

SGPS/SHOWRIG DOUBLES DOWN ON GROWTH WITH NASHVILLE EXPANSION ON COMPANY'S 50TH ANNIVERSARY

Las Vegas, NV – March 18, 2024 - **SGPS/ShowRig, Inc.**, and its related companies, which have been at the forefront of entertainment technology, including automation, planning and design, custom fabrication, and equipment rental since 1974, announces a move to a new Nashville facility, further solidifying its commitment to serving the touring, events, film, and television industries.

The new Nashville location, located at 8560 Centre Pointe Way in La Vergne, is more than twice the size of the current space and will provide enhanced tour support and events capabilities, a core focus for SGPS/ShowRig in the region. The new facility will open March 25, 2024. This strategic move comes amidst a banner year for the company, marking its 50th anniversary and an expansion into Europe.

"This expansion reflects our commitment to providing exceptional service and cutting-edge technology to our clients across the country, ensuring their productions reach new heights," said **Ned Collett**, President of SGPS/ShowRig. **"As we celebrate our 50th anniversary, we're confident that this expansion and our continued commitment to excellence ensure that SGPS/ShowRig is well-positioned to lead the industry for the next 50 years and beyond."**

Rick McCoige, Operations Manager of SGPS/ShowRig Nashville said, "For the past 14 years, SGPS/ShowRig has cultivated long-term tour relationships with Nashville's entertainment industry. With the expansion of our Nashville footprint, we will provide a full offering of rigging, staging, and automation services to not only the Nashville area, but to the entire southeastern US."

The Nashville facility expansion is just one element of SGPS/ShowRig's ongoing growth trajectory. In 2023, the company announced the opening of its first European office, significantly increasing its international service offerings. That office, in Utrecht, Netherlands, will open in spring 2024. Additionally, SGPS/ShowRig continues to invest in automation technology, adding the intuitive Cybermotion hoist system to its arsenal.

ABOUT THE SGPS/SHOWRIG COMPANIES:

SGPS/ShowRig has the ingenuity, equipment, and experience to ensure projects succeed. Since its inception in 1974, the SGPS/ShowRig companies have been at the forefront of entertainment technology and continue to excel at pulling off the impossible for concert, film, and television production clients. We pride ourselves in our ability to understand and adapt to the unique needs of the entertainment industry and to provide innovative solutions.

With eight locations across the U.S. (Atlanta, Boston, Chicago, Las Vegas, Los Angeles, Nashville, and New Orleans) and Europe (Utrecht, Netherlands) fully stocked with the best equipment to get the job done and staffed with the most creative people in the industry, SGPS/ShowRig can handle a wide array of planning and design, custom fabrication, automation, product rental, and installation needs.

SGPS/ShowRig clients include some of the biggest names in entertainment, such as musical acts blink-182, Kenny Chesney, Daddy Yankee, Billie Eilish, KISS, Motley Crue, Trans-Siberian Orchestra, as well as numerous Award-winning and well-known film and television productions.
