GEORGE BUSH
7TH DISTRICT, TEXAS

MEMBER:
WAYS AND MEANS
COMMITTEE

Congress of the United States
House of Representatives
Washington, D.C. 20515

WASHINGTON OFFICE:
LONGWORTH
HOUSE OFFICE BUILDING

DISTRICT OFFICE:
FEDERAL OFFICE BUILDING
HOUSTON, TEXAS 77002

Don -

8-18

Please take the house
key of my car keys and
put it on Bar's car keys
so I can get in next Sunday.

Would you meet me
on that noon arrival next
Sunday? I'll come to the
office Sunday afternoon for
an interview.

Good luck on the trip.

Get some rest - please.

(They call Agnew
Zorba the Keep!!)

Best ever - GB

Don - The air
condition main duct
intake is loose (off)
can u get it fitted
back on - Thanks
NANG IN-GB

Please permit Mr. Don
Rhodes to leave my car
in the NW garage. Mr.
Schott has made
arrangements for this.

George Bush
Ambassador
Representative of the United States of America
to the United Nations

COMMITTEE ON WAYS AND MEANS
HOUSE OF REPRESENTATIVES

DELIVER TO JUPITER, FLORIDA

leave Boat at Thunderbird Dealer - he has
a marina there.

Tell Dealer - Senator Bush will be over
to talk to him about it.

Telephone my father at Hoke Sound, Florida
305 - 546 - 5703 (if no answer ask
information)

If no answer at all - leave note
at residence of Sen. Bush

Jupiter Island

Hoke Sound, Florida.

(Inquire at Jupiter Island Club.)

2 sets of Keys to boat are in glove compartments of
car - Please give to Thunderbird Dealer.

Photocopy from George Bush Presidential Library

1. RUSS - Re-work two old ones. Replace old ones with two in boat.

2. PROBLEM - Sometimes port engine won't start. Turn key and engine won't turn over at all. You jump it and motor will start OK. Maybe loose wire in switch.

3. ENGINE PROBLEMS - Port engine. Hangs up in gear. Shift forward to neutral - engine often stays in forward, except for reverse. Idles OK but can never be sure what gear it is in. Sometimes engine jumps up a little after shift to reverse.

Starboard engine. Same as port engine but idles a little too slow. Also jumps out of water a lot after shift to reverse.

4. WIRING - Must be loose connections.

1. Gas gauges don't record.
2. Turn wiper switch on and gas gauges go on but not accurately.
3. Horn sometimes does not blow at all.
4. Cabin light sometimes won't work.
5. System needs to be checked out---running lights, bilge pump, blower works OK, but rest are very temperamental.

5. BATTERY CABLE - Please inspect to see if need new cables.

6. TRIM TABS - Please replace if necessary. May be OK. Boat is in pretty good trim.

7. Bolt holding one generator keeps falling out. Bolt is on top of steering panel, near hatch. Please replace it.

8. Several screws have dropped out into bilge. On port engine, carburetor lacks one long screw.

TYPE

1. props - we work two old ones
- replace old ones with 2
in boat

2. Key problem -
sensitive port engine won't
start - ~~the~~ turn key and
engine won't turn over, at
all - it jump it and motor
will start OK.

maybe loose wire in switch

3. Engine Problems -
Port engine - stays up in
gear - shift from forward
to neutral - engine often
stays in forward
same for reverse -

I don't know what gear it
is in. sometimes engine
jumps up a little after
shift to reverse.

Starboard engine
same as port engine
but idles a little
too slow - Also
jump out of water a lot
after shift to reverse.

4

Wiring -

Must be loose connections

1. Gas gauges don't record
2. Turn wiper switch on and gas gauges go on but not accurately
3. Horn sounds does not blow at all
4. Cabin light sounds
5. won't work
5. System needs to be checked out - repairing lights, bilge pump, blower work OK but not are very temperamental

5

Battery Cable -

please inspect to see if need new cables.

6

Trim Tabs - please replace

if necessary - may be OK - Boat is in

pretty good trim.

7 Bolt holding one generator
heaps falling out - Bolt is
on top of steering panel -
near hatch - Please replace
it.

8 ~~Several~~ Several servers have
dropped out into bilge -
On port engine ^{bay} ~~bilge~~
locks on ^{by} several
