293 Curotto, Vittorio.

April 27, 1926.

Mr. Giubotto Curotto,  
Broghetto Giovanni,  
Divaro,  
Genoa, Italy.

Dear Sir:

The records of this office show that your brother, the late Private Vittorio Curotto, 48267, Co.L, 18th Inf., lost his life on July 18, 1918, while serving with the American Army in France, but due to the confusion of war, no exact data has been available as to his burial place and consequently his name has been carried on our records as among those whose graves have not been located.

Recent search over the battlefields by trained personnel of this Service has resulted in the recovery of many of our soldier dead whose graves had not heretofore been found and among others so recovered, we are glad to inform you, was the body of your brother. His remains were found in a shell hole grave in the Commune of Domniers (Aisne), France.

In accordance with instructions received from the Office of the Quartermaster General, U.S. Army, Washington, D.C., the remains of your brother were permanently interred on April 17, 1926, in a manner befitting one who died in the service of the United States Army. His tomb, which is grave 12, row 6, block D, is in the Oise-Aisne American Cemetery at Seringes-et-Nesles (Aisne), France. This is one of the largest American cemeteries in Europe, wherein repose the remains of nearly 6,000 of his comrades whose graves will, for all time, be under the care and protection of the Government of the United States. The Caretaker in charge of the cemetery is an American citizen, and you may rest assured that your brother's grave will receive the care and respect to which the sacrifice he made entitles him. Over his grave has been erected a marker bearing his name and rank, which will eventually be replaced by a permanent headstone likewise inscribed.

Should you desire a photograph of the grave, kindly advise and this Service will be pleased to send same at no expense to you.

Very truly yours,

Wm. O. Smith,  
Lieut. Col., Q.M. Corps,  
Chief.

## INSTRUCTIONS FOR THE PROPER COMPLETION OF G. R. S. FORM NO. 16-A

Enter information, as noted below, on reverse side of sheet in the *corresponding numbered space*. This form is supplemental to and is to be forwarded with G. R. S. Form 1-a, reporting reburial locations. To be used in answer to Question 26, Form 114, in case no means of identification on body.

1. Show soldier's name, serial number, rank and organization, and by whom disinterred and reburied.
2. Give date and accurate information as to location from which the body was disinterred and the group and unit which made disinterment.
3. Give date and accurate information as to location of reburial and the group and unit which made reburial, and how reburial was made—in casket, wooden box, etc.
4. State to what degree decomposition has progressed, whether recognition is possible, and how the body was originally buried—in a casket, box, burlap, etc. This statement should be as complete as possible.
5. (a) State whether identification tags were found buried with body and on grave marker by reporting "Yes" or "No".  
(b) State whether or not body appears to have been a hospital case. Were any identifying articles found in or on body or grave? List any personal effects, letters, money-order receipts, and the like found on body or in grave. Give any and all information which it is thought might be of use in identifying the body, other than that tabulated under Item No 6.
6. Give all information as to body description and dental chart as nearly correctly as the condition of the body will allow. Items (e) and (f) under the body description are very important and should be very complete. The dental chart is also very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found.

<b>MISSING TEETH</b>	All teeth missing through previous extraction (not those fractured or displaced by recent wounds) should be scratched out, thus:	
<b>CROWNED TEETH</b>	Block in solid the crown of tooth (label gold, porcelain, or gold and porcelain), thus:	
<b>BRIDGE WORK</b>	Block in solid the crown of tooth (label gold bridge, gold and porcelain bridge) thus:	
<b>FILLINGS</b>	Draw filling on tooth accurately as possible (block in and label gold, silver, cement), thus:	
<b>CARIES (CAVITIES)</b>	Outline location and size of cavity, shade in thus:	
<b>DENTURES (PLATES)</b>	Draw diagram of relative size and shape of plate block in teeth attached and indicate retaining clasps on teeth with word "clasp"	

7. Show name of person supervising the disinterment and the name and title of the person approving same.
8. Show name of person supervising the reburial and the name and title of the person approving same.

This body was found in grave with Everett Wisner and Wm. Robertson of Co. L, 18 Inf and Co. A, 16 Inf respectively. All members of both companies ~~were~~ who were killed in this vicinity were checked. Curotto is the only one whose chart checks. It will be noted that tooth # 6 at camp was checked with an X while 17 and 32 were crossed out with a straight line, which probably would indicate a difference in the condition of tooth # 6 and that of nos. 17 & 32.

1. Forwarded herewith is G.R.S. Form 16-A for the remains of Unknown U.S. Soldier U-2458 recovered by the Research personnel of this office.

2. These remains were recovered from a large shell hole which also contained the remains of Privates William Robinson and Everett K. Wisner and report of their recovery has been forwarded to your office.

3. Following is a list of unlocated members of Co.A, 16th Inf., and Co.L, 18th Inf., killed in action about the same date and in the same sector:

WAR DEPARTMENT,  
THE ADJUTANT GENERAL'S OFFICE,  
WASHINGTON.

Mr. G. Curotto,  
Rassaro, Renoa, Italy.

RECEIVED  
UNCLASIFIED

Dear Madam:-

The War Department desires to ascertain the wishes of the families of officers, enlisted men, and civilian employees regarding the permanent disposition of the bodies of those who have died overseas.

The original plan of the Department was to deliver the body in every case at the home address of the deceased to the person legally entitled to dispose of the remains. A desire has been expressed, however, in numerous instances to have the body remain abroad, and General Pershing is likely soon to enter into negotiations with the French and Allied Governments with the view of establishing permanent cemeteries for members of the American Expeditionary Forces. Marshal Petain in a most courteous letter has informed General Pershing that "France would be happy and proud to retain the bodies of the American victims who have fallen upon her soil."

A bill is now before Congress for the establishment of "Fields of Honor" abroad, which will insure future care by the United States Government as national cemeteries are now cared for. Burials have been made heretofore in cemeteries of the Allied nations or at or near the battle field in land set apart for this purpose as a cemetery, and religious services in accordance with the rites of the Protestant, Catholic, or Hebrew faith have been held at the grave.

In case the remains of a deceased soldier are returned to the United States they will be interred either at the former home of the deceased or at a national cemetery, according to the wishes of the one authorized to direct the disposition of the remains, and all expenses, including transportation, casket, shipping case, flag, and the preparation of the remains for shipment, will be paid by the United States. Hire of a hearse and other burial expenses incurred at the home of the deceased may be paid, on application by the relatives, by the Bureau of War Risk Insurance, Treasury Department.

In order that the proper disposition of the remains may be made, and that such disposition be directed by the person entitled to do so, the War Department will recognize the right to direct the disposition of remains in the following order:

In the case of an unmarried man—

- (1) Father; (2) mother, if father is dead; (3) brother, if both parents are dead; (4) sister, if both parents are dead and there are no brothers.

In the case of a married man—

- (1) Wife; (2) parents or children and other relatives in order set forth above.

It is desired that the information indicated on the inclosed card be furnished concerning the person named thereon at the earliest practicable date. If the card is received by some one not authorized to direct the disposition to be made of the remains, please deliver this circular and the card to the person who is entitled to do so.

The Department is unable to state when it will be possible to begin the removal of the remains of the soldiers, but the information requested is being collected at this time in order that there may be no delay when the time comes for such removal.

In returning the card please use the inclosed addressed penalty envelope, which requires no postage.

Very respectfully,

P. C. HARRIS,  
*The Adjutant General.*
