Dear Friends:

I'm delighted to join Dean Hutchinson and all of you gathered to celebrate the opening of your new facility and to salute the milestone of progress that it represents. While I am unable to be with you personally, the expansion of the Thayer School of Engineering means a great deal to me not only because of my profession and my New Hampshire roots, but because of my sincere belief in the paramount importance of education in engineering.

Greater resources and a larger faculty will enable the Thayer School to continue to produce quality engineering graduates and keep pace with the ever widening arena of science and technology. Engineering provides for us all a better world in which to live, and to that end I congratulate your vibrant and growing institution.

Best wishes for even greater success and accomplishment.

Dear Mrs. Tay:

On behalf of the Chief of Staff, thank you for your letter concerning appropriations legislation for the District of Columbia, which permits the use of funds to pay for abortions.

The House of Representatives and the Senate have passed the District of Columbia appropriations bill for Fiscal Year 1990, which permits Federal funding for abortions under circumstances where the life of the mother is not endangered. A final version of the bill is being prepared by House-Senate conferees. President Bush has announced his intention to veto the appropriation bill if it is presented to him in its current form.

The President does not believe that appropriated funds should be used to pay for abortions other than in those cases where the life of the mother would be endangered if the fetus were carried to term.

Again, thank you for writing.

Honorable John Sununu
Chief of Staff
The White House
Washington, DC 20500

Dear Mr. Sununu:

I am writing in support of Paul Pressler for director of the U.S. Office of Government Ethics. While I do not know Judge Pressler personally, I do know of his actions and have heard some of his messages on tape. I am a Southern Baptist and would be called a fundamentalist regarding the current struggle within the SBC Convention.

I feel that President Bush should proceed with the nomination of Judge Pressler because of his personal ethics as evidenced by his actions in the SBC controversy. Very simply, he has had the courage to do what is correct, what is right, in spite of scathing attacks on his character. He saw the direction of the convention as it was on its road to liberalism and acted to change its course. He has done so at considerable risk. My dictionary says of ethics, "1. the principles of morality, including both the science of the good and the nature of the right." What better person to have in such an important position than one who has gone through a course of action that was right, and suffered considerable criticism for his actions? In other words, he has been tested by fire and has proven himself.

I urge you to go beyond the critics and enemies and look at the qualifications of this man. Everyone who is worth his salt makes enemies. That is not the issue in this appointment, the issue is Judge Pressler's qualifications. He is qualified precisely because he made decisions based on ethics and has stuck to those decisions.

Sincerely,

Larry E. Toothaker, Ph.D
