Dear Mr. Doss:

7-28-90

Thank you for your recent letter endorsing the invitation for Governor Sununu to address the membership of Town Hall of California.

Unfortunately, Governor Sununu does not anticipate any travel to California in the near future; however, we are continuing to keep this special invitation in mind should the Chief of Staff's schedule find him enroute to the West coast.

With the Governor's appreciation and best wishes,

Sincerely,

Jaqueline A. Kennedy

Dear Mr. Hanks:

Thank you for your recent letter regarding the need for youth representation in areas of U.S. foreign policy and your offer to be of assistance in this regard.

I appreciate having the benefit of your views and have taken the liberty of forwarding your letter and offer of service to the appropriate Administration officials for further review.

Again, thank you for taking the time to write.

Sincerely,

John H. Sununu

CENTRAL INTELLIGENCE AGENCY WITH INCOMING FOR RESPONSE

night to earn the degree because of the anti-... feelings of the time.

My Mom is an attorney and used to be a microbiologist and chemist for NASA and the VA. Last Friday, Mom had to answer the Gallup//New York Times Poll; As you can probably guess the topic was about President Bush, and most of the questions dealt primarily with the President's conduct of Foreign Affairs, Economics, and Social Programs. I asked her what she told Gallup, and she said that she fully supported the President on all aspects of Foreign Affairs and on Economics, and gave him a good-to-very good depending on which social program. The poll was examining the thoughts of 100 average households throughout the Nation. Evidently, I guess that they must've been impressed with Mom's answers and on two separate occasions this week have called to ask her opinion about how she thought that the President was doing at the SUMMIT in Houston, Texas, and she gave him an excellent.

As for me, everybody says that I should become a Priest. I guess that I can see where they're coming from. Yet, in my opinion to be a good minister and representative here on earth, one must have done something out in the secular world. I have an idea, and it may sound a bit "far-fetched", but I firmly believe that it is cost-effective and will serve the President well.

Re: JHS-6c

Katie has asked that this Form letter be changed to remove the "WH Staff referral" and replace it for a bottom-line, AGENCY WITH INCOMING FOR RESPONSE.

Despite her original drafting of this reply, she is using it often for referrals to AGENCIES instead of Staff cc.

Thank you .

Dear Mr. Lurume,

As a landowner in Texas, I am very concerned about the recent expansion of the definition of "wetlands". It seems to me that a true marsh or swamp ought to be protected. However, the new wetlands manual goes beyond this and now applies the term "wetland" to land which is indistinguishable from non-wetlands but is now classified as "wetlands".

Dear Mr. Sununu:

Enclosed is a copy of an article which appeared in the July 1990 issue of New Dimensions. I don't know whether you have seen it but I thought it was quite good in refuting some of the wilder claims of disaster due to global warming.

I would also appreciate it very much if you would pass this on to President Bush as I know he is being pressed hard to "do something" about reducing the temperature. This is the first article I've seen that documents positive outcomes.

Sincerely yours,

Catherine Pawelski

JHS-6C
Mr. Payne
the Space program
and NASA

Tue, Jul 17, 1990
The Honorable John Sununu
White House Chief of Staff
The White House
Washington, D.C.

Dear Mr. Sununu;

I was happy to read of preparations to look at the institutional problems of NASA. Now, having seen the Vice President ask Richard Truly to constitute a panel of "independent experts" to review NASA directions, I am less than expectant of meaningful results. Foxes and henhouses.

I have directed the launch of more space missions than anyone not Russian. My enclosed brief resumé will identify me. I led the formation of the only efficient space launch methodology (20 man-years per mission versus hundreds or thousands typical) to come into practice. I understand the industry on a different level, a more basic level, than most you may meet.

I have long witnessed the institutional decay of NASA. It is not the fault of any individual. It is a phenomenon which goes with the metamorphosis of any new initiative into a bureaucracy. Originally NASA was very effective. It was a gathering of creative minds, some or many of its leaders quite visionary, among them W. Von Braun. SDIO originally was vigorous and effective. Now it is less so. Other government agencies (most, not all) manifest loss of vigor with bureaucratic development. It is an atherosclerosis which goes with over nourishment. It has affected the military services, the DOE, and the DOT by my personal observation, perhaps has missed the Forest Service.

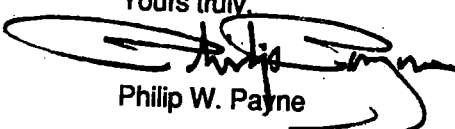

Now we have 'in focus' certain ills of NASA: *failure to focus* of the Hubble telescope, an inexcusable bungling by NASA 'management', and a less-than-operational launch system that cost over 100 billion and was promised to do all, be all, to space service. We all sense something is wrong, but few have the insight to identify both illness and remedy.

NASA is no longer visionary. It is not leading research, not advancing science. It is not inspired by greatness but is "led" by technicians. It is a transportation system without valid customers or cargo, 'presided over' by a shuttle pilot, little more. I do not discredit Adm. Truly, rather the administration's extemporized choice of him in exigency. Dr James Van Allen is right when he proclaims NASA emphasis on "Manned Space" is not serving us. Manned space has won the internal war within NASA long ago, killing the more productive enterprises. It has provided a cranky vehicle without purpose. The Space Station is a further outgrowth of this tumorous condition. Unnecessary, it will procreate problems, not science and solutions.

What is needed is a new departure, perhaps with a new — at the least a reconstituted — agency. The agency now is crippled by size in every dimension, not alone bureaucratic. Small, insect-like, robotic spacecraft, grown cleverly out of nanotechnology, could be built and launched affordably. In a trice (comparatively) these and other wholly creative concepts could produce great exploratory results. Space has little worth for purposes other than exploration and a high place to stand. These alone are of inestimable value.

What is needed is vision and leadership. The administration has the baton and can find the music. We all pray a symphony of insightful science and technology may begin.

Yours truly,

Philip W. Payne

July 18, 1990

Honorable John Sununu
Chief of Staff
The White House
Washington, D.C. 20500

Dear Chief of Staff Sununu:

As you know the 8th Annual NATIONAL NIGHT OUT AGAINST CRIME will take place on Tuesday, August 7, 1990.

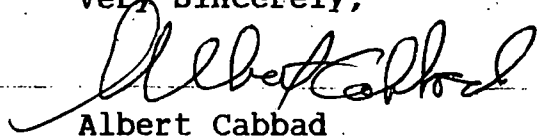

Local Block Associations, Community Organizations and Neighborhood Residents will be participating in NIGHT OUT '90, and we would be very honored if you could join us for this very important event. By strengthening neighborhood spirit and becoming active in the crime prevention campaign, we send a powerful message to criminals. We are telling them: THIS NEIGHBORHOOD IS ORGANIZED AND FIGHTING BACK!

To participate in our NIGHT OUT march, join us, along with hundreds of other concerned citizens for an anti-crime parade starting at Fifth Avenue and Park Place (in Brooklyn, New York, in front of R & A Discount Store, 106 Fifth Avenue) at 7:00 PM.

The parade will end at Grand Army Plaza at approximately 8:00PM, where we invite you to speak on the importance of neighborhood crime prevention. Afterwards, a reception will be held at the Chemical Bank at 401 Flatbush Avenue (near 8th Avenue). At the reception the winners of the Anti-Crime Essay Contest will be announced. The essay contest was sponsored by Chemical Bank and the North Flatbush Avenue Business Improvement District.

I invite you to join with us in marching on August 7th and be a part of the nation's most powerful crime prevention event. Please RSVP as soon as possible so that we may coordinate the evenings schedule.

Very Sincerely,

Albert Cabbad

When I learned in advance of the economic summit meeting, that the Europeans, in particular Chancellor Kohl, were going to propose strong actions at G-7 to address the problem of global warming, I was encouraged, and found myself saying, rather sadly, rather grimly, "Well perhaps the Europeans will embarrass the US into taking responsibility. We certainly are not setting a good example internationally." So I am perturbed by this loss of opportunity, both for ourselves as a self-respecting nation, and because I believe that time is running short.

JHS-6
Mr. Jaiz

Governor John Sununu
The White House
Washington D C

Dear Governor Sununu:

On May 20 I wrote to you cautioning that the high rating for Bush was very soft. Events prove I, a member of the Grassroots, was correct. We are quite concerned at Bush's constant efforts at "bi-Partisanship".

He must realize that he is dealing with an arrogant cunning majority. Bi-Partisanship means getting their own way...and we don't like it. It is better to be respected than loved.

The Kennedy Civil Rights bill must be vetoed, have the President go directly to the people as Reagan did, we will support him. He has traded our solid support for unreliable support of Liberals...we are sorely disappointed !!

We suggest:

- 1- No deals on the Budget...let Gram-Rudman go into effect! Why did they pass the law if they are making such hysterical efforts to prevent it's use?
- 2- Veto the Kennedy "Civil Rights" bill. Manufacturers will hire by quota to avoid Court and damage costs. They will have to raise prices to consumers — eventually they will be forced to leave the country!
- 3- Appoint a Conservative to the Supreme Court. If the litmus test is to be Abortion then we will have a one issue inefficient Justice....a disaster.

Bush
Governor Sununu, if President, continues to retreat, we cannot support him in '92....he must choose between solid support or fleeting approval.

I have a proven record of correctly reading the Grassroots, I warned against the Abortion issue and the high rating...continued efforts at bi-Partisanship could lose everything, including the White House. Nice guys finish last!

I would appreciate your comments.

Cordially,

S. Jaiz (age 83)

Abortion

July 7, 1990

Litterell

Dear Ms. ~~Barr~~:

Thank you for your recent letter to the Chief of Staff regarding the issue of abortion.

Governor Sununu shares President Bush's view that the subject of abortion is a very personal, often painful one for most Americans and that people of goodwill may disagree on social questions as difficult and complex as this one.

The President believes that abortion is wrong and he is committed to protecting unborn human life. He will continue to support a human life amendment to the Constitution, with an exception for cases of rape, incest, or where the life of the mother is endangered. As for the issue of government funding for abortions, the President supports existing Federal law that allows taxpayer funds to be used for abortion only when the life of the mother is endangered. Alternatives to abortion, such as adoption, will also continue to be encouraged.

Governor Sununu appreciates the time you have taken to share your views with him and you have his best wishes.

Sincerely,

Katie Winkeljohn

JAK-2
Mr. Tamberg

participate as a delegate to your upcoming leadership conference, July 23, 1990
October 19 to November 3

The Honorable John H. Sununu
Chief of Staff
The White House
Washington, D.C. 20500

Dear Mr. Sununu:

The American Center for International Leadership is pleased to announce the upcoming 1990 US-USSR Leadership Conference: "Beyond Chautauqua: The Road to New Relationships." The conference will take place October 19-November 3 in the Soviet Union. We invite you to be a member of the U.S. delegation.

At the request of the US and Soviet governments, ACIL has taken over the five-year old Chautauqua citizens diplomacy process from the Chautauqua Institution of New York State. Both governments felt that the process should continue in a pragmatic vein, focusing on professional exchange across a range of 19 disciplines. ACIL's long-standing programs in the USSR and successful track record with the 1988 and 1990 US-USSR Emerging Leaders Summits made the Center an ideal candidate to assume responsibility for the Chautauqua process. Moreover, ACIL's commitment to international leadership development will help convert that process into the major bilateral professional conference between the US and USSR.

There have been five Chautauqua programs in the past, the most recent having been held in Pittsburgh in 1989. The Soviet Union will host the 1990 Conference in Leningrad, Minsk and Moscow between October 19 and November 3. As now envisioned, the United States will serve as the host for the 1991 or 1992 Conference.

Approximately 200 high-level delegates from each side will participate in the 1990 program. The delegates will be divided into 19 specialized commissions in fields ranging from politics to the environment (see enclosed list).

The centerpiece of the 1990 Chautauqua program will be a one-week conference, alternating high level commission dialogues in specialized areas with plenary sessions on select subjects of common interest. The specialized nature of the dialogue will enable delegates to develop long-term, pragmatic relationships with their counterparts in a range of fields and to secure cooperative agreements in specific areas. The plenary sessions will enable participants from both sides to

Mr. Nolan

... address the academic community at The American University sometime during the Fall semester

June 30, 1990

Mr. John Sununu
Office of the Chief of Staff
The White House
Washington, D.C. 20500

Dear Mr. Sununu:

As Director of The Kennedy Political Union, the student lecture bureau of The American University, it gives me great pleasure to cordially invite you to address our community during the Fall 1990 semester.

The Kennedy Political Union is the non-partisan, student funded, and student operated speakers bureau of The American University. We take great pride in bringing prominent public figures to our campus to address a wide array of issues affecting our world. Past guests have included President Gerald Ford, Prime Minister Sir Harold Wilson, Vice-President Walter Mondale, Justice Antonin Scalia, and Senators Ted Kennedy, Gary Hart, Robert Dole, and Barry Goldwater. We would be honored to add your name to this prestigious list, continuing a tradition of excellence that earned the International Platform Association's 1989 Drew Pearson Award for the top college lecture program in the nation.

Since your schedule is undoubtedly busy, and ours relatively free, we will be happy to accommodate you at any time which is convenient with both our schedules. As I am sure you are aware, the 1990 elections will be influenced, in part, by the ability of each party to convey its message to its public. Please keep this in mind, along with the convenience of our university's Northwest DC location, when considering this invitation. I eagerly await your favorable reply.

Sincerely,

Stu Nolan

July 19, 1990

The Honorable John H. Sununu
Chief of Staff
The White House
Washington, D.C. 20500

Dear Governor Sununu:

I am writing to invite you to participate in The New England Council's annual Board of Directors retreat, scheduled for September 27-29, 1990. We will be meeting at the Black Point Inn, located in Prouts Neck, Maine.

Our program will begin on Thursday afternoon, September 27, at 3:00 p.m. with a discussion of our region's air transportation needs. That session will be followed by a panel discussion on strategies to stimulate economic growth in New England.

Thursday evening, The Council will sponsor a reception and dinner. Maine Governor John McKernan and New Brunswick Energy Minister Rayburn Doucett, will speak.

The Friday program begins with a breakfast at 8:00 a.m. followed by a meeting of The Council's Board of Directors. There are no other planned activities until dinner that evening.

We would be honored to have you join us for any part of this program that your schedule allows. We are well aware that the timing of our retreat may coincide with an intensive Washington schedule for you. Nevertheless, we very much wanted to extend this invitation to you in the event that your plans call for you to be in New England. I might add that we would, of course, tailor our agenda in any way necessary to accomodate your schedule.

The Honorable John H. Sununu in months ahead
Chief of Staff
White House
Washington, DC 20500

Dear Governor Sununu:

I am writing you on behalf of the National Capital Section (NCS) of the American Institute of Chemical Engineers (AIChE). I am the Vice Chairman of the NCS. AIChE is a nationwide professional association of chemical engineers with a membership of over 60,000. Its major goals are the technical and professional advancement of chemical engineers.

Engineers across our country are proud of the fact that you, an engineer, are providing leadership at the highest level of our government. NCS would like to honor you for achieving these exalted heights at one of our meetings. Also, like many other technical bodies across the country, we are concerned about the outlook for the United States' competitive posture in the 1990s. We believe your thoughts and ideas on this critical issue would be enlightening, and we invite you to speak at this meeting.

Recognizing your tight schedule, I suggest a luncheon or dinner meeting at an appropriate Washington, D.C. venue on the third Thursday of September, October, or November. We normally meet every month on the third Thursday; however, we are amenable to another schedule of your choosing.

AIChE membership in the Washington D.C. area totals about 1,500 chemical engineers. The membership represents a variety of private sector employees, various levels of Federal, state, and local governments, and contractors.

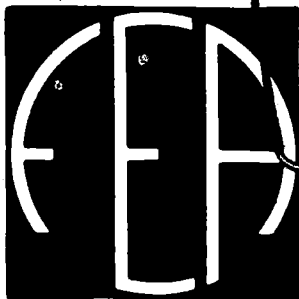

I look forward to hearing from you. If you have any questions or need more information, please contact me at (301) 601-9400 (W) or (301) 869-3920 (H).

Sincerely,

JAK-2

Dear Mr. Sununu,

New York needs you! This is an invitation to participate in the "500 years of Hispanic Heritage Contribution to America" celebration that will be held in Albany, New York.

Our plan is to have a conference on October 12, 1990 from 9 A.M. to 4 P.M. This conference will be offered to Federal Agencies (Interagencies representatives), New York Regional Offices, and Personnel throughout the Northeastern region. The Hispanic community of the Capital District has been invited as well as representatives of New York State Government.

As you well know, New York's Capital District needs to get closer to Washington leadership. This event will be sponsored by the Federal Executive Association. The FEA has invited U.S. Treasurer Catalina Vellalpando, Mr. Antonio Gallegos, EEO Commissioner, Dr. Antonia Novello and other leaders in Washington in order to stimulate New Yorkers to a greater participation on issues concerning Hispanics and non-Hispanics in the Federal workforce.

This conference will end with a Federal Task Force to address some of the needs of Hispanics and non-Hispanics of this area.

This should be a transcultural event to evaluate not only the contributions Hispanics have made to this great country, but also to where we are, and where we ought to be in the future. We must plan for years to come.

We would like to know of your confirmation by July 15, 1990 in order that we may plan appropriately and for inclusion on our schedule of events. Please call me at 914-331-4556 or FTS 562-2876.

With our salutation to President Bush, we hope to hear from you. We are excitedly awaiting your answer. Our sincere gratitude in advance for your consideration to this matter.

Sincerely,

Richard Torres Dueno
Chairperson

Ramada Renaissance TechWorld
Washington, D.C.

Dear Governor:

On behalf of the RNHA and of the Presidential Tribute Committee, I wish to extend an invitation to you, as one of our guests of honor at the Presidential Tribute Gala to be held on Monday, September 24th at the Ramada Techworld Hotel in Washington, D.C. The corporate reception will precede the dinner at 6PM., the dinner is scheduled at 7PM.

JTB
no

It was a pleasure to have you as our guest last year, as you may remember it was a huge success and I believe the President must have been pleased. This year we are expecting about 1,000 participants from across the country, with about 80% from outside the beltway. We will have Hispanic role model awards and Hispanic corporation awards, but the center piece which we leave for the President to recognize, is the creation of a scholarship in honor of one of the first U.S. soldiers to fall in the liberation of Panama, PVT. Alejandro Manrique Lozano, a naturalized Hispanic American.

The Ambassadors of Panama and Mexico have been invited, as well as Jeb and Columba Bush, and George W. Bush, Jr. The theme of our event will be "Democracy; as the Expression of Freedom".

Enclosed is a copy of our letter inviting the President and Mrs. Bush. I ask you vehemently to intercede on our behalf so that the President and Mrs. Bush will come. To this effect, I ask for an appointment to see you together with my National Co-Chairmen to discuss this and other subjects of concern to Hispanic Americans (our community).

Enclosed are our last 2 publications of "The American Hispanic", which is the RNHA newsletter. You will notice it includes information about our recent visit with the President. (no enclosures)

Con gran aprecio,

Jose Manuel Casanova

Mr. Goodsell

July 16, 1990

John Sununu
Chief of Staff
The White House
Washington D.C. 20500

Dear Sir:

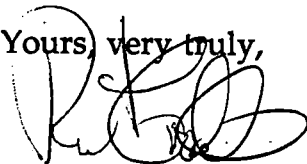

Larry Kramer, writing in today's *New York Times*, accuses you of being the "real villain" in what Kramer claims is the Bush administration's failure to aggressively act against the AIDS plague. I hope that Mr. Kramer is wrong, for if he is correct in his assessment, you would be guilty of one of the most nefarious acts of modern times. I would prefer to believe that the administration has merely failed to understand the true dimensions of the tragedy and has not considered the long-term impact of AIDS on all of society.

AIDS, it is true, strikes those whom many in society consider pariahs. But the cost of AIDS will fall on everyone—good Christians will pay up sooner or later, just like the poor homosexuals and others who have already suffered from the virus.

A friend of mine recently died of AIDS. The medical bill for two years' treatment was in excess of \$200,000, mostly paid by his insurance company. Treatment for the million or so Americans currently infected will come to an almost unimaginable figure.

It is time to take the billions allotted to the Star Wars folly and divert them to something useful—AIDS research and treatment.

Yours, very truly,

Robert Goodsell

July 23, 1990

Governor John Sununu
White House
1600 Pennsylvania Ave
Washington, DC 20500

Dear Governor Sununu:

As an Independent Manufacturers Representative company, we deal with products in Nuclear Medicine, Ultrasound, and Radiology. In such capacity, we sell all the VA Medical Centers in New England, and the hospitals at the Submarine base in Groton, Ct and the Newport Naval Hospital.

There is a major flaw in the way that the governments budgets are prepared. Millions of dollars are spent that could be saved if this flaw is corrected. This flaw has nothing to do with the amount of money that is in the budget. the flaw is in how this money is spent.

~~My wife and I must be in Washington from Aug 7th to the 13th for a Radiology Meeting. I would be honored to meet with you and the President to discuss this matter. It would not take long, about 30 minutes.~~

We sell products to several hundreds of hospitals in New England and across the country and this flaw is in all the budgets. I am sure that if this flaw is corrected it would go a long way in solving the budget and deficit problems of our country.

Sincerely,

Harry H. Kimball

Dear Frank
to your Northern Virginia
World Trade Expo on September 11

FRANK R. WOLF
TENTH DISTRICT, VIRGINIA

The Honorable John H. Sununu
Chief of Staff
The White House
Washington, D.C. 20500

Dear Governor Sununu:

I have enclosed a copy of a letter I sent to President Bush, and information on my upcoming "Northern Virginia World Trade Expo" to be held at George Mason University in Fairfax, Virginia.

I am hosting this trade expo to encourage and assist northern Virginia businesses in taking advantage of the current global conditions and blossoming opportunities for trade, investment, and joint ventures overseas.

You will note that the expo's scheduled date changed after I sent the letter to the President inviting him to address the trade expo. We now have a firm date of September 11.

As you know, northern Virginia is home for many large Fortune 500 companies, diverse high technology firms, and middle market companies eager to explore trade opportunities. We have had a tremendous response from the over 1,000 businesses invited to the expo, and from the forty senior trade representatives from the countries contacted and participating in the expo.

I sincerely believe ~~this expo is such a unique event that President Bush's or your presence at the expo would create an opportunity to make a strong statement of support for American business, increased international trade and national competitiveness.~~

Thank you for your consideration of this request, and I hope you will be able to participate in the trade expo.

Sincerely,

Frank R. Wolf
Member of Congress

Mr. McCalmont

copy of "Taxes and Capital -- Economic and Political," by Warren T. Brooks

The Hon. John H. Sununu
Chief of Staff to the President
The White House
Washington, D.C. 20500

Dear Governor Sununu:

A few years ago, I was at the discussion between you and Senator Mitchell about improving education in the U.S. Mitchell was for throwing more money at it, and you favored more parental participation and emphasis on getting more for the dollar.

Based on that, I thought you would be interested in the enclosed article which compares facets of the economies of the states of Vermont, New Hampshire and Massachusetts. The article speaks for itself, and I won't attempt to elaborate.

As a resident of New Hampshire, I continue to be impressed by the efficiency with which the state operates as compared to its neighbors. Particularly impressive is the courtesy and productivity of its working level state employees.

With the above in mind, I hope you will force the issue with President Bush to hold the line on taxes, improve the efficiency of the Civil Service and follow the example on a Federal level of that set by New Hampshire on the State level.

Yours truly,

Arnold M. McCalmont
President

Dear Grace

Waste treatment
facility for the Town
of Seabrook

05

JHS-6D

Dear Grace

Island Street
Seabrook, New Hampshire 03874
Box 575

Honorable John Sunu
White House Chief of
White House
Washington, D. C.

Dear Governor:

Many of us thank God every day that George Bush was elected President of the United States and that you are at his side.

The New Hampshire seacoast is very dear to us as we know it is to you and we would like to keep it that way.

You reassured us that the Power Plant was safe and necessary. For that we thank you.

We now have another problem and pray that you will look into it and see that the right thing is done for all concerned parties.

Seabrook needs a sewerage system and a sanitary sewer line has been proposed throughout the Town. The treatment plant will be on Wright's Island. The effluent outfall during low tide will be about $\frac{1}{4}$ mile off shore in shallow waters.

Please see that the outfall during low tide be at least one mile out into deep waters so as not to spoil the beach and also to lessen the possibility of offensive odor leakages.

Is it possible to tie the sewerage line into that of the Power Plant which already goes way out into the ocean?

With deep appreciation for anything you can do for us.

Regards from the Hyder family and God Bless.

Most Respectfully yours,

Grace M Hyder

Dear Richard
... We need to
continue our support
for a strong NEA

July 17, 1990

John Sununu
Chief of Staff
The White House
Washington, DC 20000

Dear Governor:

In 1988 you appointed me to the New Hampshire State Council on the Arts where I have served with pride and a genuine sense of accomplishment. I have observed a combination of state monies and National Endowment for the Arts money provide a catalytic shot in the arm to both the rural education system through the Rural Arts program and Artist in the Schools program as have our cultural facilities grants to the multiple fine organizations throughout the state.

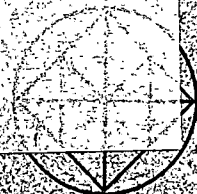

I have been involved in a number of these as a local supporter and board member and know the great leverage these grants provide for projects necessary to the survival of these institutions.

I am pleased that President Bush has taken a strong stand to reauthorize the NEA without restrictive language. I have reviewed a number of the well-intended attempts to define obscenity (e.g., Rep. Rohrabacher) in the reauthorization and fear they will forever fall short by virtue of their infinite expandability to satisfy the demands of pluralistic constituencies, a little like reducing art to the lowest common denominator.

The good judgment of elected and appointed officials and committees is relied upon throughout our system of government for the making and enforcing of laws and the spending of taxpayers' money. I believe

Mr. John H. Sununu
The White House
1600 Pennsylvania Avenue, NW
Washington, DC 20500

Dear Mr. Sununu,

As a fellow graduate of the Massachusetts Institute of Technology (S.B. Course VI, 1952) I am taking the liberty of writing to you with a question. Basically my question is quite frankly is there a position there where my problem solving and analytical skills, learned in thirty seven years in the engineering profession, can be utilized in a meaningful and productive way?

As you can see by the enclosed resume until November 1989 my experience had encompassed the fields of electronics and electronic systems engineering including system engineering, configuration management and system integration and test on the AEGIS Combat System, AEGIS Ship Building and STANDARD Missile programs; project engineering on the Safeguard Missile Site Radar; display system design and integration of IFF, search and height finder radars on the Marine Corps Tactical Data System for the tactical control of military aircraft and research and development of Airborne Early Warning Radar with AMTI for the Distant Early Warning Line. It would seem to me that the skills learned during these years of experience would be applicable to other problem solving areas.

In November 1989 the program I was working on at the Vitro Corporation was cut back because of "Funding Constraints" in the Naval Sea Systems Command STANDARD Missile Program Office. This resulted in a staffing cut from nineteen to nine people on the program. As has become the norm recently at Vitro when there is a cut the junior people involved were relocated within the company. However, those of us with extensive engineering experience, and consequently those earning the higher salaries, were terminated thus aiding Vitro's ongoing policy to reduce the "average" salary level within the company. The five of us who were terminated had over 120 years combined service with Vitro, much of it on the STANDARD Missile Program.

Since I am not ready to be turned out to pasture and retire, nor can I afford to, I have spent my full time since last November trying to find a position in engineering where my experience can be utilized. So far this has been unsuccessful. All of this has prompted my letter and question to you. Can my engineering analytical and problem solving skills be put to use there although perhaps not directly in engineering? I would certainly think so.

JAS-6
Mr. Hoeschel
Subject: Commentary on your addresses of engineering assemblies with reference to your Draft Transcript of Opening Remarks Presented at the 25th Annual Meeting of the National Academy of Engineering, October 4th, 1989.

Dear Mr. Sununu:

Please let me congratulate you on your fine and timely efforts of involving engineers in policy making. You certainly realize that there are some problems, e.g. specialization estrangements and the human need for acceptance. A profound penetrating study of various interrelated quandaries would be vast and very beneficial for society.

For a start, this writer suggests the encouragement of extensive cross-training of various social strata, especially those that are firmly interrelated and/or of managerial nature. Such training programs (seminars, apprenticeships, human relation studies, Toastmasters, etc.) will not only enhance the social atmosphere and the production of goods, but relieve unemployment and create paying customers. Emphasis must be on profound objectivity, and the recognition of a diverse nature that normally compensates for weaknesses with stronger qualities in other areas.

Another matter of similar importance is that: this country is blessed with many retirees who possess an enormous unused amount of valuable know-how life experience, which is withering away. There exists a treasure that should be unearthed, by making it attractive for the elderly to participate with their accumulated insights in creating a better future for their children and grandchildren. The mere recognition of such an activity is mutually rewarding. However, this should be done in good taste.

If you are interested in more specific comments on this or related subjects, please feel free to contact the writer.

Yours truly,

Helmut G. Hoeschel
(Retired P.E.)

Dear Mr. Kent:

7-24-90

Thank you for your July 6 letter inviting the Chief of Staff and Mrs. Sununu to your reception and banquet on September 19 during the Air Force Class 54-M Reunion in Reno, Nevada.

Regrettably, Governor Sununu will be traveling to other destinations at that time and is forced to decline. Nevertheless, he asked me to thank you for your kindness in extending this invitation and you have his very best wishes.

Sincerely,

Jacqueline A. Kennedy

range of opinion on issues of concern to the American public

We believe your unique insight would make your participation in the NAAAF banquet invaluable. We are suggesting you address the topic "U.S.-Arab Relations in the '90s," with a particular focus on the peace process.

The gala September affair will follow NAAA's eighteenth annual convention, during which hundreds of NAAA members and friends will attend workshops and seminars on relevant public policy topics of concern to Arab Americans and others interested in Middle East policies.

Your timely message at the NAAA Foundation banquet will be heard by a prestigious audience of diplomats, American and Arab business executives, government officials, and members of the Arab-American community assembled from across the country.

NAAAF has been privileged to provide a platform for such distinguished speakers as Crown Prince Hassan of Jordan, the Honorable Frank Carlucci, during his tenure as national security adviser, Congressman Lee

Dear Mr. Gerrits:

On behalf of the Chief of Staff, thank you for your recent letter inviting him to participate in a round of golf at Citrus Hills Club to benefit the area's crippled children's home.

Much as Governor Sununu would like to assist in your auction-benefit, he is unable to take part in the event. Due to the sheer volume of requests of this type that come to his attention, he has adopted a policy of declining all requests. I'm sorry this cannot be a more positive response and I hope you understand the need for this policy.

The Governor asked me to convey to you his appreciation for thinking of him and you have his very best wishes.

Sincerely,

Jacqueline A. Kennedy

PETITION FOR THE REDRESS OF GRIEVANCES

Addressed to

PRESIDENT GEORGE BUSH
UNITED STATES SENATOR JOHN C. DANFORTH
UNITED STATES SENATOR CHRISTOPHER S. BOND
UNITED STATES REPRESENTATIVE IKT SKELTON
GIVERNOR JOHN SUNUNU

I am shocked and stunned by the Administration publicly entertaining the possibility of giving economic aid to the USSR, conditioned on the Soviets depriving Cuba of their massive subsidies.

What economic aid? There is no money for this purpose in the U.S. Treasury. This government is insolvent--in debt by something like FOUR TRILLION DOLLARS (\$4,000,000,000,000.00), an albatross hanging around John Q. Public's neck, which has been increasing annually for 20 years by ever-recurring deficits in the hundreds of billions.

To amass the suggested economic aid would require raising already oppressive taxes, or issuing more treasury notes or bonds--more back-breaking debt for my progeny and your progeny, to pay through many generations.

Assuming the money could be raised from the backs of American taxpayers or by selling our securities locally or to Japanese investors, what assurance is there that it would be spent wisely and effectively by the Soviets for the intended purpose of helping to restore their shattered economy, rather than being secretly converted to the building, manufacture and proliferation of deadly submarines, missiles, tanks and bombers, which is continuing apace in a steady drumbeat, even as Gorbachev smiles and favors us with disarming rhetoric about peaceful intentions and peristroika?

If economic aid be devoted to the intended purposes, how would that be to our advantage? The more successful our effort to restore the health of the Soviet economy and revivify their ability to produce, prosper and flood world markets with their minerals, manufactures and food products, the more competitive the USSR will be with the United States, resulting in less exports from our shores, less foreign trade, less a factor in the world economy, with a corresponding decline in our standard of living.

This leaves unrecognized the needs of United States citizens to husband our resources for the solution of our more immediate needs and problems in the fields of public housing, child care, illiteracy, education, repairing our deteriorating infrastructure

Dr. Herbert ...
June 12, 1990

John H. Sununu, ScD
Chief of Staff
The White House
Washington, DC 20500

Regarding: Victor Herbert, MD, JD
FDA Commissioner's nomination

Dear Sir:

I have recently discovered that a friend of mine, Dr. Victor Herbert, MD, JD, is being considered for the position of FDA Commissioner. I have known Dr. Herbert for several years; during this time he has provided me with assistance on several different occasions. He was a guest speaker at Salem Hospital several years ago and was very well received. I have spoken with Dr. Herbert at a number of different meetings and had the opportunity to know him on a personal basis.

I feel that Dr. Herbert would possibly be the best qualified commissioner the FDA has ever had. The reason for this is as follows:

1) Dr. Herbert is Chief of the Hematology and Nutrition Laboratory at the Bronx VA Medical Center, and is a Professor of Medicine at State University of New York Downstate Medical Center. He is board certified in both internal medicine and nutrition. In the past he has held such positions such as the Dean of the medical school at Hahnemann Medical College in Philadelphia.

2) Dr. Herbert is a world renowned and respected researcher and author. He has published over 600 scientific papers, sits on the editorial boards of six scientific journals, and is a medical consultant to the World Health Organization (WHO). He was recently recognized as the 8th most frequently sighted author among all living medical researchers. He is listed in Who's Who in Science.

NUTRITION QUACKERY PREVENTION TASK FORCE

July 17, 1990

John H. Sununu Sc.D.
Chief of Staff
The White House
Washington, DC 20500

JHS B
Ms. Nishiwaki and
Ms. Bouchard
... Dr. Victor Herbert
... Food and Drug Administration
... Dr. Herbert ...

Dear Dr. Sununu:

The Nutrition Quackery Prevention Task Force (affiliated with the San Bernardino County Department of Public Health) consists of members of over 25 different community organizations in San Bernardino County, California. As an organization whose purpose is to combat nutrition misinformation, fraud, and quackery and to promote reliable nutrition information in the community we see firsthand the need for strong leadership within the U.S. Food and Drug Administration.

Subsequently, WE URGE YOUR SUPPORT OF VICTOR HERBERT, MD, JD AS A NOMINEE FOR THE POSITION OF FDA COMMISSIONER. With expertise and experience as a physician, researcher, attorney and consumer advocate he would make a highly qualified Commissioner. Being well versed in the both the medical/health field that he would regulate as well as in the complexities of the legal aspects of FDA's regulation and enforcement duties, Dr. Herbert would be an extremely effective leader for the Administration. In addition to his technical expertise he also has much experience with the media and has been interviewed frequently on television and is often quoted in both the professional and lay press.

Dr. Herbert has spoken to our local medical association and many other health care professionals. He has always been willing to make the extra effort to reach out to all areas of the country with his intelligence and concern for reliable nutrition information. Based on this and his well respected research and publications, Dr. Herbert has received numerous awards from the dietetic and nutrition community nationwide.

Dr. Herbert has many admirable qualities, among them dedication, tenacity, and a willingness to take on any challenge. Our organization has much respect for Dr. Herbert in his past and present health and consumer advocacy efforts. We hope you will take our recommendation into consideration, as you discuss with the President potential candidates for the important position of FDA Commissioner.

Sincerely,

Robin P. Nishiwaki

JHS-6A Mr. Goldsmith
... an economic assistance plan for the Eastern bloc countries

Hon. John H. Sununu
Chief of Staff to the President of the United States
The White House
Washington, D.C. 20500

July 16, 1990

DES with
receiving for

Dear Gov. Sununu:

The purpose of this letter is to ask you to forward the contents to the proper governmental authority. Such a great liberty is taken and in this unusual format because:-

a.) you remain one of the most practical politicians Washington has ever seen; one who "stands tall" for a no nonsense attitude toward red tape....

and

b.) we share a pleasantly remembered (I trust), mutual relationship with the State of New Hampshire; you as a most effective Governor and this writer as a Vice President/National Sales Manager for one of the State's leading employers—Rumford Press, in Concord.

The point we would like to make is that we have been reading with great interest the recent Bush Administration initiative regarding the structure of an economic aid package for the Eastern Bloc countries. This plan would allow the President to provide technical help to Moscow for the first time and to promote free market reforms in Eastern Europe.

We wish our government to know that we have been a leading consulting group specializing in publishing and the Graphic Arts and have serviced major print media companies in their growth plans for the last six years. We believe we are in a unique position to offer our services to our government and to make the new Bush program a reality.

The need for printed materials in an area which until now has seen only controlled information, will certainly put a strain on the already out-moded equipment and manufacturing techniques of these countries. It is our belief that excellent opportunities exist for U.S. graphic arts firms to effect joint ventures in Eastern Europe at this time. We wish to become the catalyst in this process.

Please have the proper agency contact me at: (516) 621-7430. At that time we will be pleased to expand on this opportunity.

Thank you for your help.

Sincerely
Sanford L. Goldsmith

John
Mr. Sununu
The Whitehouse
Washington, D. C.

I seen the "U S News" that you are studying the so called green house effect.

WONERFUL

I sincerely hope some one will allow you to see this letter.

Here is a catchphrase you might promote, "Every thing we eat contains carbon that was carbon dioxide in the air".

To substantiate this statement I present the following.

The 1957 Encolopaedia Britannea , volume 4 page 838 states, Carbon Dioxide is a regular componet of the atmosphere, normaly 3 volumes per 10,000. { What is it to day. } Also it is 1.53 times heavier than air.

Also " In the presence of sunlight, the green chlorophyl of plants is able to convert { photosynthesis} carbon dioxide and water into carbohydrates and oxygen.

This is one of the fundamental reactions in the life process.

This proves that that everything that grows, trees , grass , wheat, and corn requires carbon dioxide .

Having plenty available promotes high yields of everything we eat. {Record yields of wheat and corn.}

So everything we eat contains the carbon that was carbon dioxide in the air. { Maybe from a Volkswagon. }

Ozone: Again refer to Encyclopaedia 1957 volume 16, page 1001. " Atmospheric ozone is produced at altitudes above 20KM by the action on oxygen by short wavelength ultra violet light."

Also it is produced by lighting . Electrical discharges in the sky.

Both of the actions go on all the time.

I hope this may be of interest to you.
Yours truly, *Donald K. McCammon*

Mr. John Sununu
Chief of Staff
The White House

Dear Mr. Sununu:

I write as a Republican who gladly voted for the President, and who has become puzzled by recent White House events.

First I hear that Brent Scowcroft survived his disregard of the wishes of his CIG, (??), in refusing to show "One Incoming" to a group of Congressmen as scheduled.

Then there is the new treaty with the USSR, which:
Cut missile stockpiles 30 % (Nat Review, 25 June, p 14): but in 1989 Russia made 140 ICBM's while we made 12 (High Frontier Newswatch, June, p 1), and Russian SS-18's were fitted with multiple warheads such that 154 missiles are now as effective as were 308 formerly (Nat Review 25 June, p 62).

The USSR produces about 3700 battle tanks per year, and will retire obsolete models under the treaty (High Frontier Newswatch, April, p 7).

Further terms seem to be restricted, and I can see why.

In giving up essentially nothing, the USSR greatly increases strategic posture while keeping enough tactical presence to be effective; has weakened both NATO and all Western defenses; is streamlining its intelligence; Western monies fund Cuba, Nicaragua, countries in Africa; gains Western aid and retains other benefits. We've been had--again.

Mr Baker is likely to be well thought of as a legislator and remembered in silence as the Secretary of State.

To say it all, Congress will spend \$ 1.58 for every \$ 1.00 of the 'peace dividend' saved, if the past is any guide, (Nat Review, 25 June, p 13).

Finally, while we import nearly half our oil, we may not explore most of the Continental shelf. How could we defend ourselves?

What is going on? Have we an 'uncertain trumpet'? Is it a 'Yes Minister' situation? Are we surrendering to Russian threats?

Your respectful Republican,
Paul A. LaBarge, Jr.
Paul A. LaBarge, Jr.

... the issue of
global climate change

July 16, 1990

Gov. John Sununu
The White House
1600 Pennsylvania Avenue
Washington, DC 20500

Dear Governor Sununu:

Re: Global Climate Change

Enclosed is a copy of a letter that I wrote that appeared in the July, 1990 issue of PHYSICS TODAY. I think that you and the President might be interested in it. It was written in February, 1990 and some additional information has appeared since that reinforces my conclusions. This information was sent to you in a previous letter, but I will repeat it to complete the record.

In the matter of global warming, Mark Twain, in LIFE ON THE MISSISSIPPI, Chapter 39, quoted Mrs. Trollope (1827) with approval, "Natchez is the furthest point to the north at which oranges ripen in the open air, or endure the winter without shelter." When I moved to Baton Rouge in 1963, some people told me that I could plant an orange tree without shelter and harvest oranges. But there was no question that oranges would grow in Plaquemines Parish, south of New Orleans. And for a number of years we had the sweetest, best navel oranges from the orchards south of New Orleans every Christmas. No more. Frost after frost have ruined the crops and the very trees. We have eaten our last Louisiana oranges.

Secondly, the USDA has introduced a new plant hardiness zone map, updated for the first time in 25 years. This shows that in the Southeast temperatures are from 5 to 10 degrees cooler in winter than on the previous map. I have examined this map and the decreased temperatures are found throughout the entire country. In Florida, for example, oranges are not commercially grown in Orlando, winter temperatures have become too severe and the center of the orange production is a considerable distance to the south.

I hope that this information will assist you in discussions as to what steps to take to prevent some postulated event from occurring. Computer programs are only valid if you can check them out in the real world.

Sincerely yours,

Raphaël G. Kazmann, P.E.

The Honorable George Bush
President of the United States
White House
Washington, D.C. 20500

Dear Mr. President:

I am writing to express my support for the nomination of Bankruptcy Judge Judith K. Fitzgerald to the United States District Court for the Western District of Pennsylvania.

I have known Judge Fitzgerald professionally since she was an Assistant United States Attorney, and have practiced before her in the Bankruptcy Court in the three years that she has been a Bankruptcy Judge in this District. I have found in all of my appearances before her that she is efficient, knowledgeable and concerned about the case pending before her. In addition, she is well versed in the Federal Rules of Evidence and the Federal Rules of Civil Procedure. Most importantly, I have found that Judge Fitzgerald is impartial and decisive and she does not allow matters to linger before her without decision.

As one of the few Republican women residing in the City of Pittsburgh, I believe that Judge Fitzgerald is an excellent representative of Republican women from the Pittsburgh area, and strongly encourage her nomination to the Federal District Court.

Thank you for your consideration of this matter, and please contact me should you have any questions concerning the qualifications of Judge Fitzgerald.

Sincerely,

TUCKER ARENSBERG, P.C.

... to be keynote speaker at your "International Society of Mine Surveying's VIII International Congress and Exhibition" in September 1991, in Lexington

John H. Sununu
Chief of Staff to the President
The White House
Washington, DC 20500

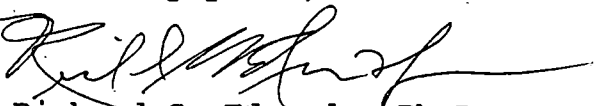

Dear Mr. Sununu:

I would like to invite you to be a keynote speaker at our "International Society for Mine Surveying's VIII International Congress and Exhibition" in Lexington, Kentucky on September 23, 1991. This represents the first time this conference has been held in the Western Hemisphere. It occurs every three years and was last held in Leningrad in 1988 with 1,500 in attendance.

Your engineering background coupled with your present position would make your presentation the perfect "kickoff" for this international gathering. There will be simultaneous language translation in Russian, German and English. A large Russian delegation is expected and the Russian Coal Minister is also being invited to participate in this keynote session. We have received approximately 250 papers for presentation.

Mining is very important to Kentucky, to the United States and to most of the countries of the world. In conjunction with this International Society for Mine Surveying (ISM) Congress the University of Kentucky is also holding its annual National Mining Symposium (NSM). These major mining events will be held in the Lexington Convention Center, the Lexington Hyatt Regency and the Lexington Radisson Plaza. I'm sending an announcement of the ISM for your review. Attendees at both the ISM and NSM will join together for the Keynote session on Monday morning, September 23, 1991.

The planning committee and I will be anxiously awaiting your response. We do hope your busy calendar is not already filled for this date and that we will be able to welcome you to the Bluegrass!

Sincerely yours,

Richard G. Edwards, Ph.D., P.E.
Director

Dear Sir:

Five high school students including myself have organized a club called YADA (or Youth Against Drug Abuse.) We are presently in the process of having fundraisers so that we might take a s eighteen city United States tour.

The reason that we are writing is to inform you that we will be in your area 7/1/91-7/12/91 to both promote DARE and our "JUST SAY NO!" message. We are very proud of this organization although it has not gotten off the ground yet. The purpose of the tour is to increase the membership of YADA, decrease the demand for drugs, and we feel as though a meeting with you is essential to tour. This tour will be started 7/1/91-7/12/91 in Washington, D.C. Please reply as soon as possible so that I may go ahead and make an official schedule. We feel as though this meeting will be very beneficial.

Mr. John Sununu-Chief of Staff
The White House
Washington D.C.
U.S.A.

To Mr. Sununu:

Reading the newspaper the other day, I came across an article about the recent 7-nation economic summit. One of the issues discussed was the environment. From the article, you spoke for the Bush administration, saying that you are not about to agree with the pact to reduce atmosphere-damaging gasses such as CO2. The reason? This act would damage the economy. Yes, I can see where you're coming from, it may hurt the thousands of factories in some ways if emissions are curbed. But I ask you: isn't it worth a small drop in the economy to have a living, more healthy environment for the people of the world? If we only care for the economy of our country and not for the country itself, eventually all we'll have left is a head without a body when the air, land and water are too polluted to use any more. Yes, this is a bit exaggerated but if we don't start preventing more pollution now, it will be too late when someone finally decides that maybe the body of the country should be healthy as well as the head. Just try the European leader's idea for helping reduce pollution, or come up with an alternate plan with similar intentions. The environment needs help! Also, I don't understand this. If America is the most wasteful, polluting country of all, why is it us that are the only ones objecting to the plan? No, it won't work. The environment is dying and we've got to help save it.

Sincerely,

Sarah J. Fernald

JHS-6B
Colonel Hughes

DEAR MR. SUMNER,

As a Republican, I'm concerned about the health of our G.O.P. A few examples:

A. Absence of domestic policy Goals and objectives, as perceived.

B. "Keep my lips - no new taxes": This breaking of his solemn word has deeply strained his personal credibility and tossed away the G.O.P.'s best political weapon.

C. The support of any aspect of the proposed Kennedy Civil Rights Act is very disgusting. Many of us are fed up with reversed discrimination; look at Duke's followers in LA - The GOP should support this man.

D. Re national debt: The Admin., like Congress, plays with "smoke & mirrors" fixes. Example: \$4 billion "off-budget" let's slash expenditures, curtail waste, eliminate "junk" projects, and chop nice to have social programs, like head-start, college assistance, etc.

E. Strongly oppose H.R. 4300 Increased Immigration / Additional Amnesty. Our borders are out of control - The San Diego Border Patrol sector alone arrests some 1,500 illegals each 24 hr., and it's proposed to bring in one million illegals each year plus give amnesty to three million relatives of amnestied illegals. Unusual! Pick up Border Patrol and use military forces.

F. Support H.R. 4424, establishing English as official U.S. Government language. Look at Quebec and elsewhere troubles.

In sum, this Administration seems to have taken a liberal Rockefeller drift and apparently believes the vote of us traditional conservatives can be taken for granted. Frankly, this perception is most disappointing.

Sincerely,

L. B. Hughes

July 17, 1990

JHS-6B
Ms. Neely

Chief of Staff

John Sununu

The White House

Washington, D.C.

Dear Mr. Sununu,

Please tell President Bush charity begins at home, and to immediately put a moratorium on:

All foreign aid (the Japanese have already ordered him to get the deficits down; to help their investments in our country.)

All immigration. Our "peace dividend" is already causing hundreds of thousands of lay-offs and military personnel looking for work. It will get worse. Also, in the auto industry. Immigration is now a tidal wave that is going to drown us.

The moratorium should last until Our Deficit is over! Why should American taxpayers be penalized for the failures of other countries? (For instance, for at least 45 years we have been giving money, hands-on help, etc. to black African countries and every year they beg for more. They can't seem to learn.)

With the rest of the world turning away from total socialism, the leftist liberals in congress keep trying to install socialism into our government! Please ask him to veto Federal government child care, and Federal Government health care. The liberal media and the people who hang around congress lobbying for these things are probably living on the taxpayers themselves, and want more from the taxpayers.

Sincerely,

Margaret J. Neely

Dear Sir,

Enclosed is a copy of a letter I mailed to President Bush in May. In light of recent events & statements I believe it is urgent that you are informed of my views.

Deficit Spending: The deficit is a result of spending not a result of taxes that are too low.
Cut defense more. Make Europe pay for our troops in Germany. Cut our freeze entitlements.
Remember the GRACE Commission.

Civil Rights Bill: Do not let President Bush sign this bill. It is a civil rights bill in name only.

(over)

JHS-6B
Mr. Valtorne

July 17th 1990

Hon: John H. Sununu!

The Republicans can win the election if all the candidates endorse, and campaign on amending the First Amendment.

To stop crime in these United States the First Amendment must be Amended. People are (Behavior of the people.)

The media with all the sex movies filthy trash are brain washing the young generation. Protected by the First Amendment the media with all with all the sex movies trash, actors Homosexual Lesbians crack pots, artist etc.

If nothing is done, crime will increase and continue. Thousand and thousands of innocent people will die every day many will die. In the month of June 82 murdered in Chicago.

The Media has more power than the Government of United States, has done nothing to stop crime. The people are afraid to go out at night they have no protection. Rape has increased 4 times in one year, never in the history has there been so much crime.

The National Guard should be called out by the states to protect the large cities and crime will be reduced. If crime continues, destruction, civil war, revolution, increasing anti-Semitism everywhere. (Behavior of the people.) (Excerpt)

Always Sincerely
John H. Valtorne

HON. JOHN H. SUNUNU, CHIEF OF STAFF
THE WHITE HOUSE, WASHINGTON DC

DEAR GOVERNOR SUNUNU -

May I suggest a better way to beef up
Colombia's drug war without costing
U.S. taxpayers one cent.

— THIS IS TO REPLACE BRAZILIAN COFFEE BEANS,
IN THE ARMED FORCES COFFEE, WITH COLOMBIAN
BEANS.

"Brazils", as they are known in the trade,
comprise between 20% and 40% of soldiers',
sailors', and airman's coffee. REPLACING

them with "Colombians" - (1) gives a distinctly
better cup of coffee; and (2) strengthens
Colombia's economy.

Last evening, on the MacNeil - Leherer
show, the new President Elect of Col-
ombia said to Lady Woodruff, "PLEASE,
AMERICA, BUY MORE OF OUR COFFEE. WE
NEED HELP DESPERATELY."

JHS-6B
Mr. Young

Bath, PA 18014

Chief of Staff John Sununu
The White House
Washington, DC 20500

July 18, 1990

Dear Mr. Sununu,

Never before have I written to my elected representatives, but my sense of the present is that our nation stands at the edge of a precipice. I strongly urge you to put politics aside and move quickly toward effective action.

I am not a member of the "fanatical fringe." I consider myself to be a moderate republican, who votes for the candidate rather than the party (about a third of my votes have been for democrats). I have a PhD in engineering and hold a R&D managerial position with a Fortune 500 company. In addition, I have been active in my community - member and president of the Board of Education, elder in my church, and leader of youth groups and sports programs. I perceive myself to be respected in my community.

These are some of the issues that concern me:

1. National Endowment for the Arts. Please remove all funding! This is not a question of censorship. The market place can and will determine if an artist or art form will survive. What we have here is the use of (my) tax dollars to fund "questionable" and "objectionable" works. Since the total federal funding is such a small fraction of the total funding the arts receive in this country, what is at issue is governmental approval of the art form supported. Given the nature of some of the work, it would appear that some in our society are determined to pollute and poison the moral fiber of our nation, now that we have nearly completed the job of doing the same to our environment!
2. S&L failure. There seems to be an even greater failure in the administration and congress in regard to an effective response! Can't you find a way to take control without destroying the product? It seems that most of the current activity and energy is directed at damage control and gaining political advantage. We're watching for signs of statesmanship and leadership! Please move quickly to punish the guilty, recover ill gotten gains, and remove the red tape that snarls the efforts to dispose of assets.
3. Budget deficit. Let's remove the "pork" and return this nation to a lean diet, across the board, trimming defense, foreign aid, and domestic entitlements. We have overextended ourselves and need a recuperative period. Let Europe and Japan carry the financial ball for awhile. By the way, this

JHS -
Child care ~~Act~~ Registration
Mr. and Mrs. Anderson

Chief of Staff John Sununu
1600 Pennsylvania Avenue
Washington, D.C. 20500

Dear Chief of Staff Sununu:

Thank you very much for your steadfast principled action on behalf of the family and the unborn.

Please urge President Bush to **VETO THE RECENTLY PASSED CONGRESSIONAL CHILD CARE LEGISLATION (H.R. 3 and SENATE ABC)**. This legislation is a threat to families who desire choice in child care.

The Congress has promised to "fix" the problems related to church based day care yet they have done nothing as yet. Please insist on the following provisions as prerequisites for President Bush's signature:

1. Guarantee parents the option of using their child care certificates or vouchers in public or non-public settings.
2. Explicit language requiring states to permit usage of vouchers or certificates at facilities which provide children with religious instruction or activities.
3. Permit church based child care programs that accept vouchers to preferentially hire individuals of their own faith.

On January 29, President Bush, before the National Religious Broadcasters stated, *I will not see the option of religious based child care restricted or eliminated. I will fight that every inch of the way.* I hope that the President intends to keep his word.

Sincerely yours,

*Mr. + Mrs. Vernon Anderson
Rockford, Ill.*

Dear Mr. Methia:

7-23-90

Thank you for your recent letter inviting the Chief of Staff to address those gathered at the National Air and Space Museum on August 5 for the ^{Fifth}~~5th~~ anniversary of the Teacher in Space Project.

Your invitation is appreciated, but Governor Sununu will be traveling out of Washington at that time and is forced to decline. Nevertheless, he asked me to thank you for your kindness in thinking of him and you have his best wishes.

Sincerely,

Jacqueline A. Kennedy

The Honorable John H. Sununu
Chief of Staff
The White House
Washington, DC 20500

Dear Mr. Sununu:

On Sunday, September 23, 1990, Iona College, the only four year, liberal arts college in the world founded by the Christian Brothers, will celebrate its Fiftieth Anniversary. For those of us who have been privileged to have been taught by the Christian Brothers, we know the depth and significance of their record of achievement - their commitment to guiding, inspiring and teaching students in the challenging process of becoming knowledgeable, effective and compassionate human beings. This half century of devotion knows almost no equal.

Brother John G. Driscoll, President of Iona College, joins me in inviting you to be our honored guest and to be the recipient of an honorary degree on this historic occasion.

You so eloquently represent the values and the mission of Iona College. We would all be honored by your presence.

Sincerely,

Charles H. McCabe

Legal Board of Trustees
Iona College

Dear Mrs. Alern:

Thank you for your recent letter.

I appreciate having the benefit of your views in these matters and your suggestions will be shared with others in the Administration as well.

With best wishes,

Sincerely,

John H. Sununu

...for social programs. His leadership for a sound social security system and quality and affordable health care is commended by the Foundation's constituency.

The award for Senator Dole will be presented on Tuesday, November 13, 1990, during a black-tie gala dinner at the J. W. Marriott Hotel in Washington, DC.

In the past three years, this event has raised approximately \$900,000. These funds have been allocated to the Chapter's "Programs for Living", which includes programs designed to help those affected by arthritis to better manage the disease, improve day-to-day functioning and lead independent lives.

It would be an extreme privilege for our organization if you would agree to serve as a member of the Honorary Committee. Enclosed you will find the response form for this event. I look forward to your reply.

Sincerely,

George L. McFadden
Major General, U.S. Army, (Ret.)
President

Dear Governor Sununu:

As a member of the Boston College Wall Street Council, I am writing to extend a cordial invitation to you to address the members of the Council during our 1990 fall program.

The Boston College Wall Street Council is comprised of senior members of the New York financial community and was formed three years ago to create a synergy between its members and the Boston College community. The Council has been involved in career counseling, career placement, summer internships, faculty enrichment programs, special events and scholarship awards. In the past two years, the Boston College Tribute Dinner in New York City has quickly established itself as a premiere event not only for the University, but also New York City. The proceeds from the event are used to fund the Presidential Scholars program at Boston College to attract top students across the country with strong leadership potential.

The Council membership numbers seventy-five individuals. As part of the effort to provide outstanding speaking programs to the members, I ask you to consider speaking at our dinner during late September or early October. The dinner will be held on Wall Street at a major financial institution. Since we have not set an exact date, I would like to provide you with a number of dates and would confirm the meeting with co-chairmen Geoffrey T. Boisi and William J. Vouté according to your availability. Dates that are available are Monday, September 24, Tuesday, September 25, Wednesday, September 26, Monday, October 1, Tuesday, October 2, and Wednesday, October 3. If there are other dates near this time period that are more convenient, we would, of course, try to accommodate your schedule.

On behalf of the members of the Boston College Wall Street Council, I very much look forward to your favorable reply.

Sincerely,

Luke P. LaValle, Jr.

Estimado Sr. Sununu:

On behalf of my fellow Cuban American students at the University of Notre Dame, and on behalf of the Law School community, I wish to extend an official invitation to you to be the keynote speaker at a luncheon sponsored by the Cuban American Union of Student Advocates (C.A.U.S.A.) on November 2, 1990 at twelve o'clock, p.m. in South Bend, Indiana. //

The luncheon will take place within the context of an historical meeting of jurists and eminent Cuban scholars who will be discussing and making recommendations on the political and economic reconstruction of a democratic Cuba.

As a veritable role model for young Cuban Americans, you will be very warmly received by this group of compatriots. I assure you that you will be equally pleased to find yourself in the "shadow of the Golden Dome", landmark symbol of our University, especially given the enthusiastic welcome which President Bush received here during the 1988 Campaign.

Please advise me of any questions which I may be able to answer. Beforehand, thank you for your attention and consideration of this matter.

Faithfully yours in Notre Dame,

Heriberto (Bert) Lopez Alberola
President

JAK-6
Ms. Tsacoyeanes
... to speak at your Annual Dinner Meeting
on November 1 at the Vista International Hotel

July 10, 1990

Mr. John Sununu
White House Chief of Staff
The White House
Washington, D.C. 20500

Dear Mr. Sununu:

The Watertown Chamber of Commerce would like to invite you to speak at our Annual Dinner Meeting, Thursday, November 1, 1990 at the Vista International Hotel. We expect an attendance of over 250 business men and women and local and state officials who would be most eager to hear your remarks. We understand your demanding schedule but are writing in the hope that our request might coincide with a planned trip to New England. }{

Your appearance would be most apropos in that Watertown has very recently become the home for the State Republican Headquarters in Massachusetts and we have not as yet had the opportunity to welcome them.

Our program would proceed as follows:

- 6 p.m. - Social Hour
- 7 p.m. - Dinner
- 8 p.m. - Brief Remarks by Chamber President
- 8:15 p.m. - Guest Speaker

Although the Chamber's budget does not allow for honorariums, we can offer you \$300 to cover travel expenses and will be happy to see that you are picked up at Logan Airport if you wish. I sincerely hope our modest resources will not stand in the way of your joining us.

I look forward to your early response. Thank you for your consideration.

Sincerely,

Hope Tsacoyeanes

Mr. Thoren
daughter's
book, Figuring

Honorable John H. Sununu
Chief of Staff
The White House

Figuring out the Fed.

For your information
this letter and book
Figuring out the Fed
are being mailed to key
Members of Congress.

We have published a little 45 page book explaining why the debt-money system is causing skyrocketing debt, uncontrollable inflation, personal bankruptcies, and bank failures. As the announcement has just been made that the Treasury may default during your summer recess, I thought you might find this book helpful.

Figuring out the Fed was compiled for busy public officials and taxpayers. It can be read in 20 minutes.

Only Congress can enact the legislation necessary to correct the destabilizing errors in the privately owned and controlled "Federal" Reserve Debt-Money System. These errors are briefly explained in Figuring out the Fed.

Sincerely,
T.R. Thoren

PK-8 Mr. Brody will be keynote speaker at your dinner and reception on November 26 for The Bond Buyer's 100th Anniversary

Dear Governor Sununu:

After 100 years of being the eyes and ears of the Municipal Bond Industry, The Bond Buyer will be celebrating its 100th anniversary of publication, The Bond Buyer will be celebrating its 100th anniversary of publication at the Plaza Hotel in New York City. To commemorate this dramatic and noteworthy event, The Bond Buyer will be holding a dinner reception at the Plaza Hotel on November 26, 1990 followed by a one-day conference on November 27. The conference theme is "A Century Of Municipal Finance...A Look Back & A Look Ahead" and we are pleased that every major association in the industry will be playing an active role in this event. Active participants and sponsors include:

- Public Securities Association
- U.S. Conference of Mayors
- National League of Cities
- Government Finance Officers Association
- National Association of State Treasurers
- Municipal Securities Rule Making Board
- Securities Industry Association
- National Council of State Housing Agencies
- National Association of State Auditors, Comptrollers & Treasurers
- National Association of Bond Lawyers

Our senior level audience will include a diverse mix of issuers, investors, dealers, underwriters, bond counsel and government officials. A partial list of distinguished speakers includes:

- Edward Alter, Treasurer of Utah
- Robert Bowman, Treasurer of Michigan
- Harlen Boyles, Treasurer of North Carolina
- Richard Dixon, Treasurer of Los Angeles County
- Edward Armendariz, Director of Finance, MTA
- Jeff Green, Deputy General Counsel, Port Authority of NY/NJ

July 3, 1990

Dr. John Sununu, Chief of Staff
White House
Washington, DC

Dear Dr. Sununu:

As part of the Centennial Celebration of the State of Idaho, we are having a Science and Technology Exhibit which will be toured and presented at seven different cities in Idaho. The overall exhibit consists of some thirty separate displays of scientific and technological developments which have their genesis in the State of Idaho. Three examples are the Experimental Breeder Reactor 1 which was the first nuclear reactor in the world to produce electricity, the first city in the world (Arco, Idaho) to be illuminated by electricity from a nuclear reactor (BORAX, Boiling Water Reactor Experiment) and the invention of the modern television tube by Philo Farnsworth in Rigby, Idaho. Other displays will feature research and developments in agriculture, timber, potato processing, waste management, mining, medicine, electronics, etc.

To start the exhibit on its tour, we are having a banquet as the kickoff event in Idaho Falls, Monday, September 10, 1990. We would like very much to have you as the Speaker for this banquet. The banquet is being co-sponsored by the scientific and engineering societies - American Nuclear Society, American Society of Mechanical Engineers, American Institute of Chemical Engineers, and the American Chemical Society to name a few. We expect over 500 persons from all areas of Idaho to attend. Your scientific and technological background as well as your national status make you our pre-eminent choice to honor us as the Speaker for this banquet. You would make us very proud by accepting this invitation.

July 19, 1990

Mr. Ed Rogers
The White House
Washington, D.C. 20500

Dear Mr. Rogers,

I enjoyed speaking to you yesterday. Thank you very much for your help in regards to the President and Up With People. It is now my understanding that the neither the President nor Mrs. Bush will be attending the Silver Celebration in Denver next week. We certainly appreciate the time that was given to the consideration of said event. We are sure that the President keeps a very busy schedule, and although we would have greeted his keynote address with enthusiasm, we understand his schedule could not include Denver.

As the President will not be able to attend, we are now looking at another respected individual to deliver the keynote address on Thursday, July 26, 1990. The opening ceremonies are at 10:00 a.m. in the brand new Denver Convention Center. We would certainly appreciate your forwarding this request to the Secretary of Education, who we feel could deliver an excellent address, as well as the ability to accurately convey the thoughts and best wishes of the President and Mrs. Bush. We sincerely appreciate your assistance. The individual that the Secretary's office would talk to is Mr. Steve Woods, Senior Vice-President. He can be reached in Tucson at (602) 327-3716, or in Denver at (303) 820-4066. I can be reached at (201) 643-7000, or in Denver, at the above-listed number.

~~As per our conversation, I would appreciate the opportunity for our people to speak with Mr. Sununu regarding the possibility of the President attending an upcoming Up With People event. It would be very important to the group, now in their 25th Silver Anniversary year. The President represents a group of people that have thrived on grass-roots diplomacy - the very nature of Up With People. I will be speaking with you in the near future regarding such a meeting.~~

John Sununu
Chief of Staff
The White House
Washington D.C. 20500

Dear Sir,

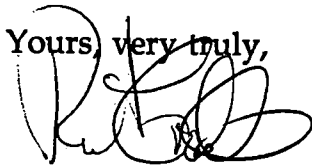

Larry Kramer, writing in today's *New York Times*, accuses you of being the "real villain" in what Kramer claims is the Bush administration's failure to aggressively act against the AIDS plague. I hope that Mr. Kramer is wrong, for if he is correct in his assessment, you would be guilty of one of the most nefarious acts of modern times. I would prefer to believe that the administration has merely failed to understand the true dimensions of the tragedy and has not considered the long-term impact of AIDS on all of society.

AIDS, it is true, strikes those whom many in society consider pariahs. But the cost of AIDS will fall on everyone—good Christians will pay up sooner or later, just like the poor homosexuals and others who have already suffered from the virus.

A friend of mine recently died of AIDS. The medical bill for two years' treatment was in excess of \$200,000, mostly paid by his insurance company. Treatment for the million or so Americans currently infected will come to an almost unimaginable figure.

It is time to take the billions allotted to the Star Wars folly and divert them to something useful—AIDS research and treatment.

Yours, very truly,

Robert Goodsell

JHS-6B
Mr. Covington

Dear Mr. Sununu;

I've read where the White House has been looking for some ideas to use in the upcoming congressional and gubernatorial elections. They are: 1) Argue that the recent Supreme Court decisions that gave the courts the power to order tax increases should be overturned. 2) Argue that the welfare system is encouraging young women to have children out of wedlock (this idea could be used on both congressional and gubernatorial races) 3) Argue that the FDA is preventing potential life-saving medical drugs from reaching the marketplace and that removing these restrictions would be the best way to find a cure for AIDS and cancer. 4) Have the Republican candidates use educational vouchers as a political argument to black America. 5) Ask former President Reagan to make a political ad explaining that the U.S. has no real defense ~~and~~ against nuclear weapons and that the Democrats are refusing to give enough money from Congress to properly test SDI. A second ad in regards to SDI could be made to endorse the Republican Senatorial

The Honorable George Bush
The President of the United States
White House
Washington, D.C. 20500

RE: Judicial Nomination

Dear President Bush:

I am writing in support of the application of Bankruptcy Judge Judith K. Fitzgerald for appointment to the Bench of the United States District Court for the Western District of Pennsylvania.

Judge Fitzgerald has been rated as exceptionally qualified by the Merit Search Committee. This high rating is certainly well deserved. First of all, I had opportunities to observe Judge Fitzgerald in her prior capacity as an Assistant United States Attorney, and I learned from her very effective representation of civil agencies of the United States government, in bankruptcy proceedings.

Since her elevation to the Bankruptcy Bench, Judge Fitzgerald has demonstrated the qualifications of a truly superior judge. Judge Fitzgerald has earned enormous respect for her ability to control her cases, while also exercising restraint in her use of power as a bankruptcy judge. Judge Fitzgerald has also demonstrated exceptional insight into principles of bankruptcy law, and has worked extremely hard in her efforts to always achieve a fair and equitable result.

Dear Dr. Sununu:

Thank you for putting the Department of Commerce in touch with me; I forwarded the material they sent to the Fremont Library to add to their reference section.

I am sending you a copy of our latest newsletter under the assumptions that:

- 1, You are still interested in what is happening in the State of New Hampshire.
- 2, You are interested in seeing what a small R & D company, with limited resources, can do against the 'big guys'.
- 3, You might be interested in a suggestion I have, to wit:

Since Premier Gorbachev is putting on pressure to have us give money to them, and since a number of Americans see it as a worthwhile endeavor in spite of our own disastrous economy (ie: the Savings & loan debacle, the spending of our liberal congress etc.), and our natural desire to do something, perhaps the United States government could consider guaranteeing investments made by United States companies in the Eastern Bloc countries. I am sure that this would make AMOCO and the other companies we are talking to far more comfortable than a promise from the Soviets that they will pay the premium on a Lloyd's policy or whatever.

Or better yet....lend money to companies such as ours that have an idea that the Soviet's like....as long as it answers some of their most pressing needs (in our case, a comparatively small investment is guaranteed to answer one of their most pressing problems....housing). Done right, such a program would make the U.S. a hero, help U.S. business....and get the money with a nice profit!

If this does interest you at all, I would be happy to meet either in New Hampshire or Washington to elaborate on it.

Highest regards,

Robert J Rydeen,
Director

Ms. Nevenic
...to discuss your research on
helping the needy in our society

Mr. John Sununu
1600. Pennsylvania Ave
NW, Wash. DC 20500

6-11-1990

Dear Mr. Sununu ,

I have written number of letters to President Bush ,unfortunately I was not able to get an appointment with him. I am very concerned about our nation ,we have to many social and economic problems and we are not doing very much about them. The exuse is insufficient funds. I have done an extensive research in many areas from which we can raise billions of dollars without raising any additional taxes. Too many people are abusing our system either by not paying their share of taxes or taking from the system because there is not much control in distribution of taxpayers money.

My heart is hurting for the less fortunate members of our society , especially children . The children are supposed to be our future , too many don't stand the chance for success in our society, if we don't act right now we as a nation will suffer more.

I am writing to you , hoping that you will give me an opportunity to meet you so that we can discuss how to help and serve our nation more efficiently. Thank you for your consideration of my request. Your response would be greatly appreciated.

Sincerely,
Anna Nevenic

global warming
Issue

Mr. John Sununu,
Chief of Staff,
The White House,
Washington, D. C. 20500.

Dear Mr. Sununu:

As you work on your computer model of the so-called global warming trend, I hope you will include data recently published by the National Arboretum in their USDA-revised Plant Hardiness Map Of The United States.

Revision of the old map was made necessary by the fact that the climate in most regions is averaging up to 5 degrees more cold than the previous map showed. Many large urban areas are warmer than the surrounding countryside. Since most of our Weather Bureau stations are in urban areas there may be a bias here which needs to be factored in.

Further information can be obtained from Dr. H. Marc Cathey, Director, U. S. National Arboretum, Washington, D. C.

As a professional forester I have followed weather patterns for many years, and I am pleased that you are going to take a close look at this problem.

Sincerely,

Arthur W. Nelson, Jr., R. F.

Washington, D.C. 20500

Dear Mr. Sununu:

It is my understanding that David Egan of Guilford, Connecticut is seeking appointment as a U.S. Commissioner to the North Atlantic Salmon Conservation Organization.

Among his other positions, Mr. Egan has been Chairman of the Connecticut River Atlantic Salmon Commission for the past 7 years. The Connecticut River Atlantic Salmon Commission has the statutory authority to manage the Atlantic Salmon Restoration Program in the Connecticut River. During Mr. Egan's Chairmanship, we have dealt with him on a wide variety of issues affecting hydro-development throughout the lower Connecticut River basin. We have found him to be competent and well prepared on any matter which we have negotiated with the Commission. Most significantly we have found him to be balanced and prudent in his efforts to reconcile the need to develop renewable sources of energy with the necessity to conserve and enhance our natural resources.

I urge his appointment as a U.S. Commissioner to the North Atlantic Salmon Conservation Organization.

Very truly yours,

RAR/cmb-642

Mr. Cherry
... deposit insurance imposed on
small as well as large banking
institutions

Chief of Staff John Sununu
1600 Pennsylvania Avenue, N.W.
Washington, D. C. 20500

Dear Chief of Staff Sununu:

I understand that the administration is considering the possibility of reducing the FDIC Insurance Ceiling from \$100,000 to \$50,000 in order to limit the cost to the tax payer. Currently small community banks pay deposit insurance on almost 100% of their deposits while large international and money center banks pay insurance on percentages as low as 35% to 40% of their deposits. These large banks are not required to pay insurance on overseas deposits, but these deposits are in fact "insured" as a result of the manner in which large problem institutions are liquidated.

I urge the administration to impose insurance on all the deposits of these larger institutions. This would have the effect of increasing the insurance fund without effecting the tax payers and the insurance would be paid for by the institutions who hold the deposits. I appreciate very much your consideration of this alternative and thank you for the manner in which you carry out the duties of your office.

Yours very truly,

Jim M. Cherry, Jr.
President

... the Clean Water Act

June 27, 1990

Honorable John H. Sununu
Chief of Staff to the President
The White House
Washington, DC 20515

Dear Honorable Sununu:

I am writing in regard to Section 404 of the Clean Water Act which regulates our nation's wetlands. I believe you should be aware of how these regulations are affecting thousands of private landowners throughout the country.

While I support the preservation of our nations truly valuable wetland areas, I do not believe that private landowners should be made to bear the economic burden of preserving areas intended to act as "societal benefits." I believe fair compensation is due to those landowners who are forced to preserve their land for public betterment.

I also believe you should be aware of the enormous amount of "dry" land which is being labeled as "wetlands". I think the definition of a wetland and the preservation measures being undertaken have far exceeded the original intentions of Congress.

Moreover, I am very concerned with the regulating agencies administering the law and the enforcement methods they are using. Many individuals are being intimidated and confronted with enormous fines with no appeal process currently in place.

As a concerned landowner/citizen, I urge you to investigate the 404 program and to take measures which will correct the inequities and bring fairness and common sense back into the law.

Sincerely,

Jack C. Smith

PAYING FOR NUCLEAR WASTE CLEANUP
UTILIZING CURRENT DEFENSE RESOURCES

Recent published estimates indicate the cleanup cost of defense related nuclear wastes to be in excess of 50 billion dollars over a period of years. I believe there is a way to pay for much of this necessary cleanup without raising an equal amount of taxes. Also I believe there is a solution that helps our national security at the same time by improving our utilization of domestic energy sources.

The underlying premise is to use stockpiled Plutonium resources and refabricate it into mixed oxide fuel for the civilian nuclear program. This mixed oxide fuel would be sold to the more than 100 civilian reactors at current Uranium market prices. Although changing Mr. Carter's direction on the Plutonium fuel cycle I believe it is warranted for a number of valid reasons. First, it is technically feasible and could be classified as Plutonium recycling versus reprocessing. Further, the issue of Plutonium safeguards can be controlled technically by selective isotope poisoning and by increased security. Even using the military if necessary at sensitive collection or transportation points. Secondly, it may be politically acceptable now. You would be decreasing total weapons material stockpiles, "burning the bomb" material (in safe reactors), using material that the American people have already paid for, and decreasing our reliance on foreign raw materials, including Uranium from South Africa. Current domestic fuel fabricators would be required instead of the foreign ones often used, helping our balance of trade deficit.

Current annual fuel costs for a mid size plant can be on the order of 100+ million dollars annually. I believe it would be reasonable for the federal government to make 25 to 50 million dollars per plant annually on fuel sales of reconstituted weapon stockpiles, thus generating an income of approximately 1-3 billion annually. Other revenue would follow directly from increased tax revenues from the fuel fabricators and employees. If priced appropriately it might encourage the nuclear power option, decreasing our foreign petroleum demand with its associated benefit of balance of trade improvements and reduction in foreign defense pressures and threats.

Another extended benefit might follow. The federal government would have a need to recover the spent fuel after an appropriate cooling off period at the utilities facility. The service costs of disposing this spent fuel at a new federal repository could be passed back to the utility and its ratepayers. This new secure facility could be designed such to also receive properly packaged or

John H. Sununu, Sc.D.
Chief of Staff
The White House
Washington, DC 20500

Dear Dr. Sununu:

I am writing in support of the nomination of Victor Herbert M.D., J.D., for F.D.A. Commissioner. I am sure all the members of the selection committee are familiar with his qualifications by this time. Thus, I would like to tell you about what Dr. Herbert has done for the physicians and patients in my community.

San Diego, sitting right on the border between the state of California and Mexico, is inundated by the unproven and ineffective therapeutic offerings of a number of providers of "health care" services. California deserves it's reputation as a leading site for unscientific and fraudulent practices. With our proximity to the Tijuana Cancer Clinics which offer little more than false hope in exchange for an exorbitant amounts of money, we often see the destruction of family finances and numerous medical complications, including death, as a result of crossing the border to receive nonscientific based care.

Through his writings and by his speaking engagements in San Diego, Dr. Herbert has enlightened many as to the danger of fraudulent health care practices. His elegant and understandable way of defining therapies as either proven, unproven, or experimental, and the appropriate criteria to be used to define them as such has enabled physicians in this community to communicate with their patients in a way that enhances understanding of what is and what isn't appropriate therapy.

As we enter an era in which the technical advances in biotechnology will have the single most important impact in all areas of concern to the F.D.A., I can think of no one better qualified to be F.D.A. Commissioner and no one who would bring more integrity or intellectual honesty to the position than Dr. Victor Herbert.

Sincerely,

Seth Asser, M.D.

Ms. Clarke
Dr. Victor Herbert
Food and Drug Administration
Dr. Herbert

John H. Sununu, Sc.D.
Chief of Staff
The White House
Washington, DC 20500

Dear Dr. Sununu

As president of the Kansas Dietetic Association, I am writing on behalf of Dr. Victor Herbert to be selected as President Bush's nominee for FDA Commissioner. Our Administrative Council voted to endorse Dr. Herbert for this very important post in protecting the health of all of our citizens. As dietitians, we know the importance of preventing health fraud, mislabeling of food and drugs, and safeguarding our food and drug supplies from contamination and ineffectiveness. It is absolutely necessary for the public to be protected as the management of our food and drug systems become ever more complicated and fraught with health and safety risks.

Our Association believes that no one is better qualified than Dr. Herbert to fill the FDA Commissioner post. He has the necessary background and experience to do an outstanding job in these very difficult times of food safety problems, generic drug scandals, and food label regulations. As you are doubtless aware, Dr. Herbert has received the FDA Commissioner's Special Citation for "outstanding and consistent contributions against the proliferation of nutrition quackery to the American consumer," and he was honored two years ago at the Annual Meeting of the American Dietetic Association for his research, teaching, and education activities. The fact that he holds both an M.D. and J.D. degrees from Columbia University attests to his outstanding educational background for this position. In addition, he is accustomed to dealing with controversial issues in the printed media, radio, and television.

We whole-heartedly support the nomination of Dr. Victor Herbert as FDA Commissioner.

Respectfully

A handwritten signature in cursive script that reads "Mary P. Clarke".

Dear Mr. SONNEN

Tomorrow night, here in S.D. we are having our own little Tea PARTY, you may have heard about it.

Fed. & State income taxes take 33-35% of my income. State & local sales taxes another 7 1/2% and the land only knows what % other taxes / fees (SUN, GAS etc) take from us.

We are not under taxed, there is little wonder the savings rate is so low in the U.S. There isn't that much left over. We are going the way of East Europe & the USSR just when they would like to be the way we were.

The U.S. should not borrow money from Japan or anyone else to give away to the USSR, Israel, the NRT etc. We should not spend more than we take in. I get sick when I hear people say that we are a rich country -- we are a few steps ahead of the 3rd World countries.

We need leaders who will look out for the U.S. first not just for the next election.

Dear Gov. Sununu: re: Aid to Russia

Last night you were speaking about aid to Russia, what kind, how much, and when. I heard you on C-SPAN.

I am against aid to Russia today, tomorrow, forever. They have been our enemy since their grand revolution. They are cutthroats and always have been--it's their nature. They want to conquer the world and this is nothing but a little setback for them. Soon as they get on their feet, they'll be at us again and because of our foolish members of congress, we won't be ready for them.

We should not be feeding their spies, their army, their big shots and that's where the money will go. The peasants will not benefit--not that I want to help them either.

Russia has been stealing our secrets for ages, so now is the time they come to our libraries and learn how to turn their economy around. I don't think we need to send them people to tell them how to change their economy. Let them steal that knowledge if they want it.

As for our economy, if the fools in congress don't get smart and stop spending we are going to be in the same mess Russia is in. It won't help to crank up the printing presses and print more money because there is nothing to back up our money. We are broke.

Very truly yours,

Linda Maloney

Mr. Solomon

July 11, 1990

Dear Governor Sununu,

I have two proposals to make

(1) Hand guns should be taxed, a license fee pro-rated system should be employed to cover the cost of hospitalization of gun fire victims,

(2) Soldiers should be deployed to supervise prisoners in the clean-up of all the nations surface water. The bureau of land management will provide draft animals from the wild horse herd to assist where possible. Bridal paths and bike trails should be cut along the way to provide easy access and maintenance. This program could be implemented by executive order as a Test project.

Please pardon the hand writing an old war wound is giving me trouble

Dear Mr. Sununu

This letter pertains to the Northern Spotted Owl controversy in the Pacific North West. I am a boiler operator at a plywood mill which makes sanded interior grade plywood. Our mill depends heavily on Old Growth Douglas Fir trees, in the manufacturing of our products. Without an adequate supply of these trees at reasonable prices our mill as well as many others will be forced to close its doors. That will lead only to economic disaster for Oregon, Washington and Northern California. The Jack Ward Thomas report does not even begin to tell the true economic problems that will occur if the plan is allowed to be implimented. These so-called environmentalists are hiding behind the Endangered Species Act and not facing up to the real issue which is the logging of Old Growth Timber.

Mr. Sununu with the United States facing very serious economic problems and decisions with Eastern Europe, Soviet Union, Third World countries, S. & L. crisis, and the National Debt, the last thing America needs now is major unemployment in any section of the country. With projected layoffs of 12,000 to 28,000 people (a conservative numbers, our company alone employs 5500) in the timber industry alone

Mr. Buongiorno
Dear Mr. Sununu,

I have recently heard of an upcoming visit to the Whitehouse by Ivan from Medjugorje. I am elated.

The enclosed copies are from the book, newly named (see M.M.P. letter), "To The Priests, Our Lady's Beloved Sons". I have sent information to President Bush concerning the coming events, in a previous letter containing lengthy detail. These new messages are confirming what I have already told him. Notice also the preliminary nods from Rome. Of course the complete may be obtained from the M.M.P. Center.

I was inspired to bring this to the President when I heard him express the new drive for spending unbelievable sums of money for a Space Station. I cautioned him to look at what I had sent him and to concentrate on the American People here on the ground. I also told him that he may not see too much of the coming events in this term but, if he is re-elected he most certainly will be right in the middle of it.

The change in Eastern Europe does not mean all the people have suddenly turned Christian; and this is what is calling down the coming wrath of God, but not exclusively. The whole world is darkened by overwhelming sin.

Know this my friend (and I sincerely mean that), the first Angel of the Apocalypse has already been let loose (see #412 on the copy) Revelations 16. We know then that the second Angel is ready and waiting. When you see the oceans turn "RED LIKE BLOOD", it will be time for a little decision making for you will have just experienced a supernatural warning from GOD HIMSELF. Ivan can verify all of this if Our Blessed Mother allows him. Listen very carefully to him; for the fact that these things (apparitions) are happening all over the world now must mean something. My very own "experiences" are the basis for my strong words here. What is coming is not nice.

Love In Jesus And Mary

John

Subject: Auto battery explosions

Dear Dr. Sununu:

(Congratulations on your election to the National Academy of ~~Science~~ Engineers.)

Enclosed is a copy of a letter that was sent to Transportation Secretary Samuel Skinner. Also enclosed is a copy of the paper entitled, "Court Cases Show that Storage Battery Explosions are Blevés," Parts I and II. The proper work sequence is to make connection first to the dead or car being started battery. Then put the hood down to the safety latch position.

Sometime ago when the data were being accumulated, I wrote to the then Secretary of Transportation, but did not receive an answer.

I respectfully suggest that whatever is necessary be done to prevent these approximately 15,000 a year accidents that result in personal injury.

Except for this sentence an identical copy of this letter is being sent to the Washington Republican Headquarters.

Sincerely yours,
Harry S. Dixon

John M. Sununu
Whitehouse
Washington D.C.

Dear Mr. Sununu:

During the Carter administration a law was passed precluding S&L mortgages from being assumed. In other words for a homeowner to sell his house a buyer must be found who has sufficient down payment, good credit and 3 or 4 percentage points to obtain his own mortgage thus allowing the S&L to up the interest rate and charge up front 3 or 4 percentage points. This was to allow the S&L to make more money. It back fired on them because there are not too many people out here with a huge down payment looking for a home.

This new law prevented a home owner from selling his home to a neighbor, a friend, an investor or anyone else. If the home owner lost his job or had to move to another city for a new job or his employer transferred him; he lost control of his house. This is wrong. This is Russia, when a person cannot control the disposition of his home and must allow foreclosure.

I guarantee if you fix it so that all mortgages become assumable, that at least one-half of all properties on the market will be assumed by someone. If you reduce the depreciation period from 27½ years back to 15 or 19 years the rest of the properties will be assumed thus ending the real estate foreclosures thus saving the American tax payers billions.

You see if mortgages can be assumed, people could buy from the present owner with little down or nothing down and make arrangements for a second mortgage to pay for the equity in the property. There are millions of young people who have sufficient income to make monthly payments but have not saved for the huge down-payment. You would not have to spend billions on first time buyers.

It is true that many of the S&Ls are in trouble because of mismanagement, but most are because of the Carter's administration rulling or law preventing the assumption of mortgages. Don't let the democrats put this debunkle on the eight years of the republican administration. It's the democrats that caused this mess and it was the Jim Wrights that prevented Reagan's people from investigation. It was Tip O'Neal that prevented Reagan from putting industry in the ghettos to put everyone to work. Also, it's the democrat huge spending on socialism, not Reagan military build-up. Reagan just proved that socialism does not work. England tried it and went back to capitalism. Russia has moved away from socialism and yet the democrats are moving us farther and farther into socialism.

Dear Mr. Sununu:

President Bush appears to be slipping away from the Conservatives. His latest statement about tapes has many of us, who went all out to get him elected, feel like we have been betrayed. Another example, he only called the anti abortion rally leaders by telephone, instead of appearing in person. A Bush-Quayle ticket in '92 is headed down the drain.

Rep. Fitz Patterson reported that there were over 25 million letters sent to the FCC. over a rumor - that religious broadcasting was to be curtailed. Probably most of those people voted for Mr. Bush. He is losing that group and the anti abortion group. Also people like me who contribute to campaigns and write letters to the editor to support candidates. I only contribute now to specific conservative candidates, such as Jesse Helms, Rep. Howard Coble, Dornan and Gingrich. No more national Republican support from me.

Some things that would cheer up the Conservatives:

1. Get rid of John Frohnmaier at the N.E.A.
2. Pardon North & Poindexter.
3. Back off on new tapes.
4. More support to anti abortion groups.

Sincerely, Leo J. Hornsby (Yankee from Nanticoke, Penna.)

Dear John:

Linda and I, together with Ho
dinner parties in honor of friends c
Secretary Jack Kemp. We also ha
President will be a guest of honor
prospective date.

l
/ice
a

The dinners are held at Holly Coors' Watergate apartment and attendance
includes several key people from Washington, as well as friends of Heritage
from around the country. No fundraising is conducted at the meeting, and
the only obligation of the guest of honor is to lead a discussion of informal
remarks on pending issues.

We hope that the evening will be viewed as an enjoyable opportunity of
getting together with old friends and meeting new ones, and generally as a
change of pace from the standard Washington function.

At this time, I want you to know that we would be delighted if you
and Nancy would consent to be the guests of honor at one of these dinners.

I hope you will consider this invitation favorably and that we are able
to host such a dinner on either September 11 or 12, or October 14 or 15. //

Kathy Rowan of my staff will be in touch with your secretary next
week to see if we can work out the details.

Kind personal regards.

Chief of Staff
The White House
1600 Pennsylvania Avenue
Washington, D.C. 20006

Dear Governor John:

It was great seeing you and Nancy at the Business and Industry Association Dinner in Nashua on Tuesday evening, June 5. It was a "hot" evening in more ways than one. Your thoughtful remarks were right on target.

I read all of the articles about you and your work and feel privileged to know the real John Sununu. I learned much from working with you and that knowledge has served me well in my various career moves.

I have accepted a challenging assignment on behalf of the Program Committee of the New England Healthcare Assembly and I need your help. The committee voted unanimously to ask you to be a keynote speaker at the Annual Meeting of the organization to be held in Boston on March 25, 26, 27, 1991. There is a principal speaker to keynote each day of activity. The session to be held on Tuesday, March 26 from 10:00 to 11:30 am. is my specific target time for your presentation. The estimated audience for our general sessions is the 500 - 600 person range with a high of 900. I know you would "fill the house."

The New England Healthcare Assembly is the "Premier Event" for healthcare providers in the New England/Northeast area. The 1991 focus will revolve around the issues of quality/excellence and opportunity. Knowing of your personal commitment to being the best I know your message would be very timely and extremely well received.

to discuss ^{the} economic conditions in the Northeast

Dear John, *

July 9, 1990

Sorry I missed you at the Lawrence Eagle affair, Helen was under the weather and we couldn't make it. I know both you and Nancy are in good health as I see Pat Corbin and Ed Duvall quite often.

Since I missed speaking to you face to face, I had to write. I know you are very busy, but I hope you will take the time to look into the following matter, which is of great importance to the Northeast (specifically the lower New England States), and ultimately effect the Country and the President. John I am referring to the Economic climate. It is near disaster..

I know you are aware of the Economic slowdown in the Northeast as I spoke with Pat Corbin and he said he mentioned it to Nancy. But I do not think you know how severe the problem really is.

Business and personal bankruptcies are being filed at an uncontrollable rate. Business and Home foreclosures fill eight to ten pages of both the Boston Globe and Union Leader each week. The people, (the men and women we all count on to keep our businesses and this country moving) have lost their confidence. They do not know if they will have a Job at the end of each work day, or be able to keep their business open. They are afraid to spend any of their money (if they have any) for fear they will lose their car, house or whatever they own. Their worries stem from a number of facts, (1) some are over extended, Both members of the family were working when they went in debt now one or both are out of work. (2) with the cut in defense budgets a number of workers at high paying defense manufacturing jobs have been laid off and others are being told there will be more lay offs. (3) The computer industry is at a standstill, Wang and Digital are laying employees off by the hundreds. (4) My business (Automobiles) is off 35% to 40% and I assume the formula I was told in the recession years still holds true that every 3 out every 5 jobs relates to the Automobile Business?? (5) The housing industry is at a complete standstill. Between the loss of jobs and the increase in taxes, there are houses for sale by the droves, and the buyers are few and far between. All the contractors have laid off most of their employees, and some have just given up and are trying to sell of their equipment. And the biggest problem (6) THE FEDERAL RESERVE AND OR THE BANKS????

It is my understanding after talking with some bankers and business men that have had dealings with the banks that the Federal Reserve is telling the banks they have to have cash reserves equal to one half of their realestate outstanding loans regardless of the loan risk. In order to get these cash reserves the banks are calling in the demand notes of the good risk loans where they have the most equity, the

July 2, 1990 New England Fall Conference,
September 16-18, in Newport,
Rhode Island

Mr. John Sununu
Chief of Staff
The White House
Washington, DC 20501

re: Invitation to speak

Dear Governor Sununu:

As requested by your assistant, Ms. Jacqueline A. Kennedy, I am reaffirming an invitation to you to deliver the keynote address at the SPI 46th New England Fall Conference to be held September 16-18, 1990 at the Newport Marriott, Newport, RI.

My original invitation was sent to you on March 6. (Please see attached.) Ms. Kennedy was kind enough to respond that you were not able to commit so far in advance and suggested that I repeat the invitation closer to the event.

Governor, our planning committee is excited and honored at the prospect of having you address this conference. We in New England have some timely issues to discuss. As its title suggests, "Plastics...It's Our World, Too," the conference will address the industry's concern about the environment; the challenge it faces in the marketplace; and its commitment to sound business and environmental practice.

I hope you will favor us with a positive response, Governor. And, as I am sure you realize, for program printing purposes, we would like to know as soon as possible. Should you or Ms. Kennedy have any questions or need additional information, please do not hesitate to call me. Thank you.

Sincerely yours,

Loretta A. Capezzuto

companies, the USC School of Medicine and Los Angeles County. The goal is to improve the quality and cost-effectiveness of medical treatment, and serve as a model for other facilities.

The hospital's dual mission will be to provide tertiary care and expand biomedical research, while giving talented medical students a "hands-on" clinical education. The facility will also benefit the community by adding critically needed teaching hospital beds to Southern California and by creating hundreds of new jobs.

The project has enjoyed broad support from the surrounding Hispanic community and bipartisan support from the area's elected officials. The development has also resulted in private funding for construction of a new Health Sciences Magnet High School adjacent to the Hospital which will take advantage of training opportunities at the surrounding health facilities.

 Ms. Williams

... be a special guest at a fund raising
 event in New Hampshire for your production of,
 Province; The John Wentworth Story

July 11, 1990
 ... project

The Honorable John H and Mrs Sununu
 Chief of Staff to the President
 White House
 Washington D C 20500

Dear Mr and Mrs Sununu,

We are producing a musical based on the Governorship of John Wentworth, the last Royal Governor of colonial New Hampshire. He was a most fascinating man. This production is historically accurate and is part of a large project to educate the people of New Hampshire about their heritage through drama. We have planned to write five scripts dealing with prominent characters in our state's history and play them on consecutive years in the summer here in Wolfeboro. We also plan to write abbreviated versions of the scripts with four person casts to take to the schools during the winter. This project is getting a fine reception wherever we have spoken of it around the state.

This is our first full year and we are still in the beginning stages of growth and development. We have need of some strong support to be able to carry out our intent. There are some fine people involved who have applauded our efforts. Senator Bob Smith is trying to find some time to help us out. Phyllis Marriott and her family are very enthused. Mark Austed's daughter, Wendy Durfee, is assisting with our costuming department. Russell Chase helped with the research. There are many others to whom we owe a debt of gratitude. But we do need more help, especially in funding such a project.

We have a really great idea for a fund raiser to get us going. We would like to have a "Governor's Luncheon Garden Party" given by Governor John Wentworth. We had thought of this some time ago, but due to circumstances beyond our control, we have not been able to execute the plan. We have all of the arrangements made. The place is to be the Lake View Inn. The press has been alerted to the possibility of this event and the invitations are designed. Thomas Dodson, a fine portrait artist, has completed and donated a beautiful rendition of the Copley painting of John Wentworth, which would be on display at the luncheon and we would like to lay out a maize for the entertainment of the guests.

The Endangered Species Act

2 July 1990

To the Honorable John Sununu:

Crucial balances in nature are delicate. The
unmist thought is undisturbed. Nothing goes unnoticed,
every twig broken, every bursting sycamore rising through
the trees. We are each of nature. For some this goes on
unrecognized through life. Nothing is left of that human
light after death, which goes beyond nature. What is divine
in nature must never be broken; it is said the spirits
of heaven is within even every leaf. If humankind
patterns life on activities we must realize natural
limitations within these activities essential to life
both human and animal. The Endangered Species Act
respects all life. There are powers beyond this world
and they are everlasting. You must yield to stop the
destruction of Northwest timberland and habitat of the
spotted owl, endangered species, otherwise you would be
most grievously in the wrong. This would be unfortunate
for all respecting your high office.

Sincerely, Kathryn New

OS WITH
ACCOMMODATING
RESPONSE

Mr. Millsbaugh
... a possible new site for an American Embassy to be on the Potsdamer Plaza in Berlin

July 5, 1990

Governor John Sununu
Chief of Staff
The White House
Washington, D.C. 20500

Sir:

During the summer of 1988, I had the privilege of serving with you on the Resolutions Committee of the Republican National Convention. At that time, you most graciously assisted me in advancing some amendments to the defense and foreign policy sections of the national platform.

My interest in foreign affairs has led me to perceive a unique diplomatic opportunity for the United States, which requires immediate submission of this suggestion.

The situation now exists where the German Federal Republic is considering the relocation of its national capital from Bonn to Berlin, to take effect shortly after the de facto unification of Germany in December.

The national debate within the German Federal Republic (and its three eastern new provinces) is reflected at the local level of the Berlin city government in its decision as to the future land use of the city's central Potsdamer Platz and Leipziger Platz.

I propose that the United States government immediately make known to the German Federal Republic that the United States would deem it a special honor to have the site on the Potsdamer Platz, selected to straddle across the former boundary separating the western and eastern zones of Berlin, reserved for the future site of the United States Embassy.

And I further propose that the United States government make it known that it would deem it a special honor if the United States were the only nation to be permitted to place its embassy at the center of Berlin.

It is clear that an action of this nature must be taken discretely, as the prior, formal, acquiescence of the Soviet Union must be obtained by the German Federal Republic for the transfer of full sovereignty over the lands of the eastern zone of Berlin. This acquiescence would be required in the form of formal treaty agreements concluding the World War II Allied Powers occupation of Berlin.

***** 06-Jul-1990 *****

215 Spring Lake Dr
Mineola, Tx 75773

745-68 Mr. and Mrs. Kaup
Chief of Staff John Sununu
The White House
Washington, D.C. 20500

Dear Mr. Sununu:

Since our country was organized and a flag adopted, our people have always carried our flag high in almost revered exhibition. We used to have unwritten laws to display our flag on the right, front, and above any other flag. We used to use extreme care in preventing it from touching the ground, take it down at night and in inclement weather and fold it neatly before storage. Our flag has led our soldiers in battles for freedom, and our soldiers died while raising the flag as on Iwo Jima. But the Supreme Court found it necessary to ban any laws pertaining to the care of Old Glory. Please, please do all you can to convince others of the importance of honoring our flag.

We also must do something about the decaying morals in our country. Soon, God will cease blessing this country, which He has done since our forefathers founded this country and formed the constitution in His name. We need effective measures to be taken, such as constitutional amendments, to extend our constitutional rights to unborn babies, get prayer back in school, put pornographers out of business, and allow homeowners and businesses to refuse to rent to homosexuals or people who want to shack up together. And why should our freedom to worship and to bring up our children decently be severely threatened by laws and courts that imprison soldiers of Christ that are trying to rescue unborn babies from certain death?? There are many cases of these brave rescuers being held indefinitely in jail without being charged. Can we count on our President to lead the fight to allow us to regain favored-country status in God's eyes?

We also need to do more about controlling the consumption of alcohol. For our youth it is habit much worse than illegal drugs, and legal too, and because it is socially accepted by adults in public and private our children and youth are using it freely. A return to prohibition may be in order. Our leaders could at least restrict the advertising for beer and other liquor which glorifies it - as one commercial states "it can't get any better than this" - but it has gotten worse.

~~We also urge you to push for the cut of all funding of the NEA since they will not police themselves. Perhaps if Mr. Frohnmayer's job was threatened he would comply.~~

~~We would also like to stress the importance of balancing the budget without new taxes. We read and believed Mr. Bush's lips prior to his election. There are many government wastes (such as the \$200,000 rosewood table for the World Economic Conference in Houston), foreign-aid packages (we are now one of the most indebted nations ourselves), NEA, etc. that can be easily eliminated.~~

For S & L bailout, we think that Mr. Ely's suggestion to replace FDIC & FSLIC with a tiers of privately-owned insurance companies is a good one.

Yours sincerely,

Edmund R. Kaup & Pebble L. Kaup

P.S. We are praying for our President every day.

Ms Linden

1607 No. 9th St
Tacoma, Wa 98403

To: Mr Lineman

We fools out here are watching the changes occurring in Europe - I surely hope West Germany will start paying the bill to bail out the Russian govt. We rebuilt that Country with our tax monies - We provided all the military protection for their inflated economy - The U.S. taxpayers paid the ticket for years. Time they put out some money to enhance their own economy - We gave them so much money over the years, they can adequately support every east German. We have also done the same for Japan - so we are broke & they have the money. Let Japan straighten out the mess in the Philippines - I know Corey skins never can do a thing - Wake up America. Our Country is broke - We have a Congress that is not working - I do have some faith in the President. I am sure he is not responsible for his son's actions. Let's quit throwing money at everyone - They hate to be indebted to anyone as I would. Let our country come out on top, where it should be. Let them pay, pay, pay. Like we did and still are.

Sincerely,

Elice Linden

Mr. Rugala

the federal budget deficit

July 9, 1990.
13 Jensen Street
East Brunswick, N.J. 08816

Office of the President
White House
Washington, D.C. 20515

Attention: Mr John Sununu Chief of Staff.

Dear Mr. Sununu,

Enclosed herewith, are two articles by syndicated columnist Carl Rowan and Otis Pike which might be of some interest regarding the budget deficit.

Paragraph 5 of Carl Rowan's article indicates mortgage interest deductions amounted to \$35,110,000,000 revenue loss in fiscal year 1989. Would it not be, a subtle way to reduce a portion of the debt by limiting the deduction to only one home.

According to Otis Pike's article a double and triple dippers receive cost of living on all pension. Here again by limiting the cola to only one pension which would reduce pament substantially. We cannot afford such outlay since it is my understanding that the federal pension system is unfunded by more than a half trillion dollars.

I am sending this information, hopefully it can be some benefit to the executive branch in dealing with the huge deficit.

Respectfully yours,

Victor A. Rugala Sr

Who wants the blame
ship - Mr Bush is a
of such team workers as you, Baker, Kemp, Dole and
yourself... the switch board operators weren't happy but
Baker recently won my admiration - this no-nonsense
Texan can match justly Shamir's abrasiveness -
Thank God! - Kemp has shown how how and
compassion - and Dole, well, he can muster a caustic
barb or two when needed. for our friends on the
other side of the aisle

"Barron": I suspect the enclosed views (granted
lengthy) reflect the concerns of all Americans -
drugs, violence, aids, the homeless, sordid "S & L" mess,
corruption - there is consequently a vague sense of
uneasiness - a disturbing malaise.... I think it
took guts for Mr Bush to make his no war tax
decision - but lets hope they'll be fair - nail some
of the loopholes used by the wealthy - they're in
a better position to bear an increase - (particularly
those with a zero base presently) than the elderly
with fixed incomes and small reserves.

I voted for the Boss and would again - the views
enclosed are probably typical - let him see how "Mr
Average Citizen" feels.... Best of luck in your endeavors

The Honorable John Sununu, Chief of Staff
The White House
Washington DC 20500

Dear Mr. Sununu:

I enclose a copy of a letter to President Bush.

Science tells us that nuclear "superiority" is dead. Each superpower can immediately, safely, in its own best interest, reduce its nuclear forces to a few hundred second strike strategic missiles, *no matter what the other one does*. The one that moves first will win the hearts and minds of thinking people everywhere.

British, French and Soviet long range nuclear missiles deny victory in any war for control of Europe. We can bring our troops home immediately, *no matter what any other nation does*.

These moves will end the fear of accidental nuclear war and balance our budget. Please help me convince the President to act.

Yours for *uncommon* sense,

JHS-68
Mr. Frueman

6/29/90

John Sumner, Chief of Staff.
Office of the President,
Wash. D.C.

Dear Sir:

I've never written to one such as you in your position before but I am completely frustrated as to what to do. No one in the Republican Party that I have contacted even answers my correspondence. But I'll tell you this. In Penna. the nominated Republican candidate for Governor, Barbara Hoyer, is going to go down the drain, and take the State Legislature candidates with her. And now it is reported in the local press that President Bush is giving her support. An unknown house wife from the Pottsville area steps into the race 10 days before the primary (Reg. Lubitz) with little political experience and no campaign money and is able to gain enough support to pick up more than 40% of the vote against Hoyer 53%, and this with no campaign funds & no organization and fighting a blackout of publicity from the organization, to the extent that they wouldn't even make public her home base phone or address, at least not to me because I wanted to help her support. — and this action based only on one

Lancaster, Massachusetts, 01523

SUBJECT: ENERGY RECOVERY / NATIONAL ENERGY POLICY

Dear John:

When you were the guest speaker in March, 1988 at our National Association of Power Engineers Power Technology Seminar at the Sheraton Wayfarer, I was in attendance and found your talk very informative. You mentioned that the nation had no oil or gas energy policy. Now you are involved in the formation of a National Energy Policy.

My concern is the problem that: CENTRAL STATION ELECTRIC GENERATING PLANTS DISCHARGE TWO-THIRDS OF THE BTU'S OF THE INPUT FUEL TO THE ENVIRONMENT AS WASTE HEAT.

This fact highlights two important deficiencies which should be addresses in our national energy policy:

- (1) The presently ignored vast waste of our nations energy resources. My literature search and calculations (attached) indicate that in 1983, United States Central Station Electric Generating Plants consumed 21.6 QUADS of energy, discharging 13 QUADS to the environment.
- (2) The effect on the environment, oceans, rivers, lakes, cooling towers receiving the 13 QUADS of energy wasted.

"THIS IS NOT THE WAY IT HAS ALWAYS BEEN DONE."

From the beginning of power generation in the last century through the 1950's, industrial plants, hospitals, institutions, generated their own power. Standard practice was to run the steam engines/turbines non condensing and use the exhaust steam for process and heating. Some smaller plants are going back to the "Co-Gen" principle of utilizing waste heat to increase their efficiency.

The isolated central stations of today have no use for the exhaust steam, and hence the "status Quo" of this tremendous energy waste from fossil fuel and nuclear plants and the resultant environmental thermal pollution. Central Station boilers and steam turbine efficiencies are in the high 80's and the generators over 90%, yet the overall station efficiency is less than 40%.

Federal funding
for the arts

June 25, 1990

Dear Governor Sununu,

The current administration's argument is that the federal government should not play a role in the arts. Yet, as the enclosed letter attests, the creation of art requires a commitment of time and resources, which in many cases would not happen without federal support. The radical innovation that is often an important ingredient of what becomes a traditional, even a canonical work, may at the outset only invite scorn from the public. A later public will try to jump on the bandwagon, usually after the artist has died, forgotten, discouraged, and convinced of failure. The historical record is full of such examples.

Certainly we cannot know what will last and what will not. I personally do not agree with many of the NEA's previous funding choices, but my objection is not philosophical but rather instrumental. I believe that the Endowment should not be abolished, but reformed, and by reform, I do not mean that it should require its recipients to toe a party line. I do think it might ask some harder questions about worth and merit and not simply reward its grants to promote the latest fad.

It is certainly ironic that the artist most valued in today's marketplace lived in misery and obscurity and died a terrible death. Of course this is Van Gogh. One of his paintings, completed in a few hours when he was certified insane, brings \$40 million, \$50 million, and now most recently over \$80 million. Certainly, his incredible popularity bears out his devout belief that he was creating an art with mass appeal. Yet he could hardly sell a picture during his lifetime. If we leave the support of art entirely to the speculators, who knows how many Van Goghs of today will live similar lives and die similar deaths, only to have their works be worth hundreds of billions a century from now?

Is that really what we want? Art requires a marketplace, but as was certainly true of the France of Van Gogh's time, government support legitimates the marketplace's choices. Its role never has been--and cannot be--negligent. From the Athenian polis until today, this is true. I urge you to support government support for the arts.

Sincerely,

Anne Whitehouse

ED WITH INCOMING FOR RESPONSE

Mr. John Sununu,
Assistant to the President
The White House
Washington, D.C.

Mr. Sununu,
The materials enclosed describe a program which could make Mr. Bush the Education President indeed. It is designed to save time, energy, money and human lives; and we are seeking ways to use it to enhance his bid for re-election in 1992.

Our plan is to develop well-managed flagship schools in urban and rural areas to which the President can point with pride. The operation will involve ombudsmen serving the public, the business community and government - local, state, and national. Merrill-Lynch is assisting by locating business executives from nationally recognized firms to form an Operations Committee.

Obviously, linkage to the Bush administration is needed.

A major concern is that Secretary Cervero, as an academic, will not entertain this cross-disciplinary concept, especially the use of ombudsmen and the economics embodied in the program.

Would you please approach Mr. Cervero re his interest in this development?

If his response is positive, we will be pleased to work with him. If not, perhaps the link could be made with NIH since there is a positive cardiovascular factor.

We admire your service, and your advice is most sincerely appreciated.

Very truly yours,
Herman H. Slayman, Ed.D.

On vacation at The Grand Canyon.

Hon. John H. Sununu, Chief of Staff
The White House
1600 Pennsylvania Avenue
Washington, D.C. 20500

Dear Governor Sununu:

There were some obvious practical considerations in extending the invitation to Nelson Mandela to meet with President Bush at the White House. However, I do believe you agree the media generated adulation of Mandela as a role model for black Americans is appallingly misleading, and should be reversed.

To this end, I am hopeful you will consider, then attempt to undertake, the extension of an invitation to Kwa Zulu Chief Minister Mangosuthu Buthelezi to meet with President Bush at the White House, since he is the only known black South African national leader sharing our Western values, as well as being the only black leader likely to be able to prevent the coming to power of the ANC in a government which could reasonably be expected to exterminate all dissenters in the manner of the Cambodian Kymer Rouge.

It is hoped you can and will facilitate a Buthelezi visit to precede the U.S. return of Mandela in October. Properly showcased, Buthelezi would present a desirable South African role model to show that country has a preeminent black leader sharing our Western values, and help to assure Mandela is seen in the United States as the hard core Stalinist-communist revolutionary that he remains to this day.

I have taken the liberty of attaching a copy of a one page letter to our local editor, digesting major points with which I am certain you are all too familiar.

Sincerely,

C. E. WOODCOCK

*Romania's struggle for democracy for
and the concern you have for
the safety of your brother,
Dragos Nicolescu*

Mr. John H. Sununu
The White House Chief of Staff,
The White House,
1600 Pennsylvania Avenue,
Washington, D.C. 20500

Dear Mr. Sununu,

I am an active supporter of the Presidential Task Force, and I admire your decisions when I can understand their reason, while I respect those where I may not have enough information to pass judgement. †

I am writing this letter to you with one purpose in mind, TO ASK FOR YOUR ACTIVE ENGAGEMENT IN SUPPORT OF THE ROMANIAN PEOPLE'S STRUGGLE FOR DEMOCRACY.

In the first place, there is an urgent need to protect the lives of people such as Dr. Dragos Nicolescu, and keep them free and alive. Secondly, I want to urge you to support US economic sanctions against the new terrorist government in Romania.

From your vantage point, I think you can see and understand that Romania is still, and again, under the control of a terrorist regime, in spite of the sacrifices the Romanian people had to make to rid themselves of another, most criminal regime.

The spontaneous revolt of courageous young Romanians, mostly college and high school students, ended up with not more than former communist party executives and security police officers grabbing the power. They made a joke out of the elections, practically banning any campaign attempts of the opposition parties. They have been exercising the same tactics of terror and using the hands of the same criminals that had become commonplace under Ceausescu's regime. Now, their reign of terror seems to have gained complete control.

Recently, my brother, Dragos Nicolescu, who is a medical doctor and a cardiologist who provided medical assistance to the peaceful hunger strike demonstrators in the University Square during the weeks prior to the elections, has been directly threatened with death by two security officers in plain clothes. My brother is also serving as executive vice president of the recently founded Romanian Independent Union of Medical Doctors and has been actively involved in organizing this new, nationwide professional body.

Dear Ms. Sumner,

Last summer I wrote the President regarding the activation of the Shoeborn nuclear powerplant. I received a detailed letter from the Department of Energy's Executive Secretary, William Vitale. Mr. Vitale described the Administration's commitment to inexpensive energy.

I am confident that your administration will make sure that the New York Power Authority and the unseasoned Long Island Power Authority are able to supply Long Island with energy. Unfortunately, LILCO's law firms of Hunter & Willson and Shea & Gould are the only geniuses here.

I am alarmed with Quebec's plan to sever ties with Canada. New York State buys a lot of hydro power and natural gas from our northern neighbor. British

loan issue

Chief of Staff John Sununu
the White House
Washington, D.C.

Dear Mr. Sununu

I think it would be much better to get the Sth bailout paid for and out of the way as soon as possible. I think it would be wrong to borrow via Bonds and have all that huge interest added on to this disaster. In business we say "the first loss is the best loss,"

Place a Sur-tax on every taxpayer and get it done in a few years rather than passing it on to our children and grandchildren.

JHS-6B

Mr. Geo. Sumner,

The flag amendment will surely draw a definitive line between liberals and mainstream America.

If the voters in Florida are any indication of the majority mood in the country, I'm hoping the Democrats, liberals in particular, are absolutely devastated.

Mr. Bush's high rating rests on the excellent work of you and his cabinet. You have my thanks for restating the values this country was founded on and fighting for them.

Sincerely,

Art Friedgen

IRVING, TEXAS 75061

HON. JOHN SUNUNU, CHIEF OF STAFF
THE WHITE HOUSE
1600 PENNSYLVANIA AVE., N.W.
WASHINGTON, D.C. 20500

MR. SUNUNU,

First, I want to thank you very much for taking the time to read my letter. I know that an individual in your position, being the Chief of Staff of the White House, has many great and demanding responsibilities. But, my family and I believe that the issue that I wish to express our concerns upon in this letter is of extreme importance. I know that your time is extremely limited, but I hope that you will consider what I have to say in this letter and I also hope that you will take immediate action on this issue.

Mr. Sununu, the issue that I am referring to is the present condition our nations environment and its wildlife, all forms of wildlife. My family and I believe that more needs to be done for our environment and for the wildlife of our nation and that the government needs to be more of a leader in this effort, instead of being an antagonist. It is the responsibility of this nations elected officials and of those whom are in the service of the government. This does not seem to be the case with the present administration. When President Bush was elected he stated that his administration would be a kinder and gentler administration and that more work would be done for the environment and for the wildlife in that environment. Mr. Sununu, I will agree with you in that there have been a number of good accomplishments by the administration, but some of those were made grudgingly. A number of actions had to be made per orders from the federal courts. We feel that this is really a very sad situation. To allow this nations natural treasures to be lost forever just for the immediate gains of profit from development that will be gone in just a very short time. This is just not worth it. And, what is so hard to believe about all of this is that this seems to be present policy with this administration. And we can not afford for this practice to continue. More emphasis must be put on issues that are concerned with the environment and with wildlife because these are issues that affect us all. They affect our very lives. Please, Mr. Sununu, won't you support these issues of great concern to all Americans?

I am writing this letter to you, Mr. Sununu, in the hopes that I may be able to convince you to support the efforts underway in this nation to preserve what there is left of our natural areas, areas of great beauty and wonder, national treasures. These efforts sorely need your support. You are in a good position to be able to accomplish a great deal for this effort. You could work with the other members of the Presidents Cabinet to work up an administration policy more sensitive to the environment and to wildlife. You could work with the different departments and agencies in the government that are concerned with these issues and help them to be able to achieve bigger things in favor of the environment and of wildlife and less emphasis on development practices. You could work with members of Congress to ask for legislation that calls for more protection of this nations environment and of its wildlife. There is a great deal that you could do for these efforts. To work against these issues is to work against the health of this nation. My family and I are doing all that we can for these efforts. We have

JAK-1

Dear Governor Sununu:

As I told your office on the phone, we are helping to organize a Washington meeting for one of our clients, Castle-Harlan/Delaware Management, Inc., and will bring senior investment managers (primarily C.E.O.'s and C.F.O.'s) who control over \$28 billion to Washington to meet key policymakers on September 17 and 18.

We would love to have an opportunity to bring a small group of about ten to twelve of these financial experts by your office for an off-the-record chat at a time of your convenience on September 17th or 18th. These leaders of the financial world could give you a first hand report on economic conditions, and you could brief them about the Administration's macroeconomic policies.

The group would consist of important leaders of the business community--people like John Castle, the former head of Donaldson, Lufkin & Jenrette, Ed Meyer, the President of Grey Advertising, John Birkelund, the President of Dillon, Read & Company, Robert Schwartz, the Chairman of Met Life, and Robert Direks, the C.F.O. of Warner-Lambert.

Thank you for your consideration. I look forward to hearing from you at your convenience.

Best wishes,

Jack
