter:

Thank you for your letter of June 17 with copies of the Vice President's remarks on "family values", which I appreciate.

I heard the Vice President speak here in Kansas City this week to a Chamber of Commerce group, and he did very well. Prior to his talk, about 15 of us had a 20-minute roundtable discussion with the Vice President, which was also good.

I gave a member of the Vice President's staff my card and a copy of the current National Parks Magazine. Later this month, I will become chairman of the board of the National Parks & Conservation Association, with headquarters there in Washington, DC. Paul Pritchard, our president, and I would be happy to sit with you or anyone there to give input and/or reactions to any national park policies and positions which the Administration has or wishes to develop. I discussed this briefly with the Vice President at the roundtable. He correctly (in my opinion) said it was his position to stay in the middle of the spectrum on the national parks issue (I had mentioned CNN had run a series on "Our National Parks in Peril") and environmental issues, avoiding both extremes. That's an excellent position. As you may know, NPCA is among the more conservative of the environmental groups in Washington. Our membership has grown to over 300,000 members nationwide.

I am concerned that the Administration is receiving inaccurate and unfair "bashing" on environmental issues. Ever since James Watt, the Republican Administrations have been seen as pro exploiters of natural resources and the national parks. Some even are quoted that the previous Administration wanted to sell off the national parks(!). There's no need for that inaccurate bashing to continue, if the administration would put forth a positive and constructive plan to save the national parks and, as Paul Pritchard stated in his open letter to the Administration and Governor Clinton, the economy and the environment can be mutually beneficial. It doesn't have to be either one or the other.

For example, as the military is downsized, hundreds of thousands of service people will become jobless. Yet there is a huge and crying need for additional park rangers at most of our national parks. These ex-military personnel would make excellent full-time and part-time rangers and interpreters. In the U.K., I am told, there are five million such part-time working park lovers and interpreters!

I am purchasing and starting memberships in NPCA for the President, the Vice President, and Jim Baker. I hope that they each have time to read Paul Pritchard's editorial in the current National Parks Magazine, and take up the helpful and constructive dialogue.

Thank you for your time.

Sincerely yours,

Dear Mr. Baker:

I have been a great admirer of yours for a long time, and it is too bad that you cannot be two persons, as the country needs you as our brilliant Secretary of State and also run The White House, especially during these critical times. Unfortunately, there is not much time left until the elections and so much has still to be done.

Since I love our great country, I am saddened by the developments, and I recently wrote a letter to the President, but I am not sure that he had an opportunity to see it yet.

I feel very strongly that some basic facts have not been made clear enough to all the people, and I would like to point out the following:

Everybody knows that things are not good right now throughout the country, and particularly bad for those who are out of a job. It is very easy to say how bad things are at present, and blame the President for everything. Therefore, it should be made crystal clear to the great masses of our country what this is all about; that it is not just an American, but a global recession, which is bound to get better in the near future, but that if it is not handled properly, it could become far more painful!

We know by bad experience that protectionism would be much worse and could lead to a real depression. The Democrats undoubtedly will use the printing press (printing much more money) which is another form of a tremendous tax and will deprive our citizens of half of their savings' values, or even much more! It was not too long ago, under a Democratic President, that inflation was at a rate of 13%, interest rates at 21% and mortgages at 17%. If this will happen again, in order to avoid complete ruin, we will have to put on the brakes again with much greater hardships to follow.

Since it is now a global economy, unfortunately, we have to compete with much lower labor costs abroad, and for that reason, many big corporations were forced to "restructure", laying off thousands of people in order to become leaner and more competitive. In addition, computers and sophisticated machines are automatically replacing workers, which adds to the complex problem. It is outright demagoguery to blame the President for this present dilemma, as no other President could change these fundamental facts.

It should also be made crystal clear to the masses of our country, that this is part of the economic cycle, and that we will soon be able to get out of it, as history has shown in the past.

FREEMAN INDUSTRIAL ENTERPRISES

After eight years of booming times, when consumers have bought freely, not only for the present, but also for their future needs, manufacturers have increased their production accordingly, and it is only normal that the long boom had to come to an end sooner or later. Inventories were built up high and when the consumer stopped buying - except for the immediate essentials - many manufacturers had to reduce their production and their labor force. After this unfortunate interim, people will soon have to start buying again, large inventories will be depleted and the economic spiral will go upwards again.

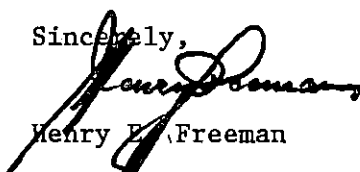

These basic facts should be made unmistakenly clear to the public and that it cannot be changed by slight of hands! People must be made to realize that things could be far worse if inexperienced amateurs will call the shots.

The international affairs are also very important at all times, as they are interconnected with our domestic problems. The communist and nuclear deadly threat, which was hanging over our heads, could have been ruiness to our country. Under the President's and your brilliant leadership, we orchestrated an unprecedented alliance in the Gulf and, apart from liberating Kuwait, we prevented an Iraq take-over of Saudi Arabia, which would have brought us \$5.00 a gallon and even higher gasoline prices with devastating affects on our entire economy. People must also be made to realize that we have to be vigilant at all times to prevent any such future menace, unless we are willing to pay a far higher price later-on.

As a result of your great victories - with an almost 90% approval rating of the President - we can now reap the benefits here at home. If given the opportunity to finish this outstanding job domestically, the country will again be grateful to our leadership; only ignorance can prevent this from happening. Although this is a difficult task at this late hour, you are the only person who has this enormous ability and great experience to do the job!

I am looking forward to receiving your early comment, and with best regards and all good wishes, I am,

Sincerely,

Henry E. Freeman

Buchanan declares ugly, domestic *jihad*

By MENACHEM Z. ROSENSAFT

PRESIDENT BUSH apparently still believes that he can somehow remain untarnished by Patrick Buchanan. Addressing the B'nai B'rith International Convention on Sept. 8, he said that "it is important that we learn how to disagree." He simply does not understand that there can be no compromise with Buchanan's anti-Semitic, anti-gay, anti-feminist poison-mongering.

At the Republican National Convention, Bush tried to portray himself and his party as espousing so-called traditional Judaeo-Christian values. Given the prominent roles accorded to Buchanan and evangelist Pat Robertson, both at the convention and in the party, this characterization rings hollow.

There does exist a Judaeo-Christian tradition in the United States, but it is hardly reflected in the 1992 Republican Party platform. True Judaeo-Christian values are those of the biblical prophets who denounced injustice and greed. They are the values of the Christian abolitionists of the 19th Century who fought against slavery. They are the values of a priest named Angelo Roncalli, later Pope John XXIII, who during the Holocaust tried to rescue Jews from the clutches of Nazism. They are the values of the great contemporary Jewish theologian, Rabbi Abraham Joshua Heschel, who marched alongside the Rev. Martin Luther King Jr. in Selma, Ala.

Another tradition

There exists another tradition with which most Americans would not want to identify. It is a tradition, epitomized by Buchanan and Robertson, that is antithetical to true Judaeo-Christian values. It is the tradition of prejudice and bigotry.

Menachem Z. Rosensaft is an attorney in New York City and the son of two survivors of the Holocaust.

This second tradition is the one that tolerated segregation and religious discrimination in this country for almost two centuries. It is the tradition that allowed American blacks to be lynched by white mobs. It is the tradition of keeping Jews and blacks out of WASP country clubs.

It is also the tradition of Christian anti-Semitism, of pogroms perpetrated in the name of Christ. It is the tradition that enabled German Christians to look the other way while their Jewish neighbors were deported to the Nazi death camps. It is the tradition that led to the mass murder of gypsies and homosexuals at Auschwitz alongside European Jewry. And it is the tradition that enabled self-righteous conservative Christian religious leaders to defend the South African policy of apartheid for so many years.

Five hundred years ago, Queen Isabella of Spain was simultaneously the patron of Christopher Columbus and Tomas de Torquemada. The latter was the Grand Inquisitor who, in the name of traditional Christian values, masterminded the expulsion of the Jews from Spain, and the burning of thousands of alleged infidels at the stake. Morally, Queen Isabella's responsibility for and identification with the Inquisition far outweighs her relatively minor role in the European discovery of the New World.

In a similar vein, George Bush's alliance with Patrick Buchanan effectively eclipses his other accomplishments. Buchanan, it must be remembered, tried to foment popular anti-Semitism during the months before the Gulf War by accus-

Pat Buchanan in battle dress

ing American Jews of "beating the drums" for a war in which American "kids with names like McAllister, Murphy, Gonzalez and Leroy Brown" would die. Among his heroes are the likes of Sen. Joseph McCarthy and Chilean dictator Augusto Pinochet, and he once called Adolf Hitler "an individual of great courage, a soldier's soldier... a political organizer of the first rank." He also has championed the cause of a succession

of Nazi war criminals; he has argued that it would have been impossible for Jews to perish in the gas chambers of the Treblinka death camp; and he has referred to a "so-called Holocaust survivor syndrome," which he described as involving "group fantasies of martyrdom and heroics."

Knowing full well what Buchanan represents, Bush chose him to be the first major speaker at the Republican Convention, and allowed him to make his divisive views an integral part of this year's political debate.

The president's surrogates

Thereafter, the president did absolutely nothing to dissociate himself from Buchanan's offensive gay-bashing and anti-feminist rhetoric. On the contrary, Bush's surrogates, including Barbara Bush and Vice President Dan Quayle, could be seen applauding enthusiastically during Buchanan's speech. It has since been announced that Buchanan will be campaigning actively on Bush's behalf.

Buchanan's values are those of Torquemada and the Inquisition. At the convention, he proclaimed a religious and cultural war. It is a war that must be taken seriously. It is a war against the traditional multicultural nature of American society. It is a war against tolerance and decency. And it is a war in which George Bush has been publicly enlisted as a foot soldier.

The owner of a vicious pit bull has two options. He can muzzle the animal, put it in a cage, and throw away the key. Or he can let it loose on the public at large. President Bush has made his choice. He has bestowed the mantle of legitimacy on Patrick Buchanan and his ideology of bigotry. That is reason enough to vote for Bill Clinton.

Mr. James Baker
Chief of Staff
The White House
Washington, D.C.

Dear Mr. Baker:

I am writing to you with an idea. I will try to introduce myself so that you will consider reading further. The first permanent job offer I had in my life came from Congressman George Bush. In January, 1968 he offered me the position of Legislative Assistant on his staff.

I had graduated from Yale in 1964 and Stanford Law School in 1967. I had gone to law school because of my interest in politics and government. My congressman, Tom Curtis, (R- Mo.) had offered me a job as his legislative assistant when I was still in law school but I could not consider it because of my draft status. When I later got out of the army, Tom Curtis suggested I meet with then Congressman Bush. I was very impressed and truly wanted to accept this job; but this position did not become available until June. At that time I could not figure out another alternative and reluctantly declined his offer.

Instead I became legislative assistant to Congressman Clarence (Bud) Brown, Jr of Ohio. This job was, also, very good. I will not explain the details of this here, but shortly after I went to work for him he decided to make me his campaign manager. I left the federal payroll and moved to Ohio. He did very well that year which was his first real general election since he had won in a special election in 1967. I, also, managed his 1970 election and was the staff person most responsible for his political affairs. Because of this unusual experience, I realized that I was very interested in and reasonably good at campaign management. I left Washington in 1971 to be an Assistant Dean at Stanford Law School. In 1977 I became a Vice-president at Tulane and then I took a comparable position at Yale.

I have explained all of this because I would like to offer a suggestion about the current campaign and wanted to try to demonstrate some credibility. I enclose a *vita* for your information.

I think that the President should consider using the talents of my current Congressman, Tom Campbell. He is unbelievably bright, articulate and I believe, creative. I mention this because in my judgment he is extraordinarily good at explaining the policies of the Bush Administration. He is very good at offering a persuasive, intelligent, rationale and vision for what the President has done. I believe that a major part of the problem has been that for too long the President has not done a good job of explaining himself, as opposed to that the policies themselves are so wrong. I think Tom is truly a genius in this regard.

He could be, also, a welcome addition to the team that was involved in making policy; he has as you perhaps know a Ph.D in economics as well as a Law degree from the University of Chicago. But I am here only focusing on what is his unusual ability to explain, develop, articulate what the President has already done.

I do not know him super well and there may very well be something I do not know about him that makes this a bad idea. But I have often seen him here explain a vote or answer a question and I always wish that the President or the White House had said half of what Tom had said. He could, perhaps, be of some use to you in preparing for debates, if they take place.

I want to say in closing that I am very impressed with your service to Presidents Reagan and Bush. Thank you for truly remarkable contribution to our Party and our country.

Cordially,

Gary Bayer

It's Time to Tear Down Our Own Monuments to Marx and Lenin

Not Build New Ones.

Now is the time to join the rest of the world in rejecting the Marxist-Leninist concept of "something for nothing" as a basis for government, and creating a renewal of free enterprise and individual initiative as the solution to economic and social problems. We must strive toward:

1. Market economy solutions to healthcare spending rather than massive new entitlement programs which will erode the incentive to work.

Our studies indicate that the 116 million Americans willing to go to work each day would shrink to 98 million if healthcare to the able-bodied is made an entitlement. Taxes will increase dramatically.

2. Reforming our welfare system which currently breeds career welfare and irresponsible behavior. If unchecked, this government-sponsored proliferation of poverty will overpower our educational, healthcare and criminal justice systems.

3. Revitalizing the private sector by eliminating abuses of worker's compensation and unemployment compensation, reducing the strangle-hold of regulatory agencies, and reforming liability laws.

4. Privatizing government programs wherever possible, including public housing, educational endeavors and welfare administration.

5. Unleashing individual initiative with lower--not higher--taxes, and less--not more--government.

Write or call your legislators about these vital concerns.

Unlimited Steak & Lobster For Everyone!

At Taxpayer's Expense.

Most people agree that providing food for society's hungry does not necessitate giving them steak and lobster. Yet we do exactly that in health-care services for the poor under Medicaid.

This steak and lobster mentality has contributed to massive price increases to private buyers of health-care. Medicaid forces hospitals to accept payments as low as 35 percent of charges, thus inflating hospital charges to employers and workers by up to 50 percent. As prices rise, it becomes more difficult for American companies and workers to afford health

insurance.

It's time for a new start. We cannot support steak and lobster entitlements, which after all, give no incentive for recipients to get off welfare. Why would anyone want to get off public aid when they can run to an emergency room for free every time they catch a cold, watch color TV in a semi-private room and then collect a \$5 million liability settlement when a hospital or doctor makes an honest mistake in delivering their free health-care?

Some solutions are obvious:

1) Eliminate malpractice awards

for recipients of taxpayer-donated healthcare,

2) Legalize an expanded role for nurse practitioner clinics to provide far more of the primary care at lower expense,

3) Let welfare recipients pay at least nominal deductibles and co-insurance for medical care, as do most of those who work and support the system.

When the steak and lobster entitlement menu is abandoned, taxpayers will be able to afford healthcare for all the indigent, and costs will be more reasonable across the board.

Write or call your legislators about these vital concerns.

The Honorable James A. Baker, III
White House Chief of Staff
1600 Pennsylvania Avenue
Washington, D.C. 20001

Dear Jim:

Millions of Americans are delighted that you have returned to the White House as President Bush's Chief of Staff and the overseer of his campaign for re-election in 1992. Both the President's and the Vice-President's acceptance speeches last night represent giant steps toward their retaining "four more years." I join your many friends in pledging my support of the President and of you.

I do wish to point out, however, one categorization by both President Bush and Vice-President Quayle in last evening's speeches which, if continued, will result in the alienation of a vast number of their loyal supporters and voters. The categorization that I refer to is the pejorative reference to "Trial Lawyers" when speaking of one of the major impediments to reforms in our civil justice system. While I, and a few of my colleagues, know that the reference is to "Trial Lawyers" (in capitals) and not to "trial lawyers" (in lower case) as professionals, I would respectfully suggest that these references be more accurately and more descriptively re-categorized as "Plaintiffs' Personal Injury Lawyers," "Claimants' Lawyers," "A.T.L.A. (American Trial Lawyers Association) lawyers" or some such designation which does not pejoratively lump them in with defense trial lawyers, prosecutors, and lawyers generally who try cases, but who, in substantial numbers, are in agreement with the President and with the Vice-President's Council on Competitiveness' suggestions for reforms, particularly in the civil justice system.

I would hazard a guess that a substantial number, if not a healthy majority, of the Fellows of the American College of Trial Lawyers (which is, as you know, the honorary organization that is the most prestigious of trial lawyer groups) are strong supporters of President Bush and support most of the reforms set out by the Vice-President in his address to the House of Delegates of the American Bar Association in Atlanta. The Fellows are trial lawyers (lower case) but not necessarily "Trial Lawyers" (in capitals). The pejorative references to "Trial Lawyers" further complicate Dick Wiley's efforts to organize lawyers generally to support the President and Vice-President. A substantial number of lawyers, like me, who defend cases, or who are

August 21, 1992
Page 2

involved in commercial litigation of one kind or another, do not support the abuses of the civil justice system urged and financed by members of A.T.L.A. and the plaintiffs' personal injury bar. The American College, for example, has done an exhaustive study of exemplary damages that is excellent and its recommendations for reforms go further than those of the Council on Competitiveness. I am sure that Solicitor General Starr is aware of this work and will concur with me that putting the Fellows of the College (albeit some are plaintiffs' lawyers) and the great number of lawyers who try cases of all sorts in the same special interest category as A.T.L.A. members is not only unfair, but may likely result in an unwanted alienation of many staunch Bush-Quayle supporters and voters.

Likewise, both federal and state prosecutors are trial lawyers (lower case) and they support the recommendations of Attorney General Barr for reforms in the Criminal Justice System, so severely criticized by Sandy D'Alemberte, Immediate Past President of the A.B.A., in his letter to the President and to Bill Clinton. In fact, Arthur C. "Cappy" Eads, District Attorney in Bell County, Texas (whom you may know) and a Democrat office holder and President of the National District Attorneys Association, after reading Sandy's letter, is a good possibility to support President Bush. But, any thoughts he may so have will be severely curtailed by continued pejorative references to "Trial Lawyers", rather than "A.T.L.A. lawyers", "plaintiffs' personal injury lawyers" or some other more accurate characterization.

I am mindful that the President and you are far better "tuned into" the public perception of lawyers than I, but, I am proud to be a lawyer - and a trial lawyer (lower case) - and that is why I am seeking the Presidency of the A.B.A. in 1994. However, I also want to support the President and Vice-President in 1992, and hope they will find a more accurate, more descriptive way to characterize those plaintiffs' lawyers and members of A.T.L.A. whose special interests lie in perpetuating civil justice abuses for financial gains, than the term "Trial Lawyers".

Respectfully,

Blake Tartt

Dear Mr. Skinner:

In April of 1991, I sent some important material to then Chief-of-Staff, John Sununu. This information was passed on to the President.

During the past year and one half, I have kept the President abreast of very important information during and after Desert Storm.

A new currency was created (by Someone much greater than I), that was officially sent to all countries in the world. This was in April 1991. The President received 10 units of this new currency, for The United States. The United Nations received 50 units. Ask the President about this transaction. The President was asked to introduce this new currency last year, along with Mikhail Gorbachev. Gorbachev was warned in November of 1991, that if he did not jointly introduce this new currency with President Bush, he would be removed from his office. Also, President Bush (whose popularity was then 65%) was also warned that he would lose....re-election in 1992, if he did not also jointly introduce this new currency.

THE LORD HIMSELF (through me as HIS agent) has recently heard the President's prayers. He will now give him one more opportunity to introduce this new WMF Currency, at the Republican Convention. If the President does introduce it, HIS POPULARITY WILL IMMEDIATELY INCREASE TO THE SAME LEVEL AS AFTER DESERT STORM...! HE WILL BE RE-ELECTED AND YOUR JOB WILL ALSO BE SAVED...!!!

Please read and then pass along the enclosed information to The President.THANK YOU...

It is my job to help you be re-elected in 1992. The key is **THE LORD'S** own NEW WORLD ORDER, and the introduction of **HIS** new World Currency.

THE LORD would like you to make a speech on TV On December 25, 1991, and make known that there is a better world coming soon. And on your speech in January to Congress, you can give more details, outlining THE LORD'S new world currency that will eventually bring an end to taxation, not only in the U.S., but worldwide. YOU YOURSELF WILL RECEIVE ALL THE CREDIT.

And on the Orthodox Christmas Day in the Soviet Union, President Gorbachev can make a similar speech as you would make on December 25, 1991.

If you would like to talk to me further during the next few weeks about **HIS PLAN**. You are invited to see me in California during your coming trip. We could discuss it here in Visalia or at my coastal home in Morro Bay.

PROJECT MANKIND...Update....

This letter was sent to all the current members of Congress, 435 Representatives and 100 Senators, plus The Vice President and The President.

Five days later, after certain members of Congress had sent the information to President Saddam Hussein, the American and Allied hostages were released.

"...THEY SHALL ALL
KNOW ME, FROM THE
LEAST OF THEM UNTO
THE GREATEST OF
THEM..."

Richard H. Whiteside
President and C.E.O.

An open letter to members of Congress....

.....Twelve months ago, the enclosed copy of a statement on "Love", was sent to President Mikhail Sergeyvich Gorbachev. He received it in early January 1990.

"LOOK HOW HE HAS CHANGED..." His attitude has completely made a mark in history...! He would like to change Communism in the U.S.S.R., TO CAPITALISM...! My feeling is that the letter he received from mechanged his whole outlook on life. THE LORD GOD DOES TRULY LOVE HIM...!!! And he knows it, and he is right.

My feeling is that if you, the members of congress, also know of this message of "LOVE", you too could be changed...!!!
You will make better decisions, in all of your daily contacts.

If you, the members of congress, copied this same letter (enclosed), and sent it to President Saddam Hussein, he might change his mind about his aggressive plans. He might pull out of Kuwait before January 15, 1991.

He wants a holy war. He's got one now...! Only it is against him...!!!

**THE
WORLD MONETARY FUND
(WMF) WORLD TRUST**

Also included along with this letter, is a copy of a letter sent to President Bush. It is dated September 21, 1990.
A similar letter was sent to President Gorbachev at the same time.

Someday, we may have a world congress of nations, patterned from the U.S. Congress. All of the members would be elected representatives from their own countries. But this congress would be only a ONE party system. Everyone would be sincerely honest in all their daily activities. Everyone is equal, worldwide.

This writer is a layman, like yourself. Several personal experiences have motivated me to send you the enclosed information.

Maybe you could help save thousands of American and allied lives.
It is worth a try...!

Sincerely,

R.H. "Dick" Whiteside

LOVE

GOD's love for His chosen individuals is very great

Those people who love GOD first.... and show it.... are His chosen. The HOLY Spirit has shown to me the intensity of His Love. I have felt his love also in other individuals...too. He wants to share His love through each of us, to other people...!

To each of His chosen, here is what the HOLY Spirit says now to each of you....

I LOVE YOU VERY, VERY, VERY, VERY, VERY MUCH...!!!

My love for you is not the kind that breaks apart marriages, it is the kind of love that surpasses all marriages.

My tremendous love for you is still growing more and more. The intensity of my love for you is beyond human understanding...!!!

THE LORD GOD

...YOUR WONDERFUL...MIGHTY FATHER...

On the reverse side of this page, the 53 word statement about the LORD's love for you can now be shared with other people you know. It can now be shared with everyone worldwide!

.....THIS IS A FIRST...!!!

THIS SAME KIND OF LOVE CAN BE DIRECTED TO OTHERS: ...NEIGHBORS, ENEMIES,
GROUPS AND LITERALLY EVERYONE...!!!

...BUT THE GREATEST JOY IS TO DIRECT THE MESSAGE BACK TO OUR LORD GOD HIMSELF...!!!..

Dear Friend,

Thank you for sharing with me your concerns about the situation in the Middle East. Events in the Persian Gulf have moved very rapidly since I received your letter-- my apologies for not getting back to you sooner. However, I am certain that at this moment you share in my hope that a homecoming for all U.S. soldiers is on the horizon.

The events of the past year have signaled a clear need for increased efforts to achieve peace in the Middle East. The United States has a unique opportunity to work with its allies to help bring about workable solutions to the problems in the Middle East and to prevent future crises in the region.

Such efforts should include enhancement of multinational confidence and security-building measures; implementation of a regional arms control structure, and widening of the nuclear non-proliferation regime to address the growing threat of ballistic, chemical and biological weapons. I believe that in addressing these multilateral issues, progress can be made on achieving a broader political solution to the conflicts in the region, including the Arab-Israeli conflict.

Rest assured that I will continue my work here in the Senate for a lasting peace and a safe and speedy return of all our troops. Thank you again for taking the time to share with me your views on this important issue.

With best wishes,

Sincerely,

Alan Cranston

100 Trillion Dollar WMF Reserve Notes

PROJECT MANKIND INTERNATIONAL

Richard H. Whiteside
President and C.E.O.

W*M*F

These notes are to be issued immediately to every participating nation in the world. These notes are to be kept by each nation as collateral so that they may print additional money in their own currency. The amount they may print is determined by the value of their own currency, in relation to the value of the WMF Reserve Note (or notes) that they receive from THE WORLD MONETARY FUND (WMF) WORLD TRUST. The value of the WMF Reserve Note dollar is equal to the value of the United States dollar.

This additional currency that each nation may print and put into circulation, is to be used for INITIAL EMERGENCY RELIEF (for food, clothing, shelter and to pay off existing financial obligations, including national and international payments owed.)

This new money may not be used for military needs or any operation expenses to maintain it.

THE WORLD MONETARY FUND (WMF) WORLD TRUST

W*M*F

The United Nations will receive 50 WMF Reserve Notes, valued at five quadrillion dollars. Each permanent member of the U.N. Security Council will receive Ten, 100 Trillion Dollar WMF Reserve Notes....China, France, United Kingdom, United States and U.S.S.R.

Every nation in the world will be considered in good standing, and will receive at least one of the above 100 Trillion Dollar WMF Reserve Notes. THE JERUSALEM POST
Jerusalem, Israel

"The largest building to be constructed in the world" makes up a part of this new city to be built sometime in the future, near Jerusalem, Israel. The information about it's design came literally from "out of this world", in a revelation. The city is shaped "in the form of a crown." It has structural designs never seen on earth, up to this time. It truly is a very beautiful city. The tallest building, shown below, is 1000 feet high. It is the WMF building. Other buildings shown next to it are 500 feet tall. The sides of the largest building are 1000 feet wide in front, 1500 feet on each adjacent side and 1800 feet around a circular rear base. The sides of all four walls slope inward at the top. This is the WMF building. It contains over one billion cubic feet. It truly appears to be like a "mountain". The average outer diameter of the city is 5900 feet. At one point, the diameter increses to 6400 feet.

A model of this new city was built in 1972. The photo is from this model. If the city is constructed, it could bring true peace and equality to all mankind...worldwide...!

The city design was only recently released for publication.

by Richard Henry Whiteside

Chapter 1

THE GREAT EVENT

On May 13, 1967, one million Roman Catholics gathered together, including the Pope of Rome, to celebrate the 50th year anniversary of an event at Fatima, Portugal. What was the reason for this large turnout of people? It was because something secret was expected to be announced in a new vision. Fifty years earlier, three small children from Fatima saw the first heavenly visions in the year 1917. The last vision mentioned a new vision to take place on May 13th 1967, fifty years later. The reason for this new vision was kept secret by the children and the Catholic authorities. But to all the people present in 1967, nothing happened. After waiting all day, no new vision was to be seen. Everyone went home that day with a big let down. Many of the Roman Catholics worldwide wanted the Pope to make a public statement as to what was to be revealed in a new vision. In later years after 1967, even future Popes would

not disclose anything they knew about what should have been seen and heard at Fatima on that "special" day May 13th 1967.

But, something of major proportions did happen twelve days earlier on May 1st, 1967. Although the Fatima crowd expected the Holy Vision on May 13th, it took place in Visalia, California at 12:02 a.m. May 1st, 1967. The reason the expected vision was twelve days early was because there were twelve leap years during the preceeding fifty year period. This moved the date up twelve days to *May 1st, 1967. (*Evidently, God does not count man's extra leap year days. He counts an earth year as 365 days, not 366 days as found in a leap year.) Without leap years, May 13, 1967 would fall on our May 1, 1967.

What did happen on May 1, 1967? It actually happened to me, a forty-one year old married man. I had just arrived home on a Sunday night April 30, 1967 at about 10:30 p.m. from working as a truck dispatcher in a nearby town. I unlocked the front door of my home in Visalia and found my wife and two young children all sound asleep in their bedrooms. Only one light was on in the living room. In the kitchen and on the refrigerator door, was a note from my wife. It said to put the food, wrapped in foil inside, into the oven and heat. This was to be my Sunday night dinner.

So, after eating in the kitchen, I let my small toy poodle dog "Gi-Gi" into the house, from the garage. About 11:30 p.m., I wasn't sleepy so I sat down in my easy chair in my living room and decided to read for awhile. I took off my work shoes and then my dog jumped into my lap and promptly went to sleep. I picked up a Bible that was given to me years earlier. I began to read Genesis, about how God created the *earth. (*Note: Although I was a

confirmed member of the Episcopal Church, I had not read out of a Bible in several years. Also, I had not attended church for several years) Two days earlier, a fellow employee at work asked me, "If God created everything, who created God?" I told him that you cannot measure God, He is infinite. That would be like a mathematician trying to measure infinity.

As I read along to page 18 in Genesis, about the six days that God took to create everything, including the earth. Suddenly, as I read, I noticed something strange about my dog. She woke up and stood up in my lap. She was looking up at the blank wall ahead of me. Gi-Gi was wagging her tail very fast and her eyes stared frozen looking up at the wall ahead, a distance of about fifteen feet. Suddenly, the dog froze stiff and with her tail between her legs, she jumped off my lap and very slowly walked along the adjacent couch. After walking along the full length of the couch, she jumped off and hid out of sight behind it. Then in a few more seconds, I felt something radiating through the wall and coming toward me.

It was absolutely the most satisfying and supremely unique radiation that I had ever felt in my lifetime. It is the most rewarding feeling that any human could ever desire. It was the radiation of GOODNESS coming toward me. I immediately knew it was God Himself. He was invisible but the radiant energy of His GOODNESS outlined the size of a tall human figure. To be sure, this was no human, but God The Father Himself who was approaching me. I thought to myself, this is happening to me? Believe me, His GOODNESS makes you feel very dirty and unclean and extremely humble in His presence. Absolutely, there is nothing on earth to compare with this feeling I was receiving. He approached closer and closer and the feeling of GOODNESS was absolutely overpowering, and I barely could keep conscious as He stood upright

directly in front of me. Then I felt the radiation from His arms rise in front of me, and the GOODNESS in His hands moved to directly over my head and paused. I remember saying enter, and His hands touched the top of my head. GOODNESS poured into the top of my head and continued down through my body and into my toes. "I was full of GOODNESS...!"

As His GOODNESS entered my body, I went into a hypnotic trance. I was conscious but completely under His power. At first, God began talking to me in English. His voice was extremely powerful and vibrant. He spoke the following message:

..."THIS IS THE TRUTH"...

"GOD's GOODNESS is overwhelming." "There are no earthly words that can truly describe the gift of GOD's GOODNESS." "GOD has much love and compassion for those now attending church knowing that scientific facts do not support His creation." "He realizes man's intelligence is now at a very high level." "And He truly loves each member of His congregations that are now attending church for the sole purpose of showing their love for Him." "He forgives mankind at present, for not attending church, because of the scientific conflict in creation." "But Lo, GOD's anger will be great, when with this new knowledge, a man who so does believe, and then disbelieves in*him (* I felt He meant me), for he will suffer the angry wrath of GOD!!!" "But for those who will believe, and those renewing their beliefs with deeper meaning, ...GOODNESS and MERCY will be theirs everlasting..."

After God Finished His message, I believe I was taken "in the spirit" to heaven where I found myself seated on an elevated platform. I could see many elderly men, who were facing me, looking and listening to *Someone sitting to my left. (*I believe it was God Himself talking to these men, and I was sitting on His righthand.) Then I entered an adjacent room that was well lighted. About thirty to forty men were all standing in small groups talking to each other. All of them looked to be about thirty-five years old and no beards that I remember. All wore colorful clothes with long sleeves. It appeared that I was in the middle of a reception that was given in my* honor. (*Later, I had the feeling I had been chosen as "The Branch" to be God's own personal servant and to do His will.) During the reception, there was some beautiful heavenly music that was "out of this world". At the last, three men stood before me. One of the men was a full head taller than the other two. I believed them to be St. Peter (the tallest), St. James and St. John. I felt their*tremendous brotherly love. (* Emotions are 100 times stronger in heaven than on earth!)

My consciousness returned to my living room as God withdrew His hands and arms. I felt the GOODNESS in His hands and arms pull back from me. Then I could feel all of God's GOODNESS pass by the right of me and then behind me and exit through the solid wall behind me, through the kitchen and into the garage. I was totally left with a tremendous *afterglow of GOODNESS. (*The afterglow lasted for the next three days.) I called my dog Gi-Gi several times. Finally she slowly came out from behind the couch and jumped up into my lap and began to lick my face continually.

In the year 1972, I composed the following prayer as a sequel to the Lord's Prayer. I repeat it daily...

OUR KINGDOM PRAYER

Our Wonderful Mighty Father, who rules from
His Great White Throne, Hallow be Thy Glorious
Name. Thy Kingdom has come on earth, as it is
in Heaven. Give us each day of our everlasting
lives, Thy Spiritual Guidance to obey Thy laws.
Let us serve Thee Forever, protected by the
Holy Fear of Thy Presence.

Please forgive us our mistakes, as we in turn
forgive the mistakes of others.

Let us help Thee to establish the earth as a
Precious Jewel in Thy Wonderful and Mighty
Universe.

Let us truly love Thee forever, as You have
Truly loved us, by showing us Thy Tender
Mercies and the Gift of Thy Overwhelming
GOODNESS!!!

Amen-Forever
and Ever.....

100 Trillion Dollar WMF Reserve Notes

**PROJECT MANKIND
INTERNATIONAL**

Richard H. Whiteside
President and C.E.O.

WM*F

These notes are to be issued immediately to every participating nation in the world. These notes are to be kept by each nation as collateral so that they may print additional money in their own currency. The amount they may print is determined by the value of their own currency, in relation to the value of the WMF Reserve Note (or notes) that they receive from THE WORLD MONETARY FUND (WMF) WORLD TRUST. The value of the WMF Reserve Note dollar is equal to the value of the United States dollar.

This additional currency that each nation may print and put into circulation, is to be used for INITIAL EMERGENCY RELIEF (for food, clothing, shelter and to pay off existing financial obligations, including national and international payments owed.)

This new money may not be used for military needs or any operation expenses to maintain it.

**THE
WORLD MONETARY FUND
(WMF) WORLD TRUST**

WM*F

The United Nations will receive 50 WMF Reserve Notes, valued at five quadrillion dollars. Each permanent member of the U.N. Security Council will receive Ten, 100 Trillion Dollar WMF Reserve Notes....China, France, United Kingdom, United States and U.S.S.R.

Every nation in the world will be considered in good standing, and will receive at least one of the above 100 Trillion Dollar WMF Reserve Notes. A nation over 150 million population will receive two (2) notes. A nation of 300 million population will receive three (3) notes. ...400 million pop., four (4) notes; 500 million population, five (5) notes, 600 million pop., six (6) notes and each 100 million additional population increase will warrant an additional note.

Enclosed with this information is a copy of a letter that I sent to President Gorbachev. It will give you additional information about this program.

President George Bush
The White House
Washington, D.C. 20500

Dear Mr. President:

Enclosed is something very special.

THE LORD GOD HIMSELF requests that the enclosed
100 Trillion Dollar WMF Reserve Notes be issued
to all countries, immediately.

These new notes are to be used like Federal Re-
serve Notes. They are to be kept by the U.S.
Treasury as collateral so that the U.S. Treasury
may print new United States currency to help
solve our financial dilemma.

The enclosed information outlines how the Reserve
Notes are issued, and their purpose.
They are not to be used for military use.

The world is at a critical time financially.
If every country increases their own currency
supply all at once, the equality of each
foreign currency should remain nearly equal in
value.

By the year 2001 A.D., World Wage and Price, in
the new Holy City in Jerusalem, will keep in-
flation to a minimum. But, it is up to each
country in the world today, to keep inflation
down, while using the additional currency now
available.

By the way, I mentioned that the California
Drought was over last February 27th...! This
I noted in my last letter to you dated March 2nd.
We should be back to normal rainfall by the
end of next week. We now have 7 inches of rain
and 3 more storms to come...this week...!
We have had 1½ inches today, and its still raining.
I would like to meet you in the near future.

President Mikhail Gorbachev
The Kremlin

Dear President Gorbachev:

W*M*F

Enclosed are copies of letters from various world leaders. From them, you can gain a better insight into what has been happening in the Gulf war. **THE LORD GOD** has been very active in making recommendations to President Bush, on how to run the war. Forgive me for not keeping you informed during that time. But the 'Miracle' victory was the **LORD'S** doing.

THE LORD GOD wants to give you **HIS** personal support in how you are running your government. **HE TRUSTS YOU.** Do not be concerned about those who ask you to resign. They are only testing you. **THE LORD DOES WANT YOU TO STAY IN YOUR OFFICE..!!!**

Enclosed is a copy of my book (still in manuscript form). It outlines **A NEW WORLD ORDER.** Recently, both President George Bush and Sec. General Javier Perez de Cuellar, received their own copies of this book. On the last page is shown a specimen copy of a **new currency** to be used throughout the world, after the year 2000 A.D.

But, because of the poor financial conditions of all the nations today, throughout the world, it is my desire to issue it to all nations who could benefit immediately. Many nations of the world cannot wait until the year 2000 A.D.

This new currency is to have a parallel value, equal to the U.S. dollar. It could be issued in a "crash" program by September 15, 1991. It could be issued through the United Nations to all countries throughout the world who would like to enter into the program immediately. The amount of money to be issued to each nation would depend upon the population count of each nation. I would recommend issuing each country a sum of \$1,000,000. for each citizen in their own country. This money would be issued as **INITIAL EMERGENCY RELIEF** (for food, clothing, shelter, etc.) The money is to be used for strictly peaceful purposes. It should not be used for military support or needs.

The new currency should be used to purchase what each country needs, particularly for imports from other participating countries. A new an active commerce would result in bringing in needed goods and services. In addition....every citizen of each country would indirectly and directly benefit.

The new currency would end the problem of deficient spending and equalize the balance of payments for each participating country.

The new money could also be used to rebuild Kuwait and Iraq, for peaceful and humanitarian needs. But the money is not to be used to resupply military support and needs.

Soon, I will send a copy of this letter to The Secretary General of the United Nations and to George Bush, for their comments.

In the year 2001 A.D., THE NEW WMF CURRENCY will be issued directly to the citizens of every nation in good standing. This is to be their own inheritance. (The book describes how this is to be done.)

Dear President Gorbachev:

*****WMF*****

Since my last letter to you, dated March 11, 1991 (enclosed with this letter), World conditions soon will be such that there could be a total collapse of the World's economy within six months. There is just not enough money in circulation throughout the world to supply the World's needs, and pay all of the necessary bills.

And since there is literally no time left to solve the World's financial dilemma, **THE LORD GOD HIMSELF** has elected to begin **HIS** new world financial program to benefit all nations. This new program will work as follows:

**THE
WORLD MONETARY FUND
(WMF) WORLD TRUST**

*****WMF*****

In the year 1988, initially 1000 WMF DOLLAR RESERVE NOTES were printed and kept in storage. A portion of these notes will now be sent to every nation in the world. Some nations will receive more of these notes than others. But each nation will receive at least one! The face value of these reserve notes is 100 Trillion WMF dollars. These reserve notes are to guarantee the additional currency you will begin printing immediately of your own nations currency. Each nation throughout the world will likewise begin printing additional currency of their own money, up to the face value of the new WMF Reserve Note in their possession. The WMF Reserve Notes are to be equal in value to the United States dollar.

The United Nations should agree to accept this new financial base of aid in a formal written agreement. Every nation who participates will benefit. The new additional money made available is primarily for **INITIAL EMERGENCY RELIEF** (for food, clothing, shelter and to pay off existing financial obligations, including national and international payments owed.) own country. They will pay off all their own obligations in their own money, at the going rate of exchange.

On Monday March 18, 1991, I will send a letter to the Secretary General of the United Nations outlining the WMF financial program. Each of the five permanent members of the Security Council will each receive ten (10) 100 WMF Dollar Reserve Notes. These members I will send to them personally their allotted amounts. (You will receive your ten Notes enclosed with this letter.) All notes have serial numbers and all participating nations will know of each others serial numbered Notes.

I will personally distribute many of the notes to various nations myself. The balance will be distributed by the Secretary General of the United Nations. Also, the United Nations will also be authorized by me, to maintain their own deposit of fifty (50) of these WMF notes for their personal needs.

Soon I will send you a new copy of a manuscript for a new book that details the coming new age. ...The book is called "THE NEW MILLENNIUM. Included along with this letter are excerpts from the book. (President Bush has his own copy now.)

Since the beginning of Project Mankind International, I personally have funded its operation. The only money that has gone into this program has been from me personally. But now, we need more financial support than I can give to it by myself. I would like pledges from all the nations of the world now, to give their own personal support of all future WMF projects.

Thank you for allowing THE LORD GOD HIMSELF to help your great country survive, at this critical time for you and your nation.
YOU HAVE BOTH OF OUR PERSONAL SUPPORT TO SUCCEED.

Dear Sir:

Enclosed are two different letters to
President Mikhail Gorbachev. One is dated
April 11, 1991 and the other one is dated
April 15, 1991. These are copies for you.

These letters describe a new WMF Reserve note,
which is now to be issued as WMF Dollar Reserve
Notes. This is the first stage in establishing
a worldwide supply of additional money.

The letters to the Mikhail state that 1000
Reserve Notes were printed in 1988 and kept
in storage. The value of each of these notes
is for 100 Trillion WMF Dollars. And fifty (50)
of these are for you to keep at the United
Nations. Each one is serial numbered. When
the United Nations needs additional capital,
you may use a 100 Trillion dollar note as
collateral in exchange for a nations own currency.
The most often used currency would be U.S.
A WMF dollar is equal in value to a U.S. dollar.

THE WORLD MONETARY FUND (WMF) WORLD TRUST will
both issue WMF Reserve Notes and keep a record
of all serial numbers issued. All un-issued WMF
notes will be held in storage with the WMF
World Trust.

Additional details about the WMF Reserve Notes
are contained in the two letters to President
Gorbachev. I would like a meeting with you.

Mr. James Baker
Campaign Chairman, Republican Party
310 First Street, S.E.
Washington, D.C. 20003

Dear Mr. Baker:

Since I cast my first vote for Dwight Eisenhower I have remained a strong Republican. In the ensuing forty years I have been deeply involved with the party at both county and precinct levels. This is the first time I have truly been frightened for the future of our country.

President Bush can travel to every city in the country and say all the right things. Bill Clinton could go to Cuba for a photo op with Fidel Castro. It won't matter. Clinton will become president with a Democratic congress if something else doesn't happen. Grass roots organization.

When I returned to Campbell county my wife and I found a party in chaos. There are three people running for federal office here. George Bush, Jim Bunning and Dave Williams. I fear for all of them. In our precinct we have two precinct captains. One supporting Bunning and the other pushing state Senator Roeding. Nobody for Bush. Nobody for Williams.

* My wife and I have made repeated calls to Bunning headquarters (we can't find one locally for Bush) offering to try to coordinate all the county precincts in a registration drive and then set up a hot line on election day to make sure every one of our registered voters gets to the polls. They won't even return our calls. On election day my wife and I will go and vote for all the Republicans, even though nobody seems to care whether we do or not.

Mr. Baker, read this letter carefully. In the next fifty days, Kentucky is likely to be lost because people are running willy-nilly about, espousing their own private candidates. THERE IS NO ORGANIZATION. I don't know if it's too late to do anything about it, but it isn't too late to try.

Bill Clinton scares the hell out of me. So does the Democratic congress. But what scares me the most is my own party.

Very truly yours,

Dear Dick:

Sorry to bother you with this - but the Schweizer issue has reared its head prior to what I thought was the D Day Report from GAO - September 28th. It is now out.

GAO has thrown in with the original Air Force decision to award the Enhanced Flight Screener (EFS) contract to Slingsby Aviation Ltd. of York, England. I disagree with this decision. I have always disagreed with the decision. From strictly a technical and business standpoint it makes no sense, and I say that having in my previous life worked with military contracts since 1952.

The facts are clear:

- 1) Schweizer is an American company, Slingsby is not.
- 2) There is high unemployment in upstate New York.
- 3) Schweizer met the standards that the Air Force required.
- 4) Schweizer's fatal flaw was that it thought having met the requirements - the next order of priority was to save money for the government (ie. 8% lower bid than anyone).

Again - sorry to bother you, but Dick this is bad news - from an employment, technical, business and really TRUST standpoint.

Now, having headed up a reasonably sized organization - I know the pressures there will be to circle the wagons, protect the system.

This is a time not to let that happen. I implore you - PLEASE REVERSE THIS DECISION.

Subject: USAF Contract Award - Schweizer Aircraft

Action Needed

- o An Air Force contract was awarded to a British firm over a company in my district. A GAO appeal resulted in the award being upheld. I disagree with the decision.
- o We need a reversal of this contract at the Presidential level. Would you carry this message to the President?

Political Scope

- o A reversal of the decision is not only right -- but would help the President and Senator Al D'Amato.
- o In brief, the President would be saving American jobs and showing his sensitivity on the economy.
- o News in the Southern Tier of New York is also news in Northern Pennsylvania. Big impact on both states.

Background

- o Schweizer Aircraft Corp. (Big Flats, NY) recently lost a \$54.8 million Air Force contract to a British firm - Slingsby Aviation Ltd., Kirbymoorside, England.
- o Program description: 113 aircraft to screen USAF pilot candidates plus logistic support for 7 years.
- o Earlier this year, Schweizer was told by the Air Force that its bid was \$4.5 million (8.2%) lower than Slingsby's bid. However, the contract was awarded to Slingsby.
- o Schweizer filed a formal protest with the Air Force. The issue was turned over to GAO.
- o Yesterday, GAO said that it was upholding the Air Force's contract award to Slingsby. When pushed, Dan Gordan, an attorney with GAO, said the Schweizer bid was lower, but the Slingsby product was superior.
- o This is wrong. Schweizer did everything it was asked to do and for 8.2% less.

Somebody is moving the goal posts. I don't like it. This is harmful not only to the region, but to anyone else who in the future wants to bid on a government project. This precedent gives subjective personal judgment to anyone on any contract to slant the result the way he or she wants. In the private sector you get fired for things like this.

Why Was Schweizer Aircraft Denied USAF Contract?

- I. Discussion with GAO - Attorney, Dan Gordan
 1. The facts - Schweizer's product was acceptable and cheaper.
 2. USAF opinion - The English firm's airplane (Slingsby) was better.
- II. Discussion with Schweizer - Stu Schweizer
 1. All planes were flown and tested.
 2. The Schweizer plane was given excellent ratings.
 3. The Air Force's award decision was clearly inconsistent with a significant number of the test pilots' and evaluators' ratings.
 4. The Air Force failed to bring to Schweizer's attention any concern with respect to yaw oscillation until after the award to Slingsby was announced. Those concerns led to the awarding of the contract to Slingsby. If Schweizer had been notified of the problem, it could have been quickly and easily corrected at no extra cost.
 5. Issues
 - A. Does the yaw oscillation problem really exist? No. The Schweizer pilot on board each test flight did not observe any yaw oscillation.
 - B. Statements from the Air Force indicated that Schweizer passed the evaluations with high scores.
 - C. Why didn't Air Force mention the "better" features of Schweizer's plane? (Example: far better crash survivability rating.) Air Force only pointed out the negatives.

My Assessment

- o This is an open and shut case.
- o Schweizer's bid met Air Force requirements in every respect - it offered an excellent aircraft at a cost which was significantly lower than Slingsby.
- o The so-called "better features" of the Slingsby aircraft are irrelevant if indeed they even existed.
- o Anyone who has any business sense at all knows that an excellent product at a lower price wins. In this instance, it appears that the Air Force failed to review objectively the procurement.
- o To my mind, no support has been provided to justify the extra cost associated with the Slingsby aircraft.
- o This decision must be reversed.
- o End of story.

Dear Mr. President,

During the 1988 Presidential campaign, you said to the people, "Read my lips. No new taxes!" Later, you found it necessary to break that pledge. You did, however, mention it during the recent Republican convention. You admitted your mistake and apologize for it. Very commendable.

Also during the '88 campaign, you sent a letter to the NRA declaring "Federal licensing, gun registration, background checks or a ban on firearms would only restrict the right of the law-abiding . . ."

Then after election, you caved in to the hysteria created by the Stockton shooting and, by Executive Order, permanently banned the import of 43 military-pattern semi-automatic rifles which had ben declared by the BATF as suitable for sport.

Your Administration later introduced legislation that would require registration of over-15 shot rifle and pistol magazines, at a cost of \$25 each as part of the Omnibus Crime Bill. You also promised, as a compromise, to sign the Dole-Metzenbaum version of the "Brady Bill," which would require a waiting period on handguns, followed by a background check on buyers of all firearms. This despite the fact that you admit it is a flawed bill!

After your admission of mistake on the tax issue, I waited patiently for you to admit you had also made a mistake on the firearms issue. I'm still waiting.

This has been a slap in the face to millions of us (voting) gun owners! I'm sincerely hoping you get this message.

Sincerely,

Doug Burnham

Dear Sir,

Robert R. Reich is regularly introduced (on public television's NBR program, for instance) as *Governor Clinton's economic advisor*. In fact, the imprint of Reich's concepts on Clinton's program is overwhelmingly clear. There would be little left of Clinton's program if Reich's contribution were removed.

In *The Work of Nations*, Reich states:

"As borders become ever more meaningless in economic terms,
those citizens best positioned to thrive in the world market are
tempted to slip the bonds of national allegiance, and by so
doing disengage themselves from their less favored fellows."
(Please see attached quotation from Reich's book.)

In this view, one's allegiance to the United States depends upon one's level of economic remuneration. Other factors that have long been thought to determine allegiance to the United States--for example, love of country--play no role in Reich's conclusion. As Reich sees it, love of money, not love of country, is the determinative factor. This is the frankest justification yet offered for **highly** paid spies and traitors. (Perhaps it is unnecessary to add that the economic reasoning Reich employs to support his proposition is absurd.)

Given the dominant role Reich played in supplying the ideas used in Clinton's campaign, the expectation must be that Reich will be Clinton's principal advisor in the White House. Clinton's judgments about his draft obligations are in complete harmony with Reich's judgments about allegiance to the United States.

Sincerely yours,

Philip D. Bradley

Introduction

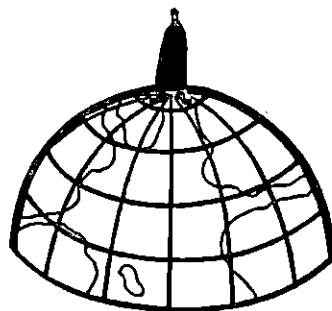

The National Idea

WE ARE living through a transformation that will rearrange the politics and economics of the coming century. There will be no *national* products or technologies, no national corporations, no national industries. There will no longer be national economies, at least as we have come to understand that concept. All that will remain rooted within national borders are the people who comprise a nation. Each nation's primary assets will be its citizens' skills and insights. Each nation's primary political task will be to cope with the centrifugal forces of the global economy which tear at the ties binding citizens together—bestowing ever greater wealth on the most skilled and insightful, while consigning the less skilled to a declining standard of living. As borders become ever more meaningless in economic terms, those citizens best positioned to thrive in the world market are tempted to slip the bonds of national allegiance, and by so doing disengage themselves from their less favored fellows. This book describes this economic transformation, and the stark political challenge it presents.

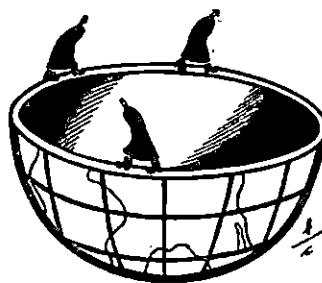

2

WITH numbing regularity we hear of the gross national product, the nation's trade balance, the nation's rate of economic growth, the nation's savings rate, the nation's unemployment rate, national productivity, the value of the nation's assets, the profitability of the nation's corporations. Incumbent politicians point to some figures with pride; their challengers point to others (and sometimes even the same ones) with dismay. It has become a national
