Dear Andy-

Thank you for your Holiday greeting. It is great to know of another Andrew Card. There are three in my family: Andrew Hill Card my father, me (Junior) and my son age 16 (III). We are from Hollbrook, Massachusetts.

I am aware of three other Andrew Cards in Massachusetts. Two live in Billerica and one lives in Winchester. I don't think I am related to any of them.

Currently I am Assistant to the President and Deputy Chief of Staff. It is a true honor to serve President Bush.

Again, thank you for contacting me. Please keep in touch.

Happy New Year!

Sincerely,

Andy Card

P.S. My wife's name is Kathi!

Dear Deputy Chief of Staff,

My son and you have the same name! My son's full name is Andrew Thompson Card. He thinks it is really great that you have his name! Andy thinks that he is famous because his (ie: your) name is in the newspapers. If you would send him some mail with your name signed, he would be so happy! Merry Holidays. Thanks!

May all the best be yours!

Dear Mr. Buckley -

Governor Sumner shared your letter of November 21, 1991 with me. Suffice it to say that there is no valid explanation for the way General Walters' party was treated when they were presented for admission to The White House at the northwest gate. I have spoken to the appropriate people to mitigate future problems.

Please keep in touch.

Dear John:

A note, heavily weighted with gratitude including only one note of carp. But I did want to thank you for whatever role you played in advancing my name for consideration of the President in re the medal. I had absolutely no idea that I had been nominated, do not know who did nominate me, but feel sure that effrontery would not have got very far save for your sufferance of it. It is most kind and generous of you and I thought the two hours were beautifully managed, no doubt you were the impresario.

And the sour note? Ahead of me in line to go through the northwest gate of the White House was General Walters and his party. Dick's credentials were routinely passed and he went through the gate, but his aged sister and two aides were treated by the humorless, rude gentleman doing the questioning behind the glass plate as though they were presumptive terrorists, never mind that they had arrived in the company of General Walters. His demands were blurted out over a microphone. (The problem was that the computer had left out one "r" in the name of one of the guests, requiring a check with headquarters). He never smiled, never addressed the General's sister with any deference,

and was positively rude to the two aides (one of whom, as it happens, is going into the priesthood). It seems to me that there is no inherent conflict between the demands of security and of courtesy and that you would want to know that that kind of thing was going on.

Again, my thanks. It pains me that the only thing you ever asked me to do, which was to deliver Joe Lieberman's vote for John Tower, I was unable to do. Another time.

With warm regards,

Bee

November 22, 1991

To President George Bush

I would like to suggest a new approach for handling the delicate process of declassifying government documents.

I know from experience that scholars who use presidential libraries, as well as former presidents, are often frustrated by the cumbersome and time consuming procedures for the review of classified information.

One of the major reasons for delay in handling declassification requests is the decentralized nature of the process. Often several agencies must review different aspects of the same document. Furthermore, if any agency reviewer is unfamiliar with the historical context of the document, the natural impulse is to deny its release, or delay it indefinitely.

A solution to this dilemma is to create a centralized review authority similar to the Interagency Review Group set up under the White House Legal Task Force to review documents for the Independent Counsel in the Iran-Contra investigations. This would be a low-cost, efficient way to break this log jam. That group was able to declassify a significant number of pages, yet was not a drain on the budget.

If you would establish such a review group, it would focus concentrated resources on sensitive classified files and reduce the time and effort spent on each individual document. It would also assure more timely responses to requests for access to classified information and mitigate the decentralization of declassification authority.

I hope you will consider this proposal. In the future -- on the schedule suggested in Simi Valley by either Jerry Ford or me -- it will be beneficial to the Bush Presidential Library.

Sincerely,

Dear Andy,

As a life long Republican, I am writing to you because of severe frustration in the business of Washington. I recently received a request for support to the "Bush - Quayle '93" campaign. Up til now I have been very proud of Pres. Bush and the Republican Party. Lately there are events that concern me. The increase of taxes last year. I grant you that this was maneuvered by Speaker Foley and party. But I hoped Pres. Bush would have vetoed the bill. Now, the recession/depression is deeper and increased taxes never contribute to financial growth. Just look at Mass. Over the past 8-9 yrs. with M. Dukakis in charge. Now, I read that the civil rights bill will be passed essentially as it was written. Another albatross around the necks of business. They will find themselves in court every time someone thinks they are a "victim". And who is Mr Bush's supporter in this venture "Ted Kennedy!"

We are also giving money in no small amount to just about every country in the world. Why not control all this spending and start paying off our debts. I do not want to see a Democrat in the White House, but I also don't want to see a Republican acting as a Democrat in fiscal policy.

Stop the flow of red ink, and please continue the policies of Pres. Reagan.

Dear Richard:

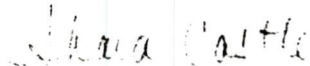

Thank you for your recent inquiry about the White House Intern Program.

To further assist in the selection of our interns, we ask that the enclosed application be completed and returned as quickly as possible. Applications are now being accepted for spring, summer, and fall positions in 1992.

Due to the large volume of requests for summer internships, I urge all students to consider applying for spring or fall internships. Many colleges and universities extend academic credit for internships during the school year. After **Monday, March 2, 1992**, applications will no longer be accepted for the summer session. There can be **NO** exceptions to this deadline. In addition, positions may be filled prior to the cut-off date and prior to the receipt of your application. Currently, there is no deadline for the spring and fall semesters.

Dear Sir or Madam:

I wish to submit my application for employment as an intern for the summer of 1992. I feel that being selected for this internship would be extremely rewarding in many aspects. Primarily, I realize that working directly in our nation's capital, rather than in a classroom, will help me to have a better understanding of politics and the governmental system as a whole.

Along with politics, I am also interested in the business and law fields of employment. I know that, if I am in Washington, I can meet people who are in one or more of these fields, and I can find out more about each of these aspects of the business world. I might then leave Washington with a better grasp of what I may want my future career to be.

After growing up in Lubbock and going to school in Austin, I am also very interested in the different cultural experience I might obtain from living in Washington. I realize that hundreds of students from around the nation come to Washington to work for the summer, and I think working in the White House will give me a good chance to meet many of these different types of people.

I also understand that the White House has the best and most interesting internships in Washington. I have specifically heard numerous praises of the White House Advance and the Thousand-Points of Light internships. The diversity of the many aspects of work in each of these internships sounds extremely interesting.

I am very enthusiastic about the possibility of becoming an intern in the White House and appreciate your consideration.

Dear Andy:

I spent Monday, October 21st in Washington and had a terrific day. The day ended by spending a few minutes with John Sununu...which I appreciated knowing how busy he was...in particular, going to Madrid.

Enclosed you will find a list of the people that I saw during my visit. In each case I really think they can be helpful.

What we have to do in Chelsea...is specifically identify special demonstration projects that might be available at the Federal level...and get them plugged into Chelsea.

Chelsea is only 1.8 square miles and has somewhere between 30,000-40,000 people. Not a massive undertaking...but important to do and do well.

We can't succeed in Chelsea without a massive volunteer effort. This volunteer effort is underway...and, to date, we have probably had about fifty people volunteer to help in a variety of ways...and they are in Chelsea helping right now.

I would like to call you in the next week or so and discuss over the phone an idea that I have concerning "a thousand points of light."

We need volunteers working in Chelsea and I would like to put up an enormous board where we put the names of those individuals and organizations who have volunteered to help Chelsea. This will be on display for everyone to see. As I said, we probably have about fifty people right now.

I would like to put as the one thousandth (1,000) point of light on this enormous board the name of President George Bush.

Page two

When I get 999 volunteers to get involved in Chelsea... helping us turn the city around...I would like George Bush to be the 1,000 point of light. At that time...probably sometime next summer...I'd like George Bush to come to Chelsea and address the 999 other volunteers.

I am still thinking through the details but I know that it could be a spectacular event...and more particular, a tremendous incentive to get people to volunteer in Chelsea.

And, as I've said, Chelsea can't make it without a massive volunteer effort.

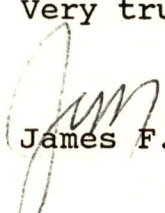

Back on other subjects...I really would like to sit down with Jack Kemp and I am working through his people to help make this happen. Anything that you could do would be appreciated. There's a great opportunity for HUD in Chelsea. We have to seize this opportunity.

Andy, I was thrilled to see the Gates situation resolved. I know the important role that you have played in that confirmation.

I will give you a call in the next week or so...would like to talk with you over the phone for a few minutes...and then let's plan on getting together the next time I am in Washington and/or you are up this way.

I've enclosed a few clippings that you might find interesting.

Very truly yours,

James F. Carlin

Dear Andy,

Thank you for your help during my recent search for a 1992 Congressional campaign.

I am pleased to inform you that I have accepted the position of Campaign Manager with Bill Hatch for Congress in New Hampshire's Second Congressional District.

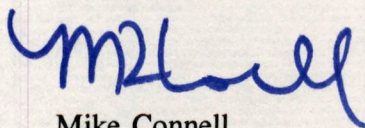

Bill Hatch has a unique combination of business, legislative, and government experience which will help him to be a very effective Congressman. A life-long Republican, Bill has over 15 years of small business experience in the areas of high tech and energy conservation. Moreover, Bill has served in the New Hampshire State House and in the Bush Administration.

Most importantly, Bill is a solid Conservative with good political instincts. He is knowledgeable on the issues and ardent about the need for Congressional reform.

As you can probably tell, I am very excited about this race. Not only do I have the luxury of working for a great candidate, but I also have the opportunity to gain managerial experience on a challenger race and acquire primary experience in one of the nation's finest grassroots states. In addition, this race should become one of the country's top Congressional races as the partisans of this district fight to return this seat to Republican control.

Again, thank you for your help. Only with the assistance and guidance of friends like you is it possible for me to land in great races such as this.

RE: Town of Holbrook's Application for EOCD-MSCP Funding

Dear Andrew,

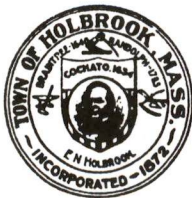

As time is running and decisions will soon be made concerning awarding the next round of FY91 grants, I write as a reminder.

I trust that you have had an opportunity to discuss our proposal with Mary Padula. 90 communities have requested funding with an expected 45 awards to be announced! Needless to say those with the biggest impact in what is proposed to be done with the "grant" money are likely to be given an award.

Thank you Andy, for all the help that you might offer the Town in this very important request for funding.

RE: Town of Holbrook Application for EOCD-MSCP Funding, FY91'

Dear Andrew,

Upon September 13, 1991, the Town of Holbrook applied for a "Grant" to rehabilitate housing and/or hook-up to the street sewer lines, for low income Elderly, Handicapped and Single Female Parents of young children. Decisions will be made concerning need and community manageability of these proposed grants from this HUD-CDBG source by the Commonwealth's EOCD-MSCP Secretary, Mary Padula. It is anticipated that 40 "Grants" will be awarded to the most deserving of the small communities.

Usually these announcements are made in November each year.

One of the National Objectives for use of such CDBG funds is designed to be met by the Town as 100% of the funds benefits low or moderate income homeowners or tenants. Our current "Waiting List" in Holbrook numbers 65 Elderly, Handicapped or Single Female Parents of young children. They all meet the eligibility criteria for low or moderate income homeowners or tenants. Some of these town residents have been waiting two years for this assistance to rehab homes suffering from building code violations, heating inefficiency and/or safety concerns.

The Baird & Maguire Hazardous Waste Site (#14 upon the National List) has created a great amount of concern over health factors throughout the community as to the EPA decision about solving the problem.

The voters have exceeded the 2½ debt limit to pay for new sewer lines from local tax revenue along with Government Loans. Some of these homeowners now find it very difficult to pay for the cost of hook-ups to the new sewer lines thus eliminating unhealthy septic & cess pool systems.

The "NEED" element in Holbrook for grant assistance has never been greater!

Your assistance and support of this FY91' "Grant" would be much appreciated by the 45 or 50 applicants we propose to assist with the requested funding of \$470,050.00. The Town Community Development Office has designed a very cost efficient program of Housing Rehab/Sewer Hook-up work.

Thank you for your support.

Dear Mr. Card:

I wrote a letter to President George Bush dated January 20, 1989 and sent it to you with a covering letter dated January 27. The letter to President Bush presented the case for land-value taxation. I hoped that you might be able to see to it that the letter was actually read by the president, himself. Whether he actually did read it, I do not know, but I very much doubt it. Nor is there any evidence that the president read the letter sent to him on the same subject from the Henry George Sesquicentennial Anniversary International Conference in the summer of 1989 and signed by Sam Venturella, Chairman, Council of Georgist Organizations and by Richard Noyes, President, International Union for Land Value Taxation and Free Trade.

It seems quite evident to me that no common individual can possibly hope to communicate his or her ideas to the president. Even organizations will fail unless they are backed by powerful lobbies.

I must, nevertheless, try once more. More and more as time passes, our economy needs the reforms proposed by Henry George.

I send, herewith, a copy of a four-page flyer I have written which gives a compact introduction to Henry George and his complete economic philosophy. I also enclose a new letter to the president pointing out actions that can be taken which will make practical use of the underlying principles of the Henry George proposals, to the great benefit of the nation. Please let me know whether there is any chance of getting the president to read both my flyer and my letter.

President George Bush
The White House
Washington, D.C. 20500

Dear Mr. President:

In January of 1989 I wrote a letter to you concerning land-value taxation as proposed by Henry George and sent it to Andrew Card in hopes he could get it into your hands to read personally so that you could form your own opinion concerning its contents. There is no evidence that it ever reached you. It seems quite impossible for an ordinary private citizen to get a message to the President of the United States. Nevertheless I am giving it one more try.

I have sent a four-page flyer which gives a compact introduction to Henry George and his proposed tax reform in its entirety. Below I shall point out things you could do now to make use of the principles of the Henry George philosophy to the great benefit of the economy.

You have proposed to lower the capital gains tax in order to encourage investment. The capital gains tax on investment in productive enterprise should, indeed, be lowered but the tax on capital gains from investment in land should not be lowered. Capital gains from investment in land is unearned income and should be fully taxed.

It is very important that full market-value rent be collected for all federal land that is leased for private use.

It has been proposed to lower middle income taxes by taxing the rich more heavily. The trouble with this is that the present tax system makes no distinction between the rich who have earned their income and those who have gotten rich without earning their riches.

There would, no doubt, be constitutional problems in substituting land-value taxation for the federal income tax. It would seem to be possible, however, without violating the constitution to add a surtax to the income tax, not based on a percentage of the income tax but based on the value of the land owned by each taxpayer. A 1% land-value tax added as a surtax to the income tax would raise billions in revenue to be applied to debt reduction, budget balancing and funding of necessary government services.

Adoption of the complete Henry George remedy for our economic ills would be the right answer but the above are suggestions of what might work in the real political world.

Very truly yours,

Lawrence D. Clark, Sr.

Dear Mr. Card:

Thank you very much for your personal reply to my letter of January 27. I hope time will permit you to bring my letter to the President's attention but I can understand why it may not.

In his speech to Congress last night President Bush proposed cutting the capital gains tax. He is correct in his assertion that it will increase revenue, not decrease it. This is not a favor to the rich as claimed by some. It is an encouragement to invest in productive enterprise. The move would be more effective if capital gains from investment in land were excluded from this tax reduction. Investment in land does not produce wealth. The gains from it are unproductive land-speculation gains.

Thank you again. Please do not feel that you need to reply to this letter.

Sincerely,

Lawrence D. Clark, Sr.

Dear Ms. Horner:

It is my understanding that your office is currently considering nominees to serve on the President's Committee on the National Medal of Science. I would like to add my enthusiastic support for Dr. Samuel F. Conti, Vice Chancellor for Research and Dean of the Graduate School for the University of Massachusetts at Amherst.

President Reagan appointed Dr. Conti to serve a two-year term in this capacity in 1988. This past year, he served as a consultant to the distinguished Committee. Based on these qualifications, and his significant contributions and dedication to the sciences, I feel that the Committee would be well served to once again have Dr. Conti fulfill the task of identifying those individuals "deserving of special recognition by reason of their outstanding contributions to knowledge in the physical, biological, mathematical, or engineering sciences."

Thank you again for your consideration and attention in this matter.

Sincerely,

Argeo Paul Cellucci

Dear Andy,

I don't know if the phone call is possible or not but Friday is the day I personally have worked so hard and long to bring to fruition. I'll always remember our conversation about Jack Galvin when I attended the first Fund for Massachusetts Future fundraiser at The Hampshire House.

Since the day he missed out on becoming the Chairman of The Joint Chiefs I made up my mind to do something to honor his career.

Accordingly, I studied his career, read his books (The Minute Men and The Three Men of Boston), and went through old news files at local papers. Eventually, I nominated the General to receive a national distinguished person award from Freedoms Foundation at Valley Forge. On Friday I will have the distinct honor and privilege of presenting the George Washington Honor Medal to General Galvin.

I didn't stop there, however, but chose to form a committee of his friends and relatives so that I could somehow have a local building named in the General's honor. We worked very hard and it happened and I'm so proud.

Should the President be able to call here's some information:

Jack Galvin attended Merrimac College for a year and dropped out trying to find his way. He was a doodler a cartoonist, and his dad was a mason and Jack carried the hod. He enlisted in the Massachusetts National Guard at the Armory in Wakefield (next to the Junior High School). He noticed a posting to take an exam for entrance to West Point. He studied hard, scored high, and was appointed to the Academy by the late Governor Dever. Today the General holds the record of the longest continuous active service of all U.S. military personnel. He rose from the very lowest possible rank, an enlistee in the National Guard, to become the Supreme Allied Commander, Europe. He, in my opinion, has been instrumental in supporting Desert Storm and more importantly the role he has played in the new Europe at a critical new beginning for freedom.

Should the call be made I'd deeply appreciate being recognized by our beloved President along with his old intern during his Vice Presidential days, Richard Tisei.

With best regards and many thanks, sincerely,

Dear Mr. President:

I am writing to urge you to accept the invitation of the American Nuclear Society to speak at their annual meeting in Boston on June 7-12, 1992.

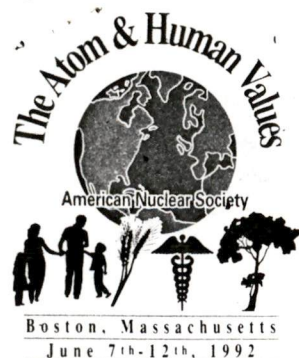

This meeting of the American Nuclear Society will have the theme of "The Atom and Human Values". It is appropriate that the meeting is being held in Massachusetts, because the atom has and continues to play an integral role in New England's economy. The region's hospitals, electricity supply, research institutions and environmental quality are strongly dependent upon the atom.

I expect that the conference will attract many of the nation's prominent scientists, engineers and researchers. Your presence at the conference would convey the importance of the atom in the nation's technological leadership and ability to compete in high tech industries throughout the world.

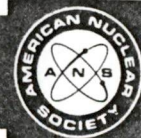

As you also might expect, this conference is also important to Boston's economy as there will be over 1500 attendees.

I look forward, Mr. President, to welcoming you to Massachusetts next spring.

Sincerely,

1992 Annual Meeting

September 16, 1991

The President and Mrs. Bush
The White House
Washington, DC 20500

Dear President and Mrs. Bush:

The American Nuclear Society is an international organization of scientists, engineers and educators founded at the National Academy of Sciences on December 11, 1954. It is a multi-disciplinary, not-for-profit, scientific and educational organization that has a membership of 15,000 individuals.

The American Nuclear Society will be holding its annual meeting in Boston, Massachusetts on June 7-12, 1992. The theme of our meeting is "The Atom and Human Values". Our objective in choosing this theme is to provide greater insights into the atom's role in everyday life. We hope to bring together the scientific community from such diverse fields as energy to medicine to manufacturing, education and the environment focusing on the atom's contribution to our quality of life.

We would be most honored if you and Mrs. Bush could address our opening session on your personal association with the atom and, in general, the contributions that the scientific community must continue to make to ensure our quality of life.

The date and time of the plenary is Monday, June 8, 1992 at 9:00 a.m. We would greatly appreciate your participation in this session, and we hope the Boston location would be convenient for you. It is anticipated that we would have approximately 1,500 attendees. With spouses that number could easily double. Your participation at our conference would surely be its highlight. I hope you and Mrs. Bush will consider our invitation favorably.

Sincerely yours,

Andrew C. Kadak

As discussed during our conversation today, enclosed is copy of the invitation sent to the President regarding the First Inter-American Congress on Trade, to be held in San Juan, Puerto Rico, on November 1 to 5, 1991.

As I mentioned, it would be helpful if you could help us secure a representative from the U.S. Government, whether from the Department of Commerce or the office of the Trade Representative. This would be truly appreciated since no U.S. Government representative is attending, and one of the main topics of discussion will be the Initiative of the Americas, which a panel including officials from Mexico and Costa Rica will discuss on November 3.

Dear President Bush:

On August 22, 1991 I extended you an invitation to deliver the keynote address at The America's First Congress of Commerce.

The format for the Congress will provide presentations by high ranking government officials, with immediate reactions and input by organizations of the private sector, whose membership will be responsible for implementing the ensuing agreements. The simultaneous panels will be characterized by presentations of practical programs native to the area and that have already been proven successful, with the added benefit that they can be easily replicated in other countries.

The Congress will also advance the objectives of the newly organized Interamerican Council of Commerce. This Council is the result of an initiative of the Puerto Rico Chamber of Commerce in coordination with the Organization of American States (a copy of the Agreement is enclosed for your information). This initiative proposes to organize an umbrella of organizations of the private sector that will be the Organization of American States counterpart. It will foster unity among similar national entities and promote cross proliferation of ideas throughout the Hemisphere. Most importantly, it will organize the private sector so that cross border problems can be aired and solutions communicated to the officials responsible for the planning of the Initiative of the Americas.

We feel, Mr. President, that this Congress will afford you with an opportunity to address the business and public sector leaders of the Hemisphere, allay some of their fears and reiterate the opportunities that this initiative will bring to them, as you recently did at the Hispanic Chamber of Commerce Convention in Chicago.

SUBJECT:

Request for Presidential Video Message

The U.S. Information Agency manages the International Visitor program which brings future and established foreign leaders to the United States to meet with their professional counterparts during a three- to four-week tour of selected U.S. cities. The IV program is one of USIA's longest-standing and most successful exchange activities. The IV program marked its 50th anniversary in September of 1990. Distinguished alumni include Margaret Thatcher, Toshiki Kaifu, F. W. de Klerk, Jozsef Antall, Helmut Schmidt, Anwar Sadat and Indira Gandhi.

President Bush has personal experience with this program. He served as a volunteer host in Houston in 1967; Margaret Thatcher first met the President in this capacity when she came to the U.S. as an International Visitor.

Because volunteers are the backbone of the IV program, we would like to use the President's personal story as the introduction to an existing promotional tape. We use the tape to explain the program to U.S. citizens and to recruit volunteers who provide home hospitality and arrange appointments for the IVs. We will also use the updated tape to encourage private-sector support for local chapters of the National Council for International Visitors, the nationwide network for volunteers and support services.

President Bush's message will replace that of President Reagan, allowing us to update our existing tape without having to incur the considerable costs associated with producing an entirely new video. Once the President's message is done, our TV production staff would manage the editing process for the tape.

I would appreciate your placing this request before the long range scheduling committee and giving it the support we feel this important program has earned.

SUGGESTED SCRIPT BY PRESIDENT GEORGE BUSH
INTRODUCTION TO PROMOTIONAL TAPE ON
USIA'S INTERNATIONAL VISITOR PROGRAM

THE SUCCESS OF MANY PROGRAMS IN THE UNITED STATES VERY OFTEN DEPENDS LESS ON HOW MUCH THE GOVERNMENT SPENDS THAN ON THE WILLINGNESS OF CITIZENS TO GIVE OF THEMSELVES. THE INTERNATIONAL VISITOR PROGRAM IS A UNIQUE EXAMPLE OF THE SPIRIT OF COOPERATION WHICH EXISTS BETWEEN THE GOVERNMENT, THE PRIVATE SECTOR AND AMERICANS JUST LIKE YOU.

ADMINISTERED BY THE UNITED STATES INFORMATION AGENCY, THE INTERNATIONAL VISITOR PROGRAM BEGINS IN OUR EMBASSIES OVERSEAS. EVERY YEAR, OVER FIVE THOUSAND PEOPLE FROM COUNTRIES AROUND THE WORLD ARE NOMINATED BY OUR EMBASSIES FOR THEIR OUTSTANDING ACCOMPLISHMENTS AND LEADERSHIP POTENTIAL IN MANY FIELDS, INCLUDING: EDUCATION, THE ARTS, GOVERNMENT, POLITICS, JOURNALISM, BUSINESS AND LABOR.

THANKS IN LARGE MEASURE TO THE GENEROSITY AND KINDNESS OF VOLUNTEERS IN MORE THAN ONE HUNDRED CITIES ACROSS THE U.S., INTERNATIONAL VISITORS HAVE A CHANCE TO EXPERIENCE FIRST-HAND THE AMERICAN WAY OF LIFE.

WORKING IN CONJUNCTION WITH THE NATIONAL COUNCIL OF INTERNATIONAL VISITORS, VOLUNTEERS ARRANGE ACCOMMODATIONS, PROFESSIONAL APPOINTMENTS AND HOME HOSPITALITY FOR THESE IMPORTANT VISITORS.

I KNOW THE VALUE OF THE INTERNATIONAL VISITOR PROGRAM FROM PERSONAL EXPERIENCE. IN 1967, WHEN BARBARA AND I WERE LIVING IN HOUSTON, WE SERVED AS VOLUNTEER HOSTS FOR A VERY SPECIAL INTERNATIONAL VISITOR, SOMEONE WITH WHOM WE'VE MAINTAINED A LONG AND WARM FRIENDSHIP OVER THE YEARS. WE WILL ALWAYS REMEMBER THE VISIT OF MARGARET THATCHER.

TODAY, MAGGIE THATCHER JOINS THE MORE THAN 130 INTERNATIONAL VISITORS WHO ARE CURRENT OR FORMER CHIEFS OF STATE OR HEADS OF GOVERNMENT. ALUMNI INCLUDE: SOUTH AFRICAN PRESIDENT F. W. DE KLERK; JAPANESE PRIME MINISTER TOSHIKI KAIFU; HUNGARIAN PRIME MINISTER JOZSEF ANTALL; FORMER PRESIDENT OF EGYPT ANWAR SADAT; AND FORMER PRIME MINISTER OF INDIA INDIRA GANDHI. SINCE THE PROGRAM BEGAN MORE THAN 50 YEARS AGO, THOUSANDS OF INTERNATIONAL VISITORS HAVE GONE ON TO BECOME LEADERS AND OPINION SHAPERS IN THEIR OWN COUNTRIES, TAKING WITH THEM A SPECIAL UNDERSTANDING OF THE UNITED STATES.

THE INTERNATIONAL VISITOR PROGRAM GIVES US MANY THINGS: FOR OUR VISITORS, A UNIQUE PERSPECTIVE OF THE GREATEST NATION ON EARTH; FOR OUR GOVERNMENT, A CHANCE TO ENGAGE IN DIPLOMACY AT THE PEOPLE-TO-PEOPLE LEVEL; AND FOR THE VOLUNTEERS, AN OPPORTUNITY TO SHARE WHAT AMERICA IS BEST AT--HOSPITALITY, FRIENDSHIP, AND A GIVING SPIRIT. THIS PARTNERSHIP HAS ALLOWED US TO BUILD BRIDGES OF UNDERSTANDING BETWEEN OUR PEOPLE AND THE PEOPLE OF OTHER NATIONS. I KNOW THAT THE TIME, TALENT AND RESOURCES DEVOTED TO THE INTERNATIONAL VISITOR PROGRAM ARE WELL SPENT. THANK YOU FOR HELPING US SHARE THE DIVERSITY OF AMERICAN CULTURE AND FABRIC OF AMERICAN LIFE WITH OUR FRIENDS AROUND THE WORLD.

Dear Andy:

Just a brief note to say that everything is going well with me. I am working in the newly established Executive Office of Education. It is exciting to be working in a new office.

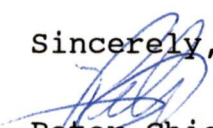

To make a long story short, I have met with the Lt. Gov. and we did discuss a position in another new office the state is setting up. The new agency will oversee the installation of a statewide emergency communications system (Enhanced-911). The office will be funded by the telephone company. I am still waiting since the Commission charged with hiring an Executive Director still hasn't finished interviewing candidates. I might be interested in being the number two or three person if things work out. My interest in this office stems from my lifelong interest in the fire service.

I may be in Washington in late October or early November with our Undersecretary (Andy Gomez). He wants to meet with some of the members of the Congressional delegation. He is from Florida, left Cuba in 1961, and has some GOP campaign management experience. I'm sure you would enjoy talking with him. I'll call you when we finalize our travel plans.

Good luck with the Thomas and Gates nominations. The "Washington Monthly" political notes column indicated Gates could be in trouble. I read that you are handling his nomination. I'm sure you can put it together.

Thanks again for seeing me in April and for calling Paul Cellucci. I really appreciated it.

Sincerely,

Dear Andy:

How is everything going? I just thought I would send this letter on my new business stationary. What do you think?

Anyway, Andy, if it isn't asking too much, would it be possible to use you as a personal reference once again? Unfortunately, I have to re-submit my proposal to the state by October 18, 1991, in order to obtain a contract to investigate state claims. I know I had previously asked you for this reference however, I'm not certain PERA received your letter. If this is possible, the reference should be made out to:

Andy, I greatly appreciate your consideration concerning this matter. As always, I completely understand you may be unable to address this topic due to a conflict of interest. Take care and hope to hear from you soon.

Very truly yours,

Dear Mr. Card,

We the undersigned, have been loyal civilian employees of the Naval Air Station South Weymouth, Massachusetts for many years. During the past several years it has become apparent that the Civilian Awards Program has not been used for the purpose intended.

Year after year, there has been a disproportionate number of management personnel receiving awards, (please see attached), in relation to the total civilian population on the base. In fact, there are a select few of management and individuals who seem to receive awards on an annual basis.

This continued practice is causing civilian morale to deteriorate as time goes on. We, therefore, respectfully request that as a concerned native son from Holbrook, just one town away from Naval Air Station South Weymouth, that you investigate this situation. It is of vital importance, since this affects the ultimate productivity of the Naval Air Station. Thank You for your concern.

The President
The White House

Dear Mr. President:

Per your request, here are a few thoughts on what we might do in the Soviet Union. They might prove useful when you meet with President Gorbachev.

The time is right for a public diplomacy companion piece to your historic arms control initiative. We are at a moment in history when the Soviet thirst for information about America is matched by their ability to use that information to create a new civil society.

We have won the Cold War as surely as we ever won a hot war. America's investment in the future of Japan and Germany at the end of World War II turned those bitter foes into prosperous and democratic allies. It is in our national interest to do the same with the Soviet Union.

Programs in the fields of education, information and culture could address the ignorance inculcated during more than 70 years of communist rule, aiding democratic reform and market-oriented economic reconstruction as well.

Here's how such a program could work.

Beginning in this fiscal year, USIA would open new posts in at least three republic capitals--Kiev (which is already slated to open November 1), Alma-Ata and Yerevan. In FY-93, we would open in at least three more capitals--Tashkent, Tbilisi and Minsk. At the same time, we would begin work on an educational exchanges office in Moscow (leading eventually to a complete American Center). These new operations would be staffed by USIS officers and locally hired foreign service nationals. Each complex would be geared to performing the two most essential services--moving people and moving information. To this end, they would each contain a reference library and reading room, a student counseling operation, computers with data links to American libraries, a satellite television dish, and meeting and seminar rooms. At the same time, the Voice of America would open new bureaus in Russia and the republics.

Such posts would extend America's reach and also respond to local needs in several ways. The staff would organize travel to the U.S. for training, professional consultation and education as well as assess local needs and bring experts from the U.S. They would also help coordinate private sector programs and disseminate information about America and its values through magazines, exhibits, the Wireless File, books, computer links, Worldnet and other television programs and VOA broadcasts.

We have prepared detailed cost estimates for the start-up and staffing of each of these new posts, for the expansion of each of our programs, and for enhancements USIS Moscow would need to support these posts. The kind of program described above would require an additional \$12 million in FY-92 and \$30 million in FY-93. The cost in subsequent years, including continued program expansion but not additional new posts, would drop to roughly \$14 million a year.

I believe this to be an exciting initiative, given its possible ultimate benefit, and one that is properly phased in over time to avoid any waste or confusion caused by throwing too much money at the problem all at once.

I have been deliberately brief in this letter and would be pleased to discuss this idea further.

Godspeed in Madrid.

Sincerely,

Henry E. Catto

I am writing to follow-up on my recent letter, after learning that Craig Shergold has survived surgery to remove his brain tumor and is doing well. During his fight with cancer, Craig received a great outpouring of support and a U.S. benefactor who helped him receive the necessary surgery. Word has it that Craig set the Guinness Book of World Records and is no longer seeking to have business cards sent. I have enclosed a copy of Craig's story that appeared in October's "Readers Digest." I hope my previous letter has not caused you any inconvenience.

Dear Andy,

I am writing you this letter because I have a message for you. In every system God put someone in the system to break the system. How do you break the system? By not going along with it. You will be challenged to do something that is wrong and against your system. Stand up for right and God will be with you. This is the time to stand up and be counted.

God's plan is for everyone. To experience the good way and the bad way then choose which way you want to go. The good way promises you nothing and gives you everything. Freedom. The other way promises you everything and gives you nothing but despair.

God knows you can do it. You have been tested many times and have come through for good ways. God knows there is good teachings mixed in with bad teachings that we are confused. That is why he sends a guardian angel when we are in a bind.

We know that fear knocks out

God and this is what will be used on you. When you feel this coming on ask for God's help. He will send help from above. A guardian angel.

You will be opening the door for good ways to come in and the young to come in and help. They are strong in God and will show us the way.

We will be rooting for you to come through. We love you for hanging in there when the going gets tough. As the saying goes when the going gets tough the tough get going.

God Bless You + Take Care with love
Anne Capen

We will be praying for you. Pray that God's way comes through.

Dear Mr. Sununu:

The current Members of the Defense Nuclear Facilities Safety Board, after nomination by the President, with the advise and consent of the Senate, took office effective October 19, 1989.

By law, all Members of the Board in the future will serve for 5-year terms. However, the current Members comprising the initial Board have terms that vary from 2 years to 5 years. Mr. John W. Crawford, Jr. is the Board Member having the 2-year term, and his original appointment will expire October 19, 1991. I understand that the President intends to renominate Mr. Crawford to a full 5-year term; thus, he would succeed himself.

Chapter 21 of the Atomic Energy Act of 1954 (42 USC 2011 et seq) which established the Defense Nuclear Facilities Safety Board provides that "A Member may serve after the expiration of that Member's term until a successor has taken office."

In order to avoid a break in service, and in accordance with the authority contained in Chapter 21 of the Atomic Energy Act of 1954 as amended, I, as Chairman of the Board, have signed the necessary personnel action (copy enclosed) continuing Mr. Crawford's service on the Board beyond October 19, 1991.

Sincerely,

From: Mike D.

Re: Mass. Hampden 2 District

After some research I have come up with the following conclusions and information on the 2nd Hampden state representative district. After pulling Hampden County from the state wide file, I ran an audit on the state lower house district and found that they run in a range from 043-055. I then ran a cross audit of Township by state lower house district and discovered that all the towns listed in the article that you faxed to me were in the 44th district, including Springfield only Ward 6, Precinct B. This makes sense that the second district numerically in Hampden is, 44.

Now that I had the district identified, I ran the following audits:

Republicans Registered.....	5,682
Independents Registered.....	9,029
Democrats Registered.....	6,460

Total Registered Voters.....	21,171
------------------------------	--------

Households with Registered Voters.....	11,931
Households with Republican Voters.....	4,073
Households with Independent Voters.....	6,271
Households with Democratic Voters.....	4,542
Households with Republican or Independent Voters.....	9,195

Additionally, we have cross matched our 1988 information to the new file and have identified:

Households Identified Republican Bush Favorables.....	403
Households Identified as Independent Primary Voters.....	369

The district breaks down geographically on a Township household level as follows:

East Longmeadow (all precincts 1-5).....	4,357
Hampden.....	1,500
Longmeadow (all precincts A-E).....	5,187
Springfield Ward 6 Precinct B.....	887

The district lies completely in the 2nd Congressional District and is split between the 12th and 13th State Senatorial District.

Dear **Mr. Card**:

I am writing to you on behalf of **Peter C. Chan** who is presently working as accounting consultant part-time for the Council on Aging. His job is to convert manual to an automated accounting system using various accounting softwares and hardware. Enclosed you will find his resume. He is an expert on financial reporting and automated accounting especially with government agencies and non-profit organizations.

Since the Center converted to automation, **Peter** does an excellent job in maintaining and setting up new accounts.

I would highly recommend **Mr. Chan** for a job in the financial area. I have watched him work here and found him to be an intelligent and dependable worker requiring a minimum of supervision. He would like a job in the private sector and the salary range is between \$30's and \$40's. He is willing to relocate in the United States and overseas.

I am writing to thank you for taking the time to say hello, and am hoping that you might possibly be able to arrange a visit on Air Force One. I am a flying enthusiast and this has been a lifetime dream of mine.

I have been with Piedmont/USAir for almost ten years, and have flown most of the airplanes in the fleet including the B-767, B-727, B-737, F-28 and currently the DC-9. Having had the opportunity of touring Pope John Paul's airplane when he visited Boston and Air Force Two in Groton, CT, as well as several other VIP private jets, a tour of Air Force One would be something I'd never forget. I would make myself available at any time and any place should an opportunity arise.

If you could help me in this regard, I would be most appreciative.

As an old friend of the Carl &
Bryant families, I feel neglected for
not having heard from Andy after 2 letters
and 2 phone calls. The least I expect
is an answer to my request, either positive
or negative. I never would ask for anything
had I not honestly believed that it was
justifiable. I am not going to bore you
with a long letter but please, if you would
help me, tell me so. Then I will explore
some other approach.

My best to you and your family—

Sincerely,
Nathan Chaney.

Dear Mr. Chancey,

I cannot tell you how hurtful it was to receive your note. Of course Andy is caring. His schedule is extremely stressful -- he works non-stop. And, Mr. Chancey, he has worked this hard from the very first day we married 24 years ago. His life has always revolved around helping people. I cannot number how many people write and call daily. And to him each person is important. Yes, he has your letters. Yes, he and I get your phone calls. He is exploring what he can or cannot do. I am deeply sorry if he is not fast enough in replying to you, but I feel confident that he is dealing with some issues right now -- hence, what is happening in the Soviet Union -- that are crucial to many people's utter survival. With all due respect, if someone else can help you, you may want to contact that person. If not, I am sure Andy will do all that he can do. He is with the

Kathleene

president until after Labor Day. I am working full time and I try to help him as much as I can. His children and I have learned to be very patient while he attends to all the needs of everyone else who calls and writes and feels that his or her problem is the most important. Believe me, Mr. Chaney -- you are not neglected.

Also, my maiden name is not BRYANT, it is BRYAN, and I am Kathi not Cathy.

We were good students in high school. We were always respectful to you, even when other students were not. We are adults now. And I really don't appreciate coming home from a hard day at work to find a note from ~~my~~ my chemistry teacher telling me I have been neglected. I truly think we deserve better than that.

Sincerely,
Kathleen Ann

Andy,

Have you talked to him since this letter
was written?

No

Dear Andy,

As an old friend of the Card Family,
I feel that I can expect an
answer to my letter and 2 phone
calls. To this date I have never received
an answer to my letter and to my two
phone calls to your home. I feel sad that
because of your father's illness I was
unable to talk to him but I did have the
opportunity to speak to your mother.

Again, I would appreciate a call from you
for this may be my last opportunity to
do a good deed which I feel is a
worthy cause.

Again I would appreciate a call from
you some evening as I want to explain
to you why I made this request.

Sincerely,

Dear Cathy & Andy,

It seems like an eternity since both of you were in my Chemistry Class. I was in Boston about 10 days ago and had a long telephone conversation with Joyce. I was shocked to hear about Andy Senior's illness. You may know that Andy talked me into coming to Holbrook and was my best friend there. I remember Cathy being my hostess on Parents' night. But let me get to the point. All my influential friends are no longer with us like the late Senator Leverett Stinson III. Thus you are the only one that I can turn to. By the way, I have been a Republican since 1927. You ~~will~~ will make me a very happy man if will accomplish what I am about to ask you. There is a very fine young married man working for us at our club who was married a while back but cannot get her into

the USA from her native Bangladesh for
quite some time. If you can accomplish
this not only with this couple be grateful
but this old man would be delighted.
By the time you get this letter I will
have called your home but it must
be quite difficult to find you since
you must be quite busy — I remember
getting Gayle Croll into the MBH nursing
school. This I could accomplish but
certainly will be most grateful if you
would help get this fine young man's wife
into this country —

Please forgive my writing since I have
a bad orthritic hand —

With fond memories,

Sincerely,

Kathleen Chance

P.S. By the time you get this note
I probably will have called your home.
