RE: TERM LIMITATIONS

Dear John Sununu:

The activities of the Congress has become so repugnant to me I am compelled to write not only my State's elected officials, but you as well. It pains me to think that I must oust Charles Grassley, because I trust and respect him as my Iowa Senator. But, I can think of no way to rid our Congress of the criminals, and I use that word for anyone who holds himself above the law, who maintain their positions by the very power that the people intrusted to them. Their most recent arrogance, in the disgraceful treatment of not only Clarence Thomas but the Constitution as well, in an effort to protect an ideology instead of the rights of a Man, is the proverbial straw.

I respectfully request that you use the full power of your office to accomplish the limited terms of Congressmen. Power is a corrupter of men, and there are no Gods in Congress.

Dear Mr. Sununu:

First let me say I do have a copy of the CNN Crossfire tape which featured a subliminal saying "Let us be magnanimous in this hour of our peaceful ideological victory over communism." (in fact I just looked at it. I thought I taped the Dayton 500 over it but I was wrong. God figure the cultural, sociological, psychological, political and religious connotations associated with direct use of such tools in the hands of radical leftists. I know I have and it scares the hell out of me. As your average concerned Republican partisan citizen I bring it to your attention yet again. Note that CNN is in total denial over this. Next the David Duke deal. How you can allow these Democrats to get away with this is way way beyond me. This is hurting our Party badly and you know why they are

doing this. Its going to be Bush-Duke type
ads in '92. They plan to wally Horton us with
Duke.

Are you folks just lazy or incompetent
or do a few liberal wackos just out smart you?
The Barney Frank BS now Duke. Not even the
basics are done.

I was frankly amazed the President
came out and attacked the Democratic leader-
ship in the House and Senate. Years too late.
The Budget Deal now the civil rights bill
The Democrats may be trying to run the
economy into the ground but the President
isn't hitting back at them hardly at all.
You have zero media. There has to be
someplace administration folks can go to to
speak frankly on issues. I am ashamed that
Republican leadership in this day and age with
cable ect. doesn't have any real "friendly"
media. Its pathetic really. Liberals like
Brinkley, Face the nation, Crossfire ect are
kicking not to mention Nightline. What is the
holdup??? You could make that show a top
political show on a weekend or two with top
administration folks in there.
You want ammo? I expect someone

over at the White House, has C-SPAN on and watches the House in session. Man of the press covered that at all like the unemployment comp extension deal the Democrats would go crawl in a hole. You have no exploitation of Democrat weakness. You do want a Republican Senate and House right ???

Democrats are going to hand you your heads in '92 if the basics aren't taken care of any real soon. Cuomo and Wilder are getting away with blaming the President for nearly everything. The RNC does little now. Where is their regular push? Where are the exploitation of the Thomas hearings? You know the Democrats don't have to do a lot of this because they own the media. We have no media so we have to go the EXTRA mile. "Why don't we set up a Governor lobbying action aimed at Congress to CUT the deficit? Bring Governors to Congress and have them lobby for an overall cut in the deficit? Point out how the deficit hurts states.

Call for priority spending in the Congress so we don't have pork additions. Get that ammo for the election next year.

By all rights we are heading for a disaster and Democrats will blame it on us and get away with it. They've done it before and will do it again.

Looking at it now perhaps we will have the socialist Party and Democratic Party in just a few short years. Its folks like you who can change it.

The enemy has made so many mistakes that we fail to capitalize on its pathetic.

We have zero support in the media for just our moderate positions. Failure by us means

more radicalization which means trouble for this nation. Liberals are set up for upheaval.

Here their cash is in the bank or backyard.

They are preparing now for their future planned upheavals. This recession was unnecessary and

the upheaval is unnecessary. Remember it can happen. I'm reading "Red victory" today. We

could even have a Cambodia here. If the basics aren't done.

Sincerely
Bill Rore

HOW THE 1,000 POINTS OF LIGHT BECAME 999
(DAVID 11:91)

And it came to pass that King George of Burning Bush became angry. He forgaveth debts, but no one forgiveth his. He punished Saddam for being led into temptation, and he was delivered from the evil empire. And King George pronounced his ultimate wisdom with the 1,000 points of light, only to be betrayed by the Duke of Swamps. For the Duke, you see, misunderstood. He meant his ways of hate, bigotry and anti-semitism and became a Republican. The King had saideth unto the Duke, " I sayeth, 'Mend your ways of hate, bigotry and anti-semitism and become a Democrat. Yea unto thee, let this become a democracy'." An angel suddenly appeared to the Duke and sayeth unto him, " Oh, thouest who trapist around 'neath bedsheets, why do thee who keep undercover be denouncing thy past ? Can it be that thou knowest that it be best not to launder dirty linen before public ?" To which the Duke of Swamps replied, " Oh, mighty angel, I have seen one of a thousand lights. I have become an honest politician and seek only to fill my cup with truth and humbleness." Sayeth the angel, "Thy cup runneth over, but not with truth and humbleness. Thou ART a politician."

And so, bretheren, one one-thousandth of the points of light became extinguished. King George of the Bush pulleth the plug. So it be.

Dear Governor:

I am Dick Rounne (R-Orange County, CA)
I watched you on "Face the Nation" and have
a few suggestions.

- 1- you should realize by the election today
in Pennsylvania and Washington - which
ever way they go - that the people are really
fed up. I'd alone the David Duke one
coming up.
- 2- Last night Duke talked about Thomas (a
was for him and am for Gates) being
married to a white woman. I have heard
that alot out here in conservative Orange County
since the circus on TV. "Why - I didn't
know he was married to a white woman!!!
I don't like that". It doesn't make any difference
to me - but right wingers!!! Maybe look at
the "far right" for the leak.
- 3- I think you are on the wrong track with your
attacking the Congress and Bush's statement
"Those old men in Congress haven't had a fresh
idea for years. I agree - especially Thurmond,
Helms, Cranston, etc. - But then come the
dedication for Reagan's Library and the old men
and women there. You might say the same
for the Presidency. I am for term limitation
but I am also for limitation for President. He
has to be at least 35 years old to run. He should
be no more than 65 to run.

THE WHITE HOUSE

WASHINGTON

November 14, 1991

Dear Tim:

Chief of Staff John Sununu asked me to respond to your recent letter regarding his background and current responsibilities at the White House.

The primary responsibility of the Chief of Staff is to manage the President's agenda and the day-to-day operation of the White House. He oversees the development of domestic policy, communications, staff, budget, and relations with the press, the Congress, and State and local governments. He accompanies the President to most meetings and events worldwide and is often called upon to speak on the President's behalf.

John Henry Sununu was born in 1939 and spent most of his childhood in New York City attending parochial elementary school and, later, the La Salle Military Academy in Oakdale, Long Island. He went on to study engineering at the Massachusetts Institute of Technology and earned his Ph.D. in 1966. While he proceeded to distinguish himself as an educator, engineer, small businessman, and community leader, he is most often remembered for his work as Governor of the State of New Hampshire. He was elected in 1983 and served for three terms until 1989, when he was asked by President Bush to serve as his Chief of Staff at the White House.

He and his wife, Nancy, have eight children. In his spare time he enjoys skiing, golfing, reading, and collecting baseball cards.

Governor Sununu is proud to be serving as Chief of Staff and feels that his diverse experience as an engineer and as a leader in both State government and private industry could be of special benefit to President Bush's Administration and to our nation as well.

I hope this information is helpful, and it comes to you with Governor Sununu's best wishes.

As usual the news media is at it again. The vote in Pa. was no big deal to me. I have a grand daughter living in Pa. Re: Your response to my letter to Dr. Sununu detailing NIST's
multiple erroneous and prejudicial thermodynamic analyses.

It is an outrage after eight years of DOE-NIST run-around for you to recommend that I go around DOE to NIST again, which never admits its mistakes only covers them up with other mistakes -it took a year to even get an initial response the last time around. Furthermore, my last letter to NIST (Lyons) went unanswered after Lewitt, Johnson and Lyons had refused to review -at first Lyons said they would- the clear mistakes in their analysis, on which they relied to deny recommendation to DOE. That DOE's C&R repeatedly and apparently deceitfully pretends NIST will act correctly toward this discovery is the problem, which you are perpetuating, and which has cost me dearly.

It is again sad to have C&R, when faced with this significant engine discovery which could energize the nation, evade consideration of the unfamiliar by hiding behind NIST's clear and incorrigible mistakes, which have been repeatedly brought to C&R's attention, and which certainly C&R has the competence if not the desire to correct.

Dear Mr. Sununu;

Elvis Presley was a man of extreme talent, a talent which he shared with others. His music redefined American Popular Music in the 1950s, a change which is still felt three decades later. His music not only changed things at home but also and still is recognized around the world drawing people closer together. Elvis was a "goodwill ambassador" of sorts for the United States, many foreign fans have a good attitude toward America because of Elvis's contributions. He proudly served in the U.S. Army and strongly supported our government and its principles. He gave millions of dollars to help improve the lives of others. Because of these things, I feel Elvis Presley deserves a Presidential Medal of Freedom. Please consider him for this honor. And would you be so kind to send a reply to this letter. Thank You.

Dear Mr. Sununu,

As you are Pres. Bush's "right hand man" I am writing to you instead of Pres. Bush as I know he never sees the letters.

It was my understanding the Pres. was a Bi-Partisan Pres., yet I don't believe he has accepted one bill sent to him by the Democrats, but veto every bill they have sent to him and then blames them for everything.

It is my observation that many of the best helps for the economy, poor and middle class come from Democrats.

The President and most Republicans only care for the rich, lobbyists, corporations and mostly foreign countries and have no logic to their thinking.

I would like to know how much time has been spent in the Oval office by Pres. Bush? It seems he enjoys the office with all its comforts and visits to many foreign countries. The have a Secretary of State for that purpose.

Cutting interest rates for banks, doesn't help anyone but the banks. It is not passed on to customers. Bank credit card interest is 19.85%.

Is that helping narrowers? I'm afraid not.

I can't see that the Democrats are trying to play politics by helping the unemployed. Republicans could care less for the poor.

I'm living on Social Security and Medicare and you'd get a big surprise and not live too well. One prescription medication is 201.88 for 100 tablets.

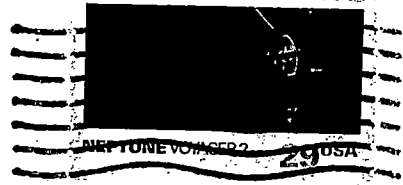

Who, living on Social Security can afford it? For one prescription takes almost half of their monthly income. Yet the Republicans keep cutting Medicare benefits & using our Social Security Trust Fund to cover their elaborate living. Fair - hat!

Is Pres. Bush the only Staff Member? If not who is the Sec. when you are Pres. Bush's "body guard" everywhere he goes?

I could go on & on but I'm so disgusted with the falsehoods and egotistical Pres. and Republican I get too upset to continue.

Dear Chief:

My opinion of you was raised today via television Face the Nation. Referring, of course, to your escapades in expensive flights by your self.

My subjects today is the Health care and Education departments. These additions to Government administration plus other not yet mentioned by me, are not for federal government to be involved in. That these are State babies, for the various States to administer. These and others, health, education, and welfare are, State, should be involved in, not Federal.

As I see the political folly of these United States, the more the Federal takes on the more problems we have.

As you know, there were originally TEN departments of government. And that really is enough to manage. There is no need for the Federal Government and it's millions of people in all the bureaus that have been included in the managership of the Feds, the worse Government becomes.

Permit me to include the States Rights which has now become instinct because of Federal Take over. Therefore let's talk another language of putting right things in the right places.

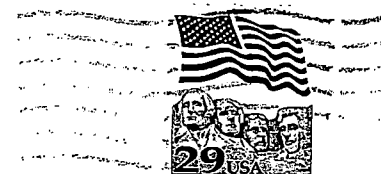

While the Federal Government is preposterously incompetent in the right management of this nation, let us drop some of the departments not advisably operated. And there could be more..

Dear President Bush,

Since you have been in touch with me REGARDING my position on S.D.I., since 1984, I am surprised that one of your aides elected to forward my letter to the DOD instead of ASKING you to consider its contents. I had forwarded to you excerpts from Mr. Stanley Orman's article on (GPALS) Global Protection AGAINST Limited Strikes. Mr. Orman did not write a letter to you at all.

And since you may recall, I had worked closely with Bruce Valley from the Pentagon's public Affairs office AND who was at one time in the SDIO office under Gen. Abrahamson, I would have preferred a response to my questions about your GPALS approach rather than a magazine and report. However, thanks you for the material.

Since it is my belief that A Collective World Defense Organization is a utopian dream, that in reality each NATION HAS Independent defense problems which require their own Sovereign governments' decision making process, I view the transition into

the proposed One world Government defense system
is putting the continuance of our own National Sovereignty
at great risk.

It is quite foolish of us to give, sell, trade
what was our technology edge to those nations
which have given us respect only because of
our strength. I could understand it if we were
to help Sweden and Norway deploy off the shelf
technology and anti-Submarine technology. But
I have little respect for those in the computer
industry - such as here in Silicon Valley, who at
the cost of our national security, furnish those
who pose as our allies, with computer science
which will lead them to control space. The Soviets
said some time ago, "whoever controls space, controls
the world". The race to expand the computer market-
place should first consider patriotism. Our Capitalists
need positive reinforcement for acts of social responsibility.
For it is your Grandchildren and mine who may well
end up looking at the propagandists "Socialism is
Good" sign in Washington Square.

Sincerely yours,
Janey Giverson

P.S.

My sincerest Congratulations to you on the confirmation of Judge Clarence Thomas to the Supreme Court.

Since I was involved in the Judge Robert Bork battle and was dismaged when Sen. Kennedy took credit for his defeat, (along with Jesse Jackson) it greatly concerned me that their network had perhaps promised Anita Hill great stature amongst this group and I was heartened to see that you were able to win this battle.

In view of the serious breach of internal security I would recommend that we review Robert Morris' opinions on the state of the Senate Internal security. He can be reached at (908) 872-4186.

Also, REGARDING CALIFORNIA'S Senate Race FOR THE WILSON / Seymour Seat: Gov. Wilson's popularity here is AT AN ALL TIME LOW. This does NOT HELP JOHN Seymour.

I believe that Diane Feinstein will win unless Bill Allen gets some help from the Republican party. He is the Republicans best bet now.

P.S. Also Congratulations on the success on the recent S.D.I. Experiment.

COMPILED FROM TIMES TRIBUNE NEWS SERVICES

A crucial step toward treating multiple sclerosis might have been taken by researchers, who have identified two types of white blood cells that are thought to cause multiple sclerosis by attacking nerve tissue.

In a study published in the current issue of Proceedings of the National Academy of Sciences, the research team reported that they isolated the white blood cells, or lymphocytes, that appear to attack myelin, a protein that covers and protects nerve cells. The loss of myelin is the key event in the progression of multiple sclerosis.

Halina Offner of the Oregon Health Sciences University in Portland and a co-author of the study said Tuesday the research "closes the loop" by verifying earlier animal studies that showed multiple sclerosis could be caused by the action of these lymphocytes.

Offner said a peptide, or compound, that blocks the destruction caused by the lymphocytes is now being tested on 11 MS patients in Oregon.

→ **The Bush administration** says it is willing to consider limits on deployments of new space- or ground-based defense systems against ballistic missiles.

The White House said Tuesday that U.S. negotiators have offered the new approach in talks in Geneva with the Soviets on defense and space.

Administration officials said the shift stems from President Bush's recent nuclear arms initiative, which has triggered an arms race in reverse.

Bill Allen's election will affect the entire nation. He has the intelligence and passion to stand toe-to-toe on the floor of the U.S. Senate with the likes of Teddy Kennedy. Suddenly the media will need to pay attention to someone besides Jesse Jackson.

"The three most important things to understand about Mr. Allen is that he is a black conservative intellectual -- a triple threat to the liberal establishment."

Dear Governor:

For crying out loud... HELP'. Day after day my senses are unceasingly assailed by folks who know no mercy all of the liberal persuasion. By the media, politicians, bureaucrats. all sorts of spokespersons, reporters etc. etc, who bombard our country with insidious, venomous statements, inuendos, sick metaphors all pouncing lashing, searing, tearing distortions heaped on President Bush. Why everything they can possibly find wrong with the country they blame on him and his supposed ineptitude. They blatantly accuse him being the cause of all the country's troubles. They salivate happily as they distort the facts. They leer with with the pleasure of doing him in. They smirk with satisfaction as they ascribe to him a lack of sensitivity and lack of compassion. They even dare to subtly infer that the president's character is wanting.

Oh where? oh where? in the face of this onslaught is the White House? Where are the rebuttals? Where are the guts to stand up to this sickening, revolting attack which seeks to discredit the president at every turn. Are you all above this fray of defending the president? Are you all taking the high ground being kindly gentlemen standing blindly, demurely by while the president's credibility is subtly yet unceasingly eroded? My

guess is that if you continue to be "Nice Guys" the insidious attacks will grow ever worse. Your very inaction will encourage the opposition to forge their attacks into a ground swell of such dimension which will gradually, actually be believed by enough of the voters with the very likely result that you can kiss the White House good bye in 1992 by losing the presidency by default.

Why can't you get the president to ^{regularly} talk to the American people on what his domestic program is, in detail, what his dreams and hopes are ... inspire them to a brighter future. Let him spell out the legislation he submits to congress and what happens to it in the House and Senate. Explain the reasons for lack of progress... about the D.O.A. programs that stay buried in committies in both houses etc. etc. You're probably too young to remember the fireside chats of F.D.R... something of that sort could be done to reach the voters with facts and truth. He could ask for their help and support... folks would know where he stood... no more "Mr. Nice Guy" but tough and honest and determined holding firm to his convictions (that is what got him elected in the first place). Spare the electorate the sickening cynicism, the hypocrisy in the political arena and restore pride and confidence in our system.

It's that bad that, at the moment, folks are told over and over that the president cares more for foreigners than he does for his own people. It's high time to stand up and fight to set the record straight. WAKE UP, White House Staff! you could well be well on the way to lose this ballgame while you demurely sit by as your president is heading for the political fight of his life. Fight for him for heaven's sake. I'm a retired businessman, go back to the days of Hoover and F.D.R. with no ax to grind. I do have some political savvy. Laugh at me if you will but FIGHT BACK!

Dear Governor Sununu,

The "message" from President Bush from Houston, was absolutely tremendous. I heard Senator Mitchell, via "C-span" tonight and wrote to him a strong opposition letter. His "staffers" will make sure he does not get a chance to read it. That, I am sure of.

I notice great "Democratic" opposition to defense budgets, in spite of recent intelligence concerning enhanced nuclear development in Iran, India and Pakistan. That comes as great concern to me. Frankly, I fully look for Iraq and Iran to join forces in the months ahead.... with full cooperation between nations mentioned above..... in addition to N. Korea + "Red" China.

The "Democratic party" — obviously does not know what is at stake in terms of national defense. — if large budget cut proposals are, in fact.... being proposed..... I'm sorry to say.

I salute "C.I.A. Intelligence" (satellite) for being "on their toes". It will be key before long.

As far as Madrid: Frankly, I would "pump-up" Israel defenses, if at all possible — with all due speed..... if it were me, calling a "spade, a spade". It's not hard to see the "handwriting" in the Middle East. Further, many missed the ABC Barbara Walters / "Arafat" interview on ABC, "Nightline". That was as "revealing" as it gets on public media — TV or print. Watch it, and see for yourself. Get rid of "Arafat" in the "talks" + you will go far in gaining peace in the region.

His unworthy name was brought up there in Madrid and after that one particular ABC interview..... the "pieces all fall together". Israel / Shamir — "hard line"? I would certainly hope so! Whatever is now, "under the table" from a U.S. standpoint..... is "no secret" from a Jerusalem standpoint, + for good cause.

Syria, Jordan + Lebanon — have had their
chance, now. "Let it go" — period, OK?
Israel can handle the situation — no matter
what..... UNLESS IRAN gets a strong
"arm's" base — from whoever, you can
bet Iran / Iraq will attempt to join
forces, now. I've got \$1000. in cash that
says I'm right. I've got my eye, not on
China —, but India + Pakistan — where it
belongs.

Think about "JFK" + "Cuba" — for a minute —
sir! Reagan did well by keeping defense
budgets high. "The ultimate defense plan" —
defense budgets. Key — sir, "we won", period.
But — we did "pay a price". It was costly.
Few Americans can "visualize" what "things"
could be like..... because they never had
to pay the price like Stalingrad did with
Nazi Germany or like I did at "Khe Sanh",
OK? (Or like O. North did in S. America).
Bottom line — jokes versus serious nuclear
Threats or more Desert Storms.

Times may be "Tough" — because of large
defense budgets under Reagan — but, it
could be a lot worse. Saddam Hussein
in "Saeedi" oil fields is a classic example.
People forget — real fast. ... I'm sorry to
say, people here also forget about what
nuclear arms are alive & well inside
the U.S.S.R., China, India, Israel, soon to be
Iran, perhaps Iraq — could be Libya —
"lets be honest"!

Please use this truth in the election!
For God's sake — tell it like it is!

BEING FREE IS EXPENSIVE!!!

I'd rather be "unemployed" than risk
being a piece of charcoal". Just ask Sec. Cheney
and I'll "shut up"!

Mr. Sumner — no one on earth loves
Pres. Bush, his staff or you — more than
I do believe me!!

There is one major problem however.
Pres. Reagan and bank decontrol in 1981-82.

I've heard — point blank what Mr. Seedman
has had to say — and the "RTC" has, so
far — done a miserable job! I have
documented proof of that fact, that is not
to say.... that Pres. Bush is at fault!

But he is paying for it!! And will.
And so am I + you.

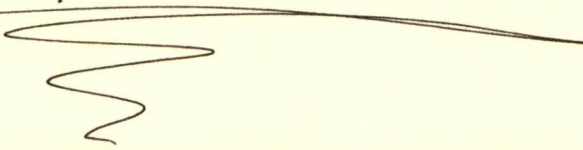

Now you know where the Bush/Reagan "line"
is, I hope. Reagan: Great foreign policy —
it will save billions in the years ahead,
Defense — well — combined with soc. security,
+ medicare — that doesn't leave much in
national budgets. Was it worth it? I've been
to the sink. I've been to "White Sands", I've
seen Iraq "open face" — I remember Cuba
under JFK — so don't blame "Ollie North".
If Pres. Reagan "knew" — fine, NO PROBLEM!
Remember — Jack Nicholson in "Easy Rider" —
"Oh, I've got a helmet, it's a beauty"!
Honestly — that's it. Pres. Bush — hit the nail"
dead center in "Houston" — no doubt"!
(I'll be in touch w/ Mr. Black).

and I'm asking, in person, Gen. Schwarzkopf's
personal "Bush" endorsement. But - do this,
if nothing else — please educate people
on Reagan defense budgets (why). and
be careful on Bank decontrol under Reagan.
If you hate me now. . . . you hate me, OK?
"Bush" is NOT, Pres. Reagan, and I'm about
as "conservative" as it gets. I don't hate "Reagan"
but bank decontrol was a BIG mistake.
That isn't hard to see. (— \$500. Billion).
But — The U.S.S.R. — "bully up" — makes up for
it. The 3 yr. olds will see it — at age 25.
Too bad "politics" is right "got dam" now.

Best wishes, sir,
Steven Labadie

P.S. how's your stamp collection coming along??

My dear Mr. Sununu,

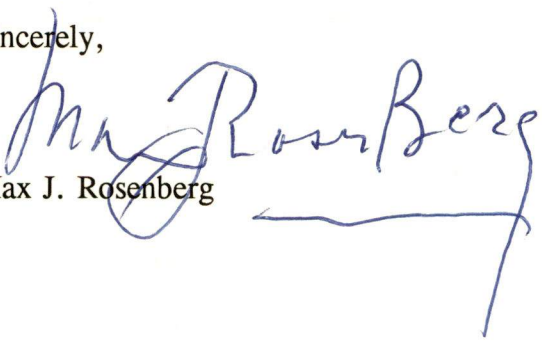

I was graduated from the law school at St. John's University in the top ten percent of my class. The first fee I earned was \$150.00.

In a later class, Mario Cuomo graduated at the top of his class. He, too, had difficulty in establishing himself as an attorney.

Mr. Rogers went to Alabama Law School -- Good gosh! What is Alabama Law School? -- and he never practiced a single day. As his very first client, he got someone who paid him \$600,000 as a fee.

I think an explanation -- candid, open and complete -- is due me and everybody else similarly situated.

Dear Mr. Sununu

Oh you don't believe my letter on
Rush Limbaugh. That he is a liberal who
was placed in that position and who will
soon fall - loudly. I wrote him a letter
in January last year telling him he was
a fraud and would fall. What was the
response? He lost his temper on the air
and said "I will not fall I'm here to
stay!" Yet the next week he announced all
sorts of deals he would be selling to make
his money now before the fall. I was
shocked by his temper shown on the air
just a week after I sent out my letter.
Couldn't happen you say?

Look at David Duke. Suddenly saying
he's a Republican. State Rep in Louisiana. The
liberal media made him an international star.
I don't think he was even in our Party
yet in the Des Moines Register they have

"GOP" written on him as a cartoon. Look
this is a psychological step. Today there
were 4 letters to the editor decrying
Duke Bush and our racist Party. Now they
can create their own feeding frenzy topic.
Where did all his money come from? I
bet he got a lot from liberals. They can
do this to make their point. A Grand
Wizard and Nazis — can't you see the total
radicalism there? It's a sure sign that
it is a liberal "operation." This goes way
beyond the "dirty tricks" of normal cam-
paigns. Larry King has him on twice in just
a few weeks. Can't you put two and two
together?

I saw this way back with Barney
Frank. They built him into a star then
grabbed headlines with lies and fraud.
He needed no pro. His momma could get
him all the boys his sickness needed. It
was all for show. You know I am the
only one who apparently saw through that
BS. It was another one of their operations.
What happened to the backbone of
our Party? The religious right? Jim and
Tammy that who. That was another operation.

You folks are reacting way late and based on their facts. I keep waiting to see the President come out and say David Duke is not in our Party. With the RNC chairman and the rest. It don't matter however because the media is walking lock step along their Party line.

After the President is defeated which I think he will be (since we have no basics being done not even offence and defence) look at the shape of our Party. Slimed by David Duke and with poor minorities in the House and Senate. Bush and Hoover will be the same. Then Democrats can start a "New Deal" full of socialism.

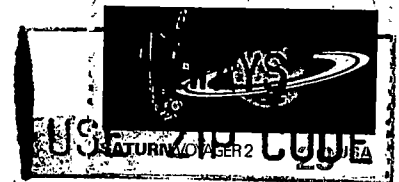

They are going to pick away with such operations until no one is left in our Party. Liberals want a Democratic Party and a socialist Party so we will fit into "Globalism." Like I said last year our Party is already dead. The President is nearly going along with it - the budget deal of last year and the civil rights bill this year.

The lack of media means we are
doomed to poverty and disaster in the
future. They understood that and that's
why they spent so much on it. The
nation doesn't deserve that but Russia
didn't deserve 1917. Cambodia didn't deserve
1975.

Sincerely
Barb Roore

After the President is defeated
which I think he will be (since we
have no basis being done not even offense
and defense) look at the shape of our
party, shaped by David Duke and with
poor minorities in the House and Senate.

Democrats can start a "New Deal" full
of socialism.

Dear Governor Sununu:

I listened to your interview on Brinkley's program Sunday, October 20th.

The question on lack of an Administrative program for health care was posed to you and the response startled me and no doubt other millions of Americans. Your response that the Administration was waiting for a proposal by other agencies or groups. This is absurd as the problem of health care coverage and financing is becoming increasingly acute and disastrous for millions of Americans. The Administration must lead or the criticisms on its domestic policies will be much earned.

On July 31, 1991, I sent you a copy of my proposal in detail on this vital matter. Your brief acknowledgement thereof dated August 9th was very disappointing, whether good or bad. Feed-back is extremely important to me as I am continuously pressing members of the Senate and House, magazines and associations for action on this very important matter.

The issue is politically dynamite for the next election. Did you listen to Jerry Brown's announcement in Philadelphia today? Do not shrug it off. His appeal concerning health care will be a real vote-getter as millions of voters who do not understand much else will vote for him on this issue alone.

Further, on September 13th, I sent President Bush a letter - copy enclosed. To date I have no response. Could it be that your staff complied with my request for the President's attention?

I am enclosing herewith a revised copy of my proposal as page 3 (the tax computation) was corrected.

Again, I respectfully request a more critical response whether good or bad.

Respectfully yours,

Peter N. Stavru

Re: Health Care

Dear President Bush:

Many in Congress and elsewhere consider health care needs this nation's greatest problem. Much is being said in the media, in public and even in Congress where many health bills dealing with our dilemma are poised for action.

At the risk of sounding disrespectful, I ask, why the almost complete Presidential silence on this problem. I know you are a very busy man and rely very much on your staff's judgement and assistance. How much serious advice and assistance on health care are you getting from them?

Because of great need for profound fundamental reforms in our present hodge-podge inadequate health care ways, I am enclosing herewith certain letters and a proposal for universal health coverage and specific details for universal financing. I urge you, on behalf of all Americans, to take a few minutes before retiring for sleep some night to read the material submitted. At the risk of appearing "a know-it-all", I believe you will see our health care needs from a different and perhaps useful perspective.

If I can be of service in this matter (without compensation), I would be happy to do so.

Sincerely yours,

July 29, 1991

I am a Civil Service retiree. My background is this:- 14 years in public accounting; 12 years in executive positions in industry and last 6 working years with the Interstate Commerce Commission in Washington, D.C. as Assistant Chief and Supervisory Financial Analyst in the Bureau of Accounts. I am 78 years old.

My interest in health care, particularly that of the uninsured and long-term care and its catastrophic consequences which have been "snow-balling" rapidly with time, results in this writing.

I have written at great length to many in the House of Representatives and the Senate. Most of their responses clearly indicate lack of full understanding of this nation's major problem. Some responses have been encouraging. Tackling such problem requires "guts" which Congress does not have, or are influenced by insurance lobbyists and political matters.

WHAT ARE THE PROBLEMS OF HEALTH CARE

Senator George J. Mitchell in his speech as recorded in the Congressional Record dated June 5, 1991, (for himself, Mr Kennedy, Mr. Riggles and Mr, Rockefeller) proposed S. 1227, " a bill to amend the Public Health Service Act, the Social Security Act and the Internal Revenue Code of 1986. Thus bill purports, "to provide affordable health care of all Americans, to reduce health care costs, and for other purposes".

Senator Mitchell recognizes the high cost of health care, its deficiencies and its financial burdens, when he writes, "The United States per capita spending on health is approximately one-third higher than Canada's, double the spending of Japan and the former West Germany, and three times the amount spent in the United Kingdom".

"Yet, inspite of the amount of GNP spent of health care and our Nation's advances in medical treatment and technology, our health outcomes compare poorly with many other industrialized nations. When the United States is compared with Canada in health status, the Canadians fare better in lower infant mortality rates, lower maternal mortality rates, lower mortality rates for low-risk and moderate-risk surgery, and higher life expectancy for both men and women".

"It is not enough that we find a way to add those who are uninsured to the existing health care system. We must make fundamental reform in that system including effective cost containment efforts and insurance market reform ".

And he continues, " I believe we must build upon the existing public-private health care system which asks employers to share the responsibility of providing access to health care for their employees and their dependents". To all of Senator Mitchell's proposed bill I can only say, it is hodge-podge - where is cost containment and what happened to catastrophic coverage.

Further, Senator Mitchell states, "we are convinced that the administrative costs of existing private health care industry are excessive. We believe that cost savings can and must be achieved in this area". The question of excessive costs, however, is not confined to the private health industry's excessive administration costs. High health care cost in America is much deeper than that and solution thereof requires "gutsy" actions by Congress.

What is wrong with our present hodge-podge system of health care, which Congress must correct? Let us look at the major problems:

- 1) Foremost, inadequate care - 35 million people uninsured and no long-term catastrophic coverage. Mr. Mitchell excludes long-term care in his Americare Program.
- 2) The tremendous monetary waste surrounding federal, state and local government agencies and more so in the private public health care industry.
- 3) Legal weaknesses and accompanying costs surrounding the malpractice aspects and steps taken by doctors and hospitals to protect themselves from financial disaster.
- 4) The costly haphazard way in which unneeded hospital beds are provided and maintained.
- 5) The gouging costly ways of new mechanisms, of doctors, of hospitals, of clinics and health insurance scams.

Health care is a profound and perpetual problem requiring much study by deep-thinking knowledgeable men. Actions such as the appointment of a temporary Commission, as was recently done, are not the answer. Witness the shallow and ineffective conclusions reached by the Commission. The Commission did not totally and adequately deal with the problems enumerated above.

Further, we must get away from the idea of forcing employers to provide some health insurance as is presently done and as proposed by Senator Mitchell and other advocates of Bill S 1227. Likewise, we must do away with costly scam and inadequate Medigaps and Supplemental health programs. And, we must not only provide health coverage for those presently uninsured, but also long-term catastrophic coverage for all Americans. Above all, the financial aspects must be borne by all persons who have income from whatever source, except welfare, on a percentage basis.

ACTIONS TO BE TAKEN BY CONGRESS

Congress must tackle head-on the five major problems of our hodge-podge band-aid health care ways (see problems enumerated above).

Congress must enact legislation which will provide universal financing through a single agency, which is easy to do.

Congress must not be concerned with unemployment which may be caused by the elimination of private health insurance companies. They can be phased out thus reducing this impact. Why the great concern any way? Where was Congress when the steel, auto, textile, shoe and electronics industries suffered huge losses of jobs in this country?

UNIVERSAL FINANCING OF COMPLETE HEALTH CARE

Congress must impose a health tax on all individuals who have income of any kind:- on wages and salaries through a payroll deduction like the withholding tax; on all other persons via the income tax return. The tax should be on a percentage basis. Thus the cost of universal financing would be borne by all in proportion to income, except welfare recipients and the disabled with no income. One agency, as aforementioned, will receive all health tax revenue.

Details for the implementation of such universal financing could be as follows:

- 1) A payroll deduction for wage and salaried persons for which credit will be given on the income tax return such as the credit for the withholding tax.
- 2) A tax on the income tax return multiplied by the number of exemptions shown on the return in order to fully cover health tax costs for all persons. This computation would be as follows:

Total income per return, presently line 23 on return	XXXXXXXX
Add:	
a) tax exempt interest, presently line 8b on return	XXXXXX
b) untaxed Social Security, presently line 21a less taxable amount on return.	XXXXXX
c) untaxed annuities and pensions, presently line 17a less taxable amount on return	XXXXXX
d) total IRA distributions, line 16a less taxable amount on return	XXXXXX
e) Total (base for health tax)	XXXXXXXX
f) Tax rate percent	XX
g) Tax for single person	XXXXXX
h) Multiply tax on line (g) by number of exemptions claimed, line 6e on tax return	X
i) Total health tax to pay if not single	XXXXXX

UNIVERSAL HEALTH FUND DISBURSEMENTS

The agency receiving all health fund revenues, as discussed above, will be responsible for all disbursements to doctors, hospitals, clinics, etc., only after receipt of verified bills from patients with severe penalties on patients and providers for fraud, to insure complete honesty. The penalties must be mandatory and suggested to be one year in jail plus \$1,000 for each count.

UNIVERSAL HEALTH CARE

Coverage for health care will be for Americans ^{all} and covering the following:

- a) All illnesses (including long term)
- b) All accidents
- c) Freedom of choice of doctors, hospitals and other medical facilities. Providers of services not government operated.
- d) Second professional opinions in severe cases, but with certain limitations and well defined guide-lines.

CONCLUSIONS

- 1) Administration of health care through one federal agency will be streamlined and inexpensive.
- 2) The health tax rate will be small as billions of dollars will be collected from all able to pay in proportion to their income.
- 3) The health tax rate can be adjusted as needs dictate.
- 4) Billions of dollars will be saved by the elimination of private health insurance and its hodge-podge aspects.
- 5) Much needed catastrophic coverage will be finally provided.

Sincerely yours,

Peter N. Stavru

As a blond female conscientious civil servant employed at the Naval Research Laboratory, I am deeply offended by the attached so-called jokes being copied and circulated widely. It is most embarrassing to have fellow workers reading and laughing at them in my presence.

What is more appalling is that these were reportedly faxed from the White House to a Ms. Beryl Feldman, a contract secretary at NRL employed by a company called PSI.

How is it possible that contractors can come into a federal facility and freely use government equipment to generate and propagate such demoralizing filth?

I do not wish to file a formal complaint and be subjected to all of the turmoil that would follow. I only want someone to put a stop to this at the source.

Dear Mr. Sununu,

I am writing to express my concern about the Bush Administration's record on environmental issues. As Chief of Staff you must take center stage in the fight for a clean planet, free from excess oil drilling, nuclear waste, acid rain, and CFC's.

Unfortunately, you have not only been a proponent of big business, but your administration has consistently voted against every pro-environment bill and backed every bill that would lead us into further ruins.

As an example I would like to cite the repugnant Johnston-Wallop Energy Bill, S. 1220, which would destroy the Arctic National Wildlife Refuge, increase taxpayer subsidies to the nuclear power industry by \$20 billion, and

threaten hundreds of miles of vital coastlines-including ~~an~~ areas that President Bush has promised to protect from offshore drilling.

I fully understand that the large corporations and oil companies have a greater power to influence your opinions than I do, but your common sense should tell you that the earth must come before all economic matters.

Please use your influence and skill to create changes in this administrations environmental record.

Thank You,

Michael Stein
