

ONE TO MILLIONS CHALLENGE

February 17-19, 2026

Anik Singal | Jason Fladlien

WELCOME TO THE ONE TO MILLIONS CHALLENGE!

We're happy you're here.

Over the next three days, you're not just going to learn about webinars. You're going to build one. Step by step. With us. In real time.

By the end of this challenge, our goal is simple...

- You walk away with a high-ticket offer you're proud to sell...
- A completed webinar outline you can confidently present...
- And a clear path to automate and scale it using AI and evergreen systems.

This workbook is your implementation guide.

Use it during every session. Take notes. Complete the exercises. Paste in your GPT outputs. Map your traffic plan. The more you put into this, the more you'll get out of it.

We've run over a thousand webinars between us. Generated millions of registrations. Produced hundreds of thousands of sales. And what we're sharing with you inside this challenge is the distilled version of what actually works today.

You don't need prior webinar experience. You don't need tech skills. And you definitely don't need to "figure it out later."

We're writing this with you. Live. Using the same battle-tested frameworks and AI prompts we use in our own businesses.

So here's how to approach the next three days.

Show up live.
Participate fully.
Complete the homework.
Resist the urge to overthink.
Progress beats perfection every time.

And most important, Trust The Process (TTP).

If you do the work, you will leave this challenge with a real, deployable asset. Something you can launch, automate, and scale long after these three days are over.

We're honored to have you here.

Let's build something powerful together.

— Jason Fladlien & Anik Singal

Your Final Offer (GPT Output)

Copy and paste the final output from your Offer Creation GPT below.
