Mr. David Cullen, 20 North 53rd Ave., West Duluth, Minn.

Disposition of Remains- Pvt. Frank M. Cullen, Serial 3234357,
Company D, 349th Infantry.

1. This office wishes to advise that the American Cemetery, at Héricourt, Hte. Saône, France, in which the body of your son, the late Private Frank M. Cullen, is now buried, will not be retained by the United States Government as one of its permanent cemeteries in France. It has been necessary to abandon this cemetery because a large proportion of the bodies have been returned to this country, leaving the remaining graves widely scattered throughout the entire cemetery. Under such conditions it has been found advisable to transfer these bodies to the cemeteries which are to be maintained by our Government, unless the nearest of kin desires the body returned to the United States.

2. Please advise this office by return mail (1) whether you desire his body returned to the United States and (a) shipped to you or (b) to the National Cemetery at Arlington, Virginia, the Government bearing the expense; (2) transferred to a permanent French Military Cemetery, the next of kin to assume all responsibilities and obligations in connection with the upkeep of the grave after the transfer is made; or (3) whether you would now be willing to have this Government transfer the body to one of its permanent American Cemeteries in France, wherein you are assured that the grave site will always be carefully and tenderly maintained as a fitting memorial of the late soldier's sacrifice and an appropriate headstone will be erected to mark his resting place therein.

3. In the event you desire the body returned to the United States for private burial, you are informed that the War Risk Insurance Bureau, Washington, D.C., will allow reimbursement, not to exceed \$100, upon presentation of the enclosed Form #531, properly executed and an itemized statement, or receipted bills to cover charges incident to the removal of the body from the railroad station and the actual funeral expenses.

Disposition of Remains -Pvt. Frank M. Cullen, Serial 3234357,
Company D, 349th Infantry.

1. This office wishes to advise you that the American Cemetery, at Hericourt, Hte. Saone, France, in which the body of your son, the late Private Frank M. Cullen, is now buried, will not be retained by the United States Government as one of its permanent cemeteries in France. It has been necessary to abandon this cemetery because a large proportion of the bodies have been returned to this country, leaving the remaining graves widely scattered throughout the entire cemetery. Under such conditions it has been found advisable to transfer these bodies to the cemeteries which are to be maintained by our Government, unless the nearest of kin desires the body returned to the United States.

2. Please advise this office by return mail (1) whether you desire his body returned to the United States and (a) shipped to you or (b) to the National Cemetery at Arlington, Virginia, the Government bearing the expense; (2) transferred to a permanent French Military Cemetery, the next of kin to assume all responsibilities and obligations in connection with the upkeep of the grave after the transfer is made; or (3) whether you would now be willing to have this Government transfer the body to one of its permanent American Cemeteries in France, wherein you are assured that the grave site will always be carefully and tenderly maintained as a fitting memorial of the late soldier's sacrifice and an appropriate headstone will be erected to mark his resting place therein.

3. In the event you desire the body returned to the United States for private burial, you are informed that the War Risk Insurance Bureau, Washington D.C., will allow reimbursement, not to exceed \$100, upon presentation of the enclosed Form #531, properly executed and an itemized statement, or receipted bills to cover charges incident to the removal of the body from the railroad station and the actual funeral expenses.

INSTRUCTIONS FOR THE PROPER COMPLETION OF G. R. S. FORM NO. 16-A

Enter information, as noted below, on reverse side of sheet in the *corresponding numbered space*. This form is supplemental to and is to be forwarded with G. R. S. Form 1-a, reporting reburial locations. To be used in answer to Question 26, Form 114, in case no means of identification on body.

1. Show soldier's name, serial number, rank and organization, and by whom disinterred and reburied.
2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.
3. Give date and accurate information as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.
4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.
5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".
 (b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? List any personal effects, letters, money-order receipts, and the like found on body or in grave. Give any and all information which it is thought might be of use in identifying the body, other than that tabulated under Item No. 6.
6. Give all information as to body description and dental chart as nearly correctly as the condition of the body will allow. Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspid (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

<p>MISSING TEETH.....All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus :</p>	 <p style="text-align: center;">TOOTH MISSING TOOTH MISSING</p>
<p>CROWNED TEETH.....Block in solid the crown of tooth (label gold, porcelain, or gold and porcelain), thus :</p>	 <p style="text-align: center;">GOLD CROWN PORCELAIN CROWN</p>
<p>BRIDGE WORK.....Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge), thus :</p>	 <p style="text-align: center;">GOLD AND PORCELAIN BRIDGE GOLDBRIDGE</p>

<p>CARIES (CAVITIES).....Outline location and size of cavity, shade in thus :</p>	 <p style="text-align: center;">CAVITY DECAYED DECAYED</p> <p style="text-align: center;">DECAYED</p>
<p>DENTURES (PLATES).....Draw diagram of relative size and shape of plate, block in teeth attached and indicate retaining clasps on natural teeth with the word "clasp."</p>	

7. Show name of person supervising the disinterment and the name and title of the person approving same.

8. Show name of person supervising the reburial and the name and title of the person approving same.
